Reasoning

Instructions

For the following questions answer them individually

Question 1

The statements below are followed by two conclusions labeled I and II. Assuming that the information in the statements is true, even if it appears at variance with generally established facts, decide which conclusion(s) logically and definitely follow(s) from the information given in the statements.

Statements:

- 1) All birds are cups.
- 2) Some cups are cats.

Conclusion:

- I. All birds are cats.
- II. Some cups are birds.

- A Only conclusion I follows.
- B Either conclusion I or conclusion II follows.
- C Both conclusions follow.
- D Only conclusion II follows.

Answer: D

Question 2

There is only one dictionary in a Library which will be used by 6 students P, Q, R, S, T and U, one by one. S will use it immediately after Q and before P. T will use it immediately after R and before U. R will use the dictionary after P. Who will use the dictionary the last?

- A Q
- B P
- C T
- D U

Answer: D

Question 3

In a certain code, CONCOLOGY is written as YGOLOCNOC. How will PALAEOGRAPHY be written in that code?

- A YHPRAGOEALAP
- B YHPARGOEALAP
- C YHPARGOAEALAP
- D YHPARGEOALAP

Answer: B

Question 4

Select the option that will correctly replace the question mark (?) in the series.
7, 18, 40, 73, ?

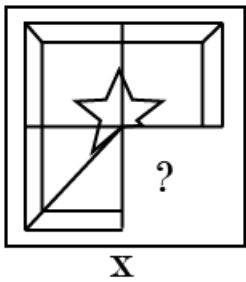

- A 117
- B 115
- C 127
- D 107

Answer: A

SSC GD Important Questions and Answers PDF

Question 5

Select a figure from amongst the four alternatives that when placed in the blank space (?) of figure x will complete the pattern. (Rotation is not allowed).

- A
- B
- C
- D

Answer: B

Question 6

Select the option that will correctly replace the question mark (?) in the series.
15, 19, 35, 71, ?

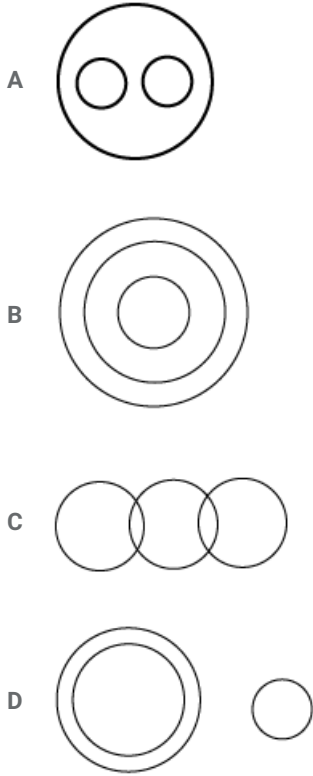

- A 125
- B 141
- C 145

D 135

Answer: D

Question 7

Select the Venn diagram that best represents the given set of classes.
India, Visakhapatnam, Andhra Pradesh

Answer: B

SSC GD Syllabus (Download PDF)

Question 8

Select the option that is related to the third term in the same way as the second term is related to the first term.
Quarrel : War :: Wish : ?

- A Ask
- B Desire
- C Drown
- D Sad

Answer: B

Question 9

Eight friends A, B, C, D, E, F, G and are sitting around a circular table facing each other for a lunch. A is opposite F and third to the right of B. G is between F and D. is to the left of D. E is between C and A. Who is sitting third to the right of A?

- A D
- B G

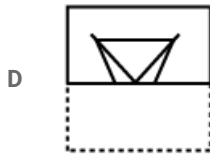

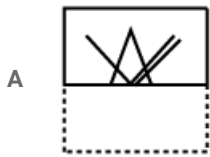

C B

D C

Answer: B

Question 10

A square transparent sheet with a pattern is given. How will the pattern appear when the transparent sheet is folded along the dotted line?

Answer: B

20 SSC GD Mocks 117 (Latest Pattern)

Question 11

Find out the two signs to be interchanged to make the following equation correct.

$$24 + 2 \times 2 - 6 \div 3 = 22$$

A \times and \div

B $-$ and \div

C $+$ and $-$

D $+$ and \times

Answer: C

Question 12

Choose the odd one out of the given options.

- A Kabul
- B Bahrain
- C Vienna
- D Canberra

Answer: B

Question 13

In a certain code, OOLOGY is written as 89. How will VIROLOGY be written in that code?

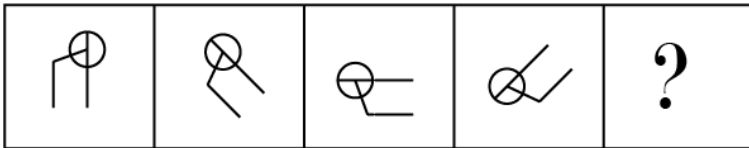

- A 89
- B 123
- C 97
- D 113

Answer: B

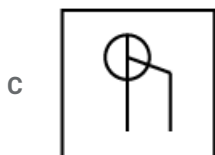

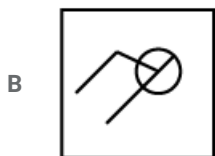

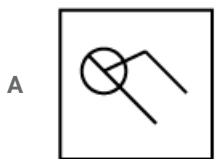

[SSC CPO Previous Question papers \(download pdf\)](#)

Question 14

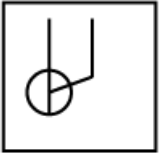

Choose the option that would follow next in the given figure series.

A B C D E

D

Answer: D

Question 15

The statements below are followed by two conclusions labeled I and II. Assuming that the information in the statements is true, even if it appears at variance with generally established facts, decide which conclusion(s) logically and definitely follow(s) from the information given in the statements.

Statements:

- 1) All goats are dogs.
- 2) Some goats are cows.

Conclusion:

- I. Some dogs are cows.
- II. Some cows are dogs.

- A Only conclusion I follows.
- B Only conclusion II follows.
- C Neither conclusion I nor conclusion II follows.
- D Both conclusions follow.

Answer: D

Question 16

Select the option that is related to the third number in the same way as the second number is related to the first number.

19 : 441 :: 17 : ?

- A 225
- B 144
- C 169
- D 361

Answer: D

SSC MTS Previous Question papers (download pdf)

Question 17

Choose the odd number out of the given options.

- A 519
- B 566
- C 357
- D 276

Answer: B

Question 18

Seven friends O, P, Q, R, S, T and U are watching a movie sitting in a row. S is sitting at one extreme end. Q is sitting second to the right of S. P is sitting between O and Q. U is not sitting at any extreme end. is sitting to the left of T. Who is sitting to the immediate right of P?

- A Q
- B R
- C U
- D O

Answer: D

Question 19

Select the option that is related to the third term in the same way as the second term is related to the first term.
DFH : IKM : EGI : ?

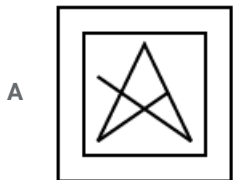

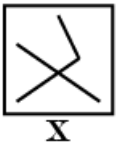

- A JLM
- B JLN
- C JIM
- D JLI

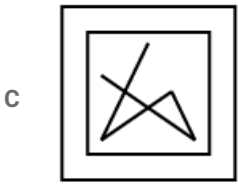

Answer: B

Free SSC Study Material (18,000 Solved Questions)

Question 20

Choose the option in which the figure marked 'X' is embedded. (Rotation is not allowed)

Answer: A

Question 21

Select the option that will correctly replace the question mark (?) in the given pattern.

4	7	6
5	?	8
41	85	100

A 13

B 6

C 9

D 11

Answer: B

Question 22

Select the option that will correctly replace the question mark (?) in the series.
QLA, ONY, MPW, KRU, ?

A ITS

B ITU

C JTS

D IST

Answer: A

Question 36

The National Sports Day is celebrated on which day in India?

- A August 29
- B August 26
- C August 28
- D August 27

Answer: A

Question 37

The Sangai festival is celebrated in which of the following states of India?

- A Arunachal Pradesh
- B Meghalaya
- C Nagaland
- D Manipur

Answer: D

Question 38

According to Union Budget 2018, how much amount was allocated for Operation Green?

- A 600 crore
- B 500 crore
- C 400 crore
- D 700 crore

Answer: B

SSC CGL Free Mock Test (Latest Pattern)

Question 39

Which juice secreted by the organs in the alimentary canal plays an important role in the digestion of fats?

- A Pancreatic juice, saliva
- B Hydrochloric acid, mucus
- C Bile juice, Pancreatic juice
- D Saliva, hydrochloric acid

Answer: C

Question 40

"The Long walk to Freedom" is the autobiography of:

- A Nelson Mandela
- B Martin Luther King
- C John F Kennedy
- D Abraham Lincoln

Answer: A

Question 41

Who is the Ex-Office Chairman of Rajya Sabha?

- A Opposition Leader in Rajya Sabha
- B Speaker
- C Vice President of India
- D Prime Minister

Answer: C

SSC CHSL Free Mock Test (Latest Pattern)

Question 42

Which of the below rivers is also referred to as "Dakshin Ganga"?

- A Periyar
- B Krishna
- C Kaveri
- D Godavari

Answer: D

Question 43

Who of the following gave the statement "Swaraj is my birthright and I shall have it"?

- A Bal Gangadhar Tilak
- B Gopal Krishna Gokhale
- C Chittaranjan Das
- D Dada Bhai Naoroji

Answer: A

Question 44

The ancient name of Coastal Orissa was:

- A Kalinga
- B Kaushambi
- C Kamarupa
- D Khandesh

Answer: A

Answer: B

Question 46

Which of the following is NOT a major source of proteins?

- A Soyabean
- B Wheat
- C Fish
- D Gram

Answer: B

Question 47

A solution of which of the following is needed to test the presence of proteins?

- A Copper sulphate and caustic soda solution
- B Iodine and caustic soda solution

C Copper sulphate and iodine solution

D Iodine solution

Answer: A

SSC GD Constable Free Mock Test (Latest Pattern)

Question 48

Which of the following statements describes "endemic species"?

A Species with less population may move to the category of endangered species.

B Species that are not found existing after intense searches.

C Species that are found only in some particular areas.

D Species that have come from abroad.

Answer: C

Question 49

Which of the following days is observed as the "Human Rights Day"?

A February 10

B November 10

C December 10

D January 10

Answer: C

Question 50

Which of the following aquatic animals does NOT have gills?

A Octopus

B Squid

C Clown fish

D Whale

Answer: D

Instructions

For the following questions answer them individually

Question 51

If C alone can complete two-third part of a work in 12 days, then in how many days C can complete the whole work?

- A 24 days
- B 15 days
- C 8 days
- D 18 days

Answer: D

Explanation:

Given, C can complete $\frac{2}{3}$ rd part of work in 12 days.

$$\frac{2}{3} \text{ --- } > 12$$

$$1 \text{ --- } > ?$$

Total work will be completed in $1 \times \frac{12}{2} \times 3 = 18$ days

SSC CPO Free Mock Test (Latest Pattern)

Question 52

What is the value of $512 \div 16 + 4 \times 2$ of $\left(\frac{1}{8} + \frac{1}{3}\right)$?

- A 455
- B 449
- C 439
- D 443

Answer: C

Explanation:

$$512 \div 16 + 4 \times 2 \text{ of } \left(\frac{1}{8} + \frac{1}{3}\right) = 16 + 4 \times 2 \times 24 = 32 + 12 = 44$$

Question 53

The perimeter of a rectangular table is 60 cm. If the area of the rectangular table is 209 cm^2 , then what will be the length of the table?

- A 17 cm
- B 19 cm
- C 13 cm
- D 21 cm

Answer: B

Explanation:

Let Length of the rectangle = l cm

Breadth of the rectangle = b cm

Given, $2(l+b) = 60 \Rightarrow l+b = 30$

$\Rightarrow b = 30-l$

Given, $lb = 209$

Substituting $b = 30-l$ in above equation,

$l(30-l) = 209$

$\Rightarrow 30l - l^2 = 209$

$\Rightarrow l^2 - 30l + 209 = 0$

$l^2 - 11l - 19l + 209 = 0$

$\Rightarrow l(l - 11) - 19(l - 11) = 0$

$\Rightarrow (l - 11)(l - 19) = 0$

$l = 11$ or $l = 19$

Therefore, Length of the rectangle can be 11 cm or 19 cm

Question 54

Marked price of an article is 70% more than its cost price. After giving a discount of 10%, article is sold for ₹ 1071. What will be the cost price of the article?

A ₹ 530

B ₹ 590

C ₹ 700

D ₹ 620

Answer: C

Explanation:

Let Cost Price of the article be Rs. $100x$

Then, Marked Price of the article = 170% of Rs. $100x$ = Rs. $170x$

Selling Price after discount of 10% = 90% of Rs. $170x$ = Rs. $153x$

Given, Rs. $153x$ = Rs. 1071

$\Rightarrow x$ = Rs. 7

Therefore, Cost Price = Rs. $100x$ = Rs. 100×7 = Rs. 700

SSC GD Free Videos (Youtube)

Question 55

A certain sum at compound interest amounts to Rs. 7800 for 5 years and for six years to ₹ 9048 (interest is compounded annually). What is the rate of interest?

A 12%

B 15%

C 16%

D 14%

Answer: C

Explanation:

Given, Amount for 5 years = Rs. 7800

Amount for 6 years = Rs. 9048

Then, Interest for 6th year = Rs. 9048 - Rs. 7800 = Rs. 1248

Principal for 6th year = Rs. 7800

Let the rate of interest be R%

$$7800 \times (1 + \frac{R}{100}) = 9048$$

$$1 + \frac{R}{100} = \frac{9048}{7800}$$

$$\frac{100 + R}{100} = \frac{9048}{7800}$$

$$\Rightarrow 100 + R = 116$$

$$\Rightarrow R = 16\%$$

Therefore, Rate of interest = 16%

Question 56

If cost price of an article is ₹ 928 and profit is 15%, then what will be the net profit?

A ₹ 154.50

B ₹ 139.20

C ₹ 212

D ₹ 168.40

Answer: B

Explanation:

Given, Cost Price = Rs.928

Profit = 15%

$$\text{Then, Net profit} = 15\% \text{ of } 928 = \frac{15}{100} \times 928 = \text{Rs.}139.2$$

Question 57

Simple interest for three years for a certain sum at the rate of 15% is ₹ 9000. If the rate of interest becomes 30%, then what will be the simple interest for two years?

A ₹27000

B ₹4500

C ₹12000

D ₹9000

Answer: C

Explanation:

Let the principal be Rs.P

Rate of interest = 15% per annum

Time period = 3 years

$$P \times 15 \times 3$$

$$100 = \text{Rs.}9000$$

$$\Rightarrow P = \frac{900000}{45} = \text{Rs.}20000$$

Now, Rate of interest = 30% per annum

Time period = 2 years

$$\frac{20000 \times 30 \times 2}{100} = \text{Rs.}12000$$

SSC GD Free App

Question 58

What is the value of $1040 \div 65 - 8 \times \frac{1}{2}$ of $(\frac{1}{2} - \frac{1}{3})$?

- A $\frac{44}{3}$
- B $\frac{49}{3}$
- C $\frac{50}{3}$
- D $\frac{46}{3}$

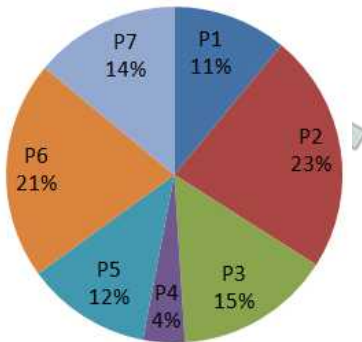

Answer: D

Explanation:

$$1040 \div 65 - 8 \times \frac{1}{2} \text{ of } (\frac{1}{2} - \frac{1}{3}) = \frac{1040}{65} - 8 \times \frac{1}{2} \text{ of } \frac{1}{6} = \frac{1040}{65} - 8 \times \frac{1}{12} = \frac{1040}{65} - \frac{2}{3} = \frac{48 - 2}{3} = \frac{46}{3}$$

Question 59

The pie chart given below shows the imports of 7 different items P1, P2, P3, P4, P5, P6 and P7 as a percentage of total imports of a country.

If the total import of item P1 is ₹ 33000, then what is the value of imports of item P2?

- A 46000
- B 57500
- C 80500
- D 69000

Answer: D

Explanation:

Let total imports of all items be Rs.x

Imports of P1 = 11% of x

Given, 11% of x = Rs.33000

$$\Rightarrow x = 33000 \times \frac{100}{11} = \text{Rs.}300000$$

Then, Imports of P2 = 23% of 300000 = Rs.69000

Question 60

If $\frac{1}{A} : \frac{1}{B} : \frac{1}{C} = 2 : 3 : 4$, then what is the ratio of $A : B : C$?

- A 6 : 4 : 3
- B 4 : 3 : 6
- C 3 : 6 : 4
- D 12 : 6 : 8

Answer: A

Explanation:

$$A : B : C = 2 : 3 : 4$$

Then, $A : B : C = 2 : 3 : 4$

LCM = 12

$$= \frac{12}{2} : \frac{12}{3} : \frac{12}{4} = 6 : 4 : 3$$

SSC GD Important Questions and Answers PDF

Question 61

In a class there are total 70 students. The average weight of 26 girls is 28 kg and average weight of the remaining students is 35 kg. What will be the average weight(in kg) of all 70 students?

- A 32.4 kg
- B 36.8 kg
- C 35.2 kg
- D 34.6 kg

Answer: A

Explanation:

Given, Number of students = 70

Given, Average weight of 26 girls = 28 kg

Total weight of 26 girls = $28 \times 26 = 728$ kg

Remaining students = $70 - 26 = 44$

Average weight of 44 students = 35

Total weight of 44 students = $44 \times 35 = 1540$ kg

Total weight of 70 students = $1540 + 728 = 2268$ kg

Average weight of 70 students = $\frac{2268}{70} = 32.4$ kg

Question 62

A 250 metre long train takes 30 seconds to cross a 350 metres long bridge. How much time train will take to cross a 550 metre long bridge?

- A 38 seconds
- B 42 seconds
- C 40 seconds
- D 35 seconds

Answer: C

Explanation:

Length of the train = 250 m

Length of the first bridge = 350 m

Total distance to be travelled to cross the bridge = $250+350 = 600$ m

Then, Speed of the train = $\frac{600}{30} = 20m/sec$

Length of the second bridge = 550 m

Total distance = $550+250 = 800$ m

Then, Time taken = $\frac{800}{20} = 40$ seconds

Question 63

In an election between Ravi and Manoj, Ravi gets 61% of the total valid votes. If total votes were 25000 and 20% of the total votes were declared invalid, then other candidate Manoj get how much number of votes?

A 8200

B 7800

C 9750

D 8025

Answer: B

Explanation:

Given, Ravi got 61% of valid votes. Then, Manoj gets 39% of valid votes

Given, Total votes = 25000

Total valid votes = 80% of 25000 = 20000

Then, Manoj gets 39% of 20000 = 7800 votes

SSC GD Syllabus (Download PDF)

Question 64

The price of two articles are in the ratio of 5 : 6 respectively. The price of first article is increased by 30% and the price of second article is decreased by X%. If the new ratio is 13 : 11 respectively, then what is the value of X?

A 9.09

B 8.33

C 11.11

D 12.5

Answer: B

Explanation:

Let the Cost Price of two articles be Rs.500 and Rs.600

Price of first article is increased by 30% \Rightarrow 130% of 500 = Rs.650

Price of second article is decreased by X% \Rightarrow (100-X)% of 600 = Rs.(600-6X)

Given, $650 : 600-6X = 13 : 11$

$\Rightarrow (600 - 6X) \times 13 = 650 \times 11$

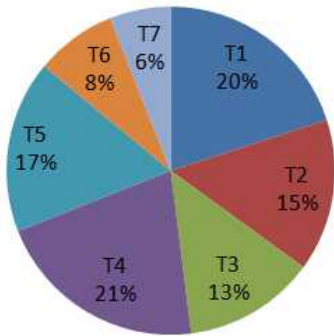

$\Rightarrow 600 - 6X = 550$

$\Rightarrow 6X = 50$

$\Rightarrow X = 8.33$

Question 65

The pie chart given below shows sale of different types of cars in a city for a given year. The total sale of cars in the city is 600000.

How many T4 cars are sold in the city for the given year?

- A 144000
- B 138000
- C 126000
- D 128000

Answer: C

Explanation:

Percentage of T4 cars sold = 21%

Total cars sold in the given year = 600000

Then, Cars sold of T4 = 21% of 600000 = 126000

Question 66

The length and breadth of a rectangle is 16 cm and 12 cm. What will be the area of the rectangle?

- A 144 cm^2
- B 192 cm^2
- C 212 cm^2
- D 176 cm^2

Answer: B

Explanation:

Given, Length of the rectangle = 16 cm

Breadth of the rectangle = 12 cm

Area of the rectangle = Length \times Breadth = $16 \times 12 = 192 \text{ cm}^2$

20 SSC GD Mocks 117 (Latest Pattern)

Question 67

M can complete a work in 14 days less than the time taken by L. If both M and L together can complete the same work in 24 days, then in how many days L alone can complete the same work?

- A 35 days
- B 56 days
- C 21 days

D 42 days

Answer: B

Explanation:

Let the number of days taken by L to complete the work be L days

Then, 1 day work of L = $\frac{1}{L}$

Number of days taken by M to complete the work = $L - 14$ days

Then, 1 day work of M = $\frac{1}{L - 14}$

$$\text{Given, } \frac{1}{L} + \frac{1}{L - 14} = \frac{1}{24}$$

$$\Rightarrow \frac{2L - 14}{L^2 - 14L} = \frac{1}{24}$$

$$\Rightarrow L^2 - 62L + 336 = 0$$

$$\Rightarrow L^2 - 6L - 56L + 336 = 0$$

$$\Rightarrow L(L - 6) - 56(L - 6) = 0$$

$$\Rightarrow (L - 56)(L - 6) = 0$$

$$\Rightarrow L = 56 \text{ or } L = 6$$

Since, M can do the work 14 days less than L, L cannot be 6.

Hence, L can do the work in 56 days.

Question 68

U, V and W invest sum in the ratio of 15 : 20 : 27 respectively. If they earned total profit of ₹ 10230 at the end of year, then what is the share of V?

A ₹2870

B ₹3300

C ₹3150

D ₹3500

Answer: B

Explanation:

Ratio of profits = Ratio of investments

Let Profit of U, V, W be Rs.15x, Rs.20x, Rs.27x respectively.

Given, Rs.15x+Rs.20x+Rs.27x = Rs.16230

$$\text{Rs.62x} = \text{Rs.16230}$$

$$\Rightarrow x = \text{Rs.165}$$

Therefore, Profit of V = Rs.20x = Rs.165*20 = Rs.3300

Question 69

Mohan covers a distance of 187 km at the speed of S km/hr. If Mohan increases his speed by 6 km/hr, then he takes 6 hours less. What is the value of S?

A 12 km/hr

B 14 km/hr

C 11 km/hr

D 13 km/hr

Answer: C

Explanation:

Given, Distance = 187 km

Initial Speed = S km/hr

Let Initial time = T hours

Then, $ST = 187$ km

New speed = $(S+6)$ km/hr

New Time = $(T-6)$ km/hr

Then, $(S+6)(T-6) = 187$

$\Rightarrow ST - 6S + 6T - 36 = 187$

Substituting $ST = 187$,

$\Rightarrow 187 - 6S + 6T - 36 = 187$

$\Rightarrow 6T - 6S = 36$

$\Rightarrow T - S = 6$

Substituting $T = \frac{187}{S}$,

$\frac{187}{S} - S = 6$

$\frac{187 - S^2}{S} = 6$

$\Rightarrow 187 - S^2 = 6S$

$\Rightarrow S^2 + 6S - 187 = 0$

$\Rightarrow S^2 - 11S + 17S - 187 = 0$

$\Rightarrow S(S - 11) + 17(S - 11) = 0$

$\Rightarrow (S - 11)(S + 17) = 0$

$S = 11$ or $S = -17$

Speed cannot be negative.

Hence, Speed of Mohan = 11 km/hr

Question 70

The radii of two circles are 15 cm and 8 cm. If the area of a third circle is equal to the sum of the areas of the two circles, then what will be the radius of the third circle?

A 17 cm

B 23 cm

C 21 cm

D 19 cm

Answer: A

Explanation:

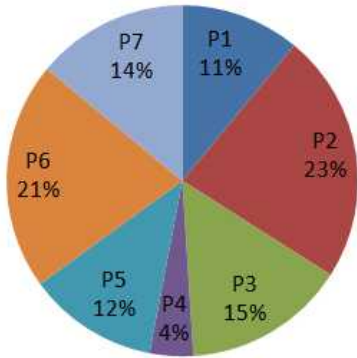

Given, Radii of two circles = 15 cm and 8 cm

Sum of areas of two circles = $\pi(15^2 + 8^2) = \pi(225 + 64) = \pi(289) = \pi(17^2)$ which is in the form of πr^2

Hence, Radius of third square = 17 cm

Question 71

The pie chart given below shows the imports of 7 different items P1, P2, P3, P4, P5, P6 and P7 as a percentage of total imports of a country.

Imports of item P6 is how much percent more than the imports of item P5?

- A 75%
- B 33%
- C 80%
- D 9%

Answer: A

Explanation:

Let total imports be x units

Then, Imports of P5 = 12% of $x = 0.12x$

Imports of P6 = 21% of $x = 0.21x$

$$\text{Then, Required percentage} = \frac{0.21x - 0.12x}{0.12x} \times 100 = \frac{0.09x}{0.12x} \times 100 = \frac{3}{4} \times 100 = 75\%$$

Question 72

P sells an article to Q at a loss of 5% and Q sells that article to R at a loss of 20%. If R pays ₹ 2812 for the article, then what was the cost price for P?

- A ₹3750
- B ₹3700
- C ₹3515
- D ₹3250

Answer: B

Explanation:

Let the Cost Price of P be Rs. $100x$

Selling Price of P = Cost Price of Q = 95% of Rs. $100x = \text{Rs. } 95x$

Selling Price of Q = Cost Price of R = 80% of Rs. $95x = \text{Rs. } 76x$

Given, Cost Price of R = Rs. 2812

$$\text{Rs. } 76R = \text{Rs. } 2812$$

$$\Rightarrow R = 37$$

Therefore, Cost Price of P = Rs. $100x = \text{Rs. } 100 \times 37 = \text{Rs. } 3700$.

Question 73

The average monthly expenditure of a family is ₹ 8160 for first 2 months, ₹ 12780 for next 5 months and ₹ 14280 for 5 months. If the family saves ₹ 66300 in the whole year, then what will be the average monthly income of the family?

- A ₹18000
- B ₹18160
- C ₹18100
- D ₹18260

Answer: B

Explanation:

Average monthly expenditure for 2 months = Rs.8160
Total expenditure for 2 months = $8160 \times 2 = \text{Rs.}16320$
Average monthly expenditure for 5 months = Rs.12780
Total expenditure for 5 months = $12780 \times 5 = \text{Rs.}63900$
Average monthly expenditure for 5 months = Rs.14280
Total expenditure for 5 months = $14280 \times 5 = \text{Rs.}71400$
Then, Total expenditure for 12 months = $\text{Rs.}16320 + \text{Rs.}63900 + \text{Rs.}71400 = \text{Rs.}151620$
Given, Savings for 12 months = Rs.66300
Then, Income for 12 months = $\text{Rs.}151620 + \text{Rs.}66300 = \text{Rs.}217920$
$$\frac{\text{Rs.}217920}{12} = \text{Rs.}18160$$

Therefore, Average monthly income =

Question 74

The data below shows the number of students in class A and B having secured different marks.

Marks	Students in class A	Students in class B
0-2	3	2
2-4	4	1
4-6	1	3
6-8	1	1
8-10	1	1
10-12	0	2

What is the combined mean of A and B?

- A 3.75
- B 3.5
- C 4.7
- D 4

Answer: C

Explanation:

$$\text{Mean of A} = \frac{1 \times 3 + 3 \times 4 + 5 \times 1 + 7 \times 1 + 9 \times 1 + 11 \times 0}{3 + 4 + 1 + 1 + 1 + 0} = \frac{3 + 12 + 5 + 7 + 9}{10} = \frac{36}{10} = 3.6$$

$$\text{Mean of B} = \frac{1 \times 2 + 3 \times 1 + 5 \times 3 + 7 \times 1 + 9 \times 1 + 11 \times 2}{2 + 1 + 3 + 1 + 1 + 2} = \frac{2 + 3 + 15 + 7 + 9 + 22}{10} = \frac{58}{10} = 5.8$$

$$\text{Combined mean of A and B} = \frac{3.6 + 5.8}{2} = \frac{9.4}{2} = 4.7$$

Question 75

What will be the Least Common Multiple of $2^2 \times 3^5 \times 7^3$ and $2^4 \times 3^4 \times 7^1$?

- A $2^2 \times 3^4 \times 7^1$
- B $2^6 \times 3^9 \times 7^4$
- C $2^4 \times 3^6 \times 7^4$
- D $2^4 \times 3^5 \times 7^3$

Answer: D

Explanation:

Least Common Multiple of $2^2 \times 3^5 \times 7^3$ and $2^4 \times 3^4 \times 7^1$ is the product of prime number with their highest power.

Here, Highest power of 2 = 2^4

Highest power of 3 = 3^5

Highest power of 7 = 7^3

Therefore, LCM of $2^2 \times 3^5 \times 7^3$ and $2^4 \times 3^4 \times 7^1 = 2^4 \times 3^5 \times 7^3$

Instructions

For the following questions answer them individually

Question 76

Fill in the blanks with the most appropriate words.

Switch off the air conditioner you will catch a cold.

- A or
- B but
- C and
- D so

Answer: A

SSC CHSL Previous Papers (DOWNLOAD PDF)

Question 77

Select the most appropriate synonym of the given word.

GULLIBLE

- A Credulous
- B Knowledgeable
- C Innocent
- D Perceptive

Answer: A

Question 78

Select the most appropriate option to substitute the underlined segment in the given sentence. If there is no need to substitute it, select No improvement.

The state government has announced that it was giving financial helps to the economically weaker sections of society.

- A will give financial help
- B will give financial helps
- C Gives financial helps
- D No improvement.

Answer: A

Question 79

Select the most appropriate antonym of the given word.

ABSURD

- A guilty
- B sensible
- C sincere
- D ridiculous

Answer: B

SSC Stenographer Previous Papers (Download PDF)

Question 80

Select the most appropriate meaning of the given idiom.

At one's wits end

- A To disagree with something
- B Not knowing what to do
- C Without aim or purpose
- D To take note of something

Answer: B

Question 81

Select the most appropriate word to fill in the blank.

If you kill us, the Emperor can attack your kingdom on the of avenging our death.

- A pretext
- B excuse
- C guise

D pretense

Answer: A

Question 82

Select the most appropriate antonym of the given word.

ABUNDANT

A sufficient

B plentiful

C adequate

D scarce

Answer: D

SSC GD Constable Previous Papers

Instructions

In the following passage some words have been deleted. Fill in the blanks with the help of the alternatives given. Select the most appropriate option for each number.

Passage:

The most common act of forgetfulness, I suppose (1)..... in the matter of posting letters. So common is it that I am always (2)..... to trust a departing visitor to post an important (3)..... So before handing over the letter I make him (4)..... to post it immediately. As for myself, anyone (5)..... asks me to post a letter is a poor judge of my character.

Question 83

Fill in blank (1) with the most appropriate option.

A develops

B creates

C occurs

D takes

Answer: C

Question 84

Fill in blank (2) with the most appropriate option.

A willing

B frightened

C reluctant

D indifferent

Answer: C

Question 85

Fill in blank (3) with the most appropriate option.

- A message
- B letter
- C parcel
- D mail

Answer: B

SSC MTS Previous Papers (DOWNLOAD PDF)

Question 86

Fill in blank (4) with the most appropriate option.

- A assure
- B promise
- C pledge
- D ready

Answer: B

Question 87

Fill in blank (5) with the most appropriate option.

- A whom
- B which
- C that
- D who

Answer: D

Instructions

For the following questions answer them individually

Question 88

Select the correctly spelt word.

- A Attendance
- B Attendence
- C Attandence
- D Attandance

Answer: A

SSC GD Constable Previous Papers (DOWNLOAD PDF)

Question 89

Select the most appropriate word to fill in the blank.

We need a leader for the nation in these troubled times.

- A gifted
- B dynamic
- C sturdy
- D hard-core

Answer: B

Question 90

Select the most appropriate option to substitute the underlined segment in the given sentence. If there is no need to substitute it, select **No improvement**.

Most of us fail to understand the objective of his frequent visits to this part of the country.

- A No improvement.
- B to understand the objectives to
- C to understanding the objective of
- D to understand the object of

Answer: A

Question 91

Select the word which means the same as the group of words given.

One who collects stamps

- A Numismatist
- B Philatelist
- C Philanthropist
- D Pilagiarist

Answer: B

Question 92

Select the correctly spelt word.

- A Beginning
- B Begining
- C Bigining
- D Begginning

Answer: A

Question 93

Identify the segment in the sentence which contains the grammatical error from the given options.
May I have your permission leaving the office a little early today?

- A a little
- B May I have
- C early today
- D leaving

Answer: D

Question 94

Identify the segment in the sentence which contains the grammatical error from the given options.
Even though I took a taxi, the train left before I reached the station.

- A I reached
- B took a taxi
- C Even though
- D the train left

Answer: D

SSC CGL Free Mock Test (Latest Pattern)

Question 95

Select the most appropriate synonym of the given word.
ELABORATE

- A Sketchy
- B Elongated
- C Detailed
- D Appropriate

Answer: C

Question 96

Select the most appropriate meaning of the given idiom.
Hale and hearty.

- A Happy
- B Superior
- C Healthy
- D Friendly

Answer: C

Question 97

Select the word which means the same as the group of words given.
Originating or occurring naturally in the place or country where found.

- A Indigenous
- B National
- C Ingenious
- D Ordinary

Answer: A

Question 98

Fill in the blanks with the most appropriate words.
She has been reduced a skeleton due to her illness.

- A for
- B with
- C to
- D in

Answer: C

Question 99

Select the most appropriate option to substitute the underlined segment in the given sentence. If there is no need to substitute it, select No improvement.

There is no reason why you should remain tense when I was promising to help you.

- A No improvement.
- B I promised helping you
- C I have promised to help you
- D I promising to help you

Answer: C

Question 100

Identify the segment in the sentence which contains the grammatical error from the given options.
We would be very pleased if you could come to my house.

- A come to
- B would be
- C if you
- D my house

Answer: D
