- A Among the key competencies
- B Beside the key competency
- C Including the key competencies
- D Within the key competence
- E No correction required

Answer: A

# Free Mock Test For Banking Exams

## Instructions

Read the following passage carefully and answer the questions given below it. Certain words/phrases have been printed in bold to help you locate them while answering some of the questions.

There are various sectors in India that are to be assessed for their strengths, weaknesses, opportunities and threats.

The total population is over 1 billion which will increase to 1.46 billion by 2035 to cross China. The huge population will result in higher unemployment and deterioration of quality. Literacy, in India is yet another factor to be discussed. According to 1991 census, 64.8% of the population was illiterate. The major downtrend of education is due to child labour which has spread all over India and this should be totally eradicated by way of **surveillance** and a good educational system implemented properly by the Government. Pollution is one more threat to the environment and for the country's prospects. This has been experienced more in urban areas mainly in metropolitan cities. The water pollution by the sewage seepage into the ground water and improper maintenance will lead to various diseases which in turn will affect the next generation. In most of the cities there is no proper sewage disposal. The Government has to take effective steps to control population which, in turn, will minimize the pollution. Poverty questions the entire strength of India's political view and minimizes the energetic way of approach. The shortfall of rains, enormous floods, unexpected famine, drought, earthquake and the recent tsunami hit the country in a negative way. The proactive approach through effective research and analytical study helps us to determine the effects in advance. Proper allocation of funds is a **prerequisite**. In developed countries like U.S., Japan precautionary methods are adopted to overcome this, but it has to be improved a lot in our systems. Increased population is one of the major reasons for poverty and the Government is unable to allocate funds for basic needs to the society. India has nearly 400 million people living below the poverty line and 90% of active population is in informal economy. The children are forced to work due to their poverty and differential caste system. They work in match industry for daily wages, as servants, mechanics, stone breakers, agricultural workers, etc. To prevent child labour, existing laws which favour the Anti Child Labour Act should be implemented by the Government vigorously. More population results in cheap cost by virtue of the demand supply concept. Most of the foreign countries try to utilize this factor by outsourcing their business in India with a very low capital. According to U.S., India is a "Knowledge pool" with cheap labour. The major advantage is our communication and technical skill which is adaptable to any environment. The cutting edge skill in IT of our professionals helps the outsourcing companies to **commensurate** with the needs of the consumers in a short span. The major competitors for India are China and Philippines and by the way of an effective communication and expert technical ability, Indians are ahead of the race. The major Metropolitan states are targeting the outsourcing field vigorously by giving various amenities to the outsourcing companies like tax concession, allotting land etc., to start their businesses in its cities without any hurdles. Thereby most of the MNCs prefer India as their destinations and capitalize the resources to maximize their assets. Infrastructure is another key factor for an outsourcing company to start a business in a particular city. It includes road, rail, ports, power and water. The increased input in infrastructure in India is very limited where China's record is excellent. India in earlier days gave more importance to the development of industry and less importance to other departments. But the scenario has quite changed nowadays by allocating a special budget of funds for security. This is because of the frightening increase in terrorism all around the world especially emerging after the 9/11 terror attack in U.S. In the last ten years, budget towards the development of military forces is higher when compared to others. It shows that the threat from our neighbouring countries is escalating. India has to concentrate more on this security factor to wipe out the problem in the way of cross border terrorism. Making India, a developed country in 2020 is not an easy task. India has to keep in check a variety of factors in order to progress rapidly. To quote China as an example is that they demolished an old building to construct a very big port to meet future demands, but India is still waiting for things to happen. The profits gained by India through various sectors are to be spent for the development and welfare of the country. India's vision for a brighter path will come true not only by mere words or speech, but extra effort needed at all levels to overcome the pitfalls.

## Question 91

Which of the following, according to the author, is/are a result(s) of increased population in India ?

- (A) Pollution
- (B) Poverty
- (C) Unemployment

- A Only (A)
- B Only (A) and (B)
- C Only (B)
- D Only (A) and (C)
- E All (A), (B) and (C)

Answer: E

**Question 92**

**Why, according to the author, has the Indian Government allotted more funds to strengthen the military forces ?**

- A To improve security in order to counter increasing terrorism
- B As the security in India over the past ten years was grossly inadequate
- C As the U.S. too has strengthened its military forces after the 9/11 attack
- D As the industry is developed enough and is not in need of any more funds
- E None of these

**Answer: A**

**Question 93**

**What is the author's main objective in writing this passage ?**

- A To exhort the Government to garner support from its neighbouring countries
- B To suggest to the Government to follow China's example blindly thereby bringing about rapid development
- C To highlight the plight of the poor
- D To discuss the problems of child labour and suggest suitable remedies
- E To bring forth the problems associated with the India's development and to suggest measures to counter them

**Answer: E**

## 100 Computer Awareness Tests For Banking

**Question 94**

**Why, according to the author, is India one of the favourite destinations for investment by outsourcing companies ?**

- (A) Shorter response time for clients
- (B) Better technical skills
- (C) Availability of cheap labour

- A Only (C)
- B All (A), (B) and (C)
- C Only (B) and (C)
- D Only (A) and (B)
- E Only (A)

**Answer: B**

**Question 95**

**Which of the following is/are true in the context of the passage ?**

- (A) India leads the way in the amount invested in the development of infrastructure.
- (B) Political system in India is not influenced by poverty
- (C) Indian population would increase by approximately 50 per cent in the next twenty five years.

- A Only (A) and (B)

- B Only (B)
- C Only (C)
- D Only (B) and (C)
- E All (A), (B) and (C)

**Answer: C**

**Question 96**

**Which of the following is/are the facilities available to MNCs investing in India ?**

- (A) Easy availability of land**
- (B) Better infrastructure than China.**
- (C) Tax Concessions**

- A Only (C)
- B All (A), (B) and (C)
- C Only (A) and (B)
- D Only (A) and (C)
- E None of these

**Answer: D**

**Question 97**

**Which of the following, according to the author, is a result of poverty in India ?**

- A Lack of a robust security system
- B Child labour and the resulting dearth of educated youth
- C Floods, famines and other calamities
- D Rapid increase in population
- E None of these

**Answer: B**

**Question 98**

**How, according to the author, can the effects of floods, famines, drought, etc. be minimized ?**

- A By limiting pollution thereby reducing the chances of such events taking place
- B By educating the children about the ill effects of such calamities who in turn will help during the time of need
- C By following the U.S. system of providing relief to its citizens
- D By allotting proper funds for research which can predict the outcome of such calamities and thus design relief measures
- E None of these

**Answer: D**

**Instructions**

Choose the word/group of words which is most similar in meaning to the word/group of words printed in bold as used in the passage

**Question 99**

**SURVEILLANCE**

- A spying
- B cameras
- C security
- D observation
- E alertness

**Answer: D**

**Question 100**

**PREREQUISITE**

- A result
- B association
- C necessity
- D factor
- E mystery

**Answer: C**

**200+ Banking Previous Papers (Download PDF)**

**Quant**

**Instructions**

For the following questions answer them individually

**Question 101**

Tanvi started a business investing Rs. 45,000. After 8 months Anisha joined her with a capital of Rs. 52,000. At the end of the year the total profit was Rs. 56,165. What is the share of profits of Anisha ?

- A Rs. 21,450
- B Rs. 24,440
- C Rs. 27,635
- D Rs. 31,765
- E None of these

**Answer: E**

**Explanation:**

Tanvi invested Rs. 45,000 for 12 months

Anisha invested Rs. 52,000 for 4 months

Ratio of profit received by Tanvi and Anisha

$$= (45000 \times 12) : (52000 \times 4)$$

$$= (45 \times 3) : (52) = 135 : 52$$

Total profit = Rs. 56,165

$$\therefore \text{Anita's share of profit} = \frac{52}{135+52} \times 56165$$

$$\approx 52 \times 300 = \text{Rs. } 15,600$$

## GK Study Material for Banking Exams (Download PDF)

### Question 102

By how much is  $\frac{1}{4}$  th of 428 smaller than  $\frac{5}{6}$  th of 216 ?

- A 61
- B 67
- C 73
- D 79
- E None of these

Answer: C

#### Explanation:

$$\text{To find: } \left(\frac{5}{6} \times 216\right) - \left(\frac{1}{4} \times 428\right)$$

$$= (5 \times 36) - (107)$$

$$= 180 - 107 = 73$$

### Question 103

One-third of a number is 96. What will 67% of that number be ?

- A 192.96
- B 181.44
- C 169.92
- D 204.48
- E None of these

Answer: A

#### Explanation:

$$\text{Let number} = 3x$$

$$\text{Acc. to ques, } \Rightarrow \frac{1}{3} \times 3x = 96$$

$$\Rightarrow x = 96$$

$$\text{Number} = 3 \times 96 = 288$$

$$\therefore 67\% \text{ of the number} = \frac{67}{100} \times 288$$

$$= 192.96$$

### Question 104

In a class of 35 students and 6 teachers, each student got sweets that are 20% of the total number of students and each teacher got sweets that are 40% of the total number of students. How many sweets were there ?

- A 245
- B 161
- C 406
- D 84
- E None of these

**Answer:** E

**Explanation:**

Number of students = 35 and number of teachers = 6

$$\text{Sweets received by each student} = \frac{20}{100} \times 35 = 7$$

$$\text{Sweets received by each teacher} = \frac{40}{100} \times 35 = 14$$

$$\therefore \text{Total sweets} = (35 \times 7) + (6 \times 14)$$

$$= 245 + 84 = 329$$

## NICL AO Solved Previous Papers PDF

**Question 105**

Prithvi spent Rs. 89,745 on his college fees, Rs.51,291 on Personality Development Classes and the remaining 27% of the total amount he had as cash with him. What was the total amount ?

- A Rs.1,85,400
- B Rs.1,89,600
- C Rs.1,91 800
- D Rs.1,93,200
- E None of these

**Answer:** D

**Explanation:**

Let the total amount with Prithvi =  $Rs.100x$

$$\% \text{ amount spent} = 73\% = \frac{73}{100} \times 100x = 73x$$

$$\text{Total amount spent} = 89,745 + 51,291 = 1,41,036$$

$$\Rightarrow 73x = 141036$$

$$\Rightarrow x = \frac{141036}{73} = 1932$$

$$\therefore \text{Total amount} = 100 \times 1932 = Rs.1,93,200$$

**Question 106**

The compound interest accrued on an amount of Rs. 22,000 at the end of two years is Rs. 5,596.8. What would be the simple interest accrued on the same amount at the same rate in the same period ?

- A Rs.5,420
- B Rs.5 360
- C Rs.5,280

D Rs.5, 140

E None of these

Answer: C

Explanation:

C.I. = Rs.5, 596.8

$$\Rightarrow P\left[\left(1 + \frac{R}{100}\right)^T - 1\right] = 5596.8$$

$$\Rightarrow 22,000\left[\left(1 + \frac{R}{100}\right)^2 - 1\right] = 5596.8$$

$$\Rightarrow \left[\left(1 + \frac{R}{100}\right)^2 - 1\right] = \frac{5596.8}{22000} = 0.2544$$

$$\Rightarrow \left(1 + \frac{R}{100}\right)^2 = 0.2544 + 1 = 1.2544$$

$$\Rightarrow 1 + \frac{R}{100} = \sqrt{1.2544} = 1.12$$

$$\Rightarrow \frac{R}{100} = 1.12 - 1 = 0.12$$

$$\Rightarrow R = 0.12 \times 100 = 12\%$$

$$\therefore S.I. = \frac{P \times R \times T}{100}$$

$$= \frac{22000 \times 12 \times 2}{100}$$

$$= 220 \times 24 = \text{Rs.5, 280}$$

Question 107

The product of two successive numbers is 4032. Which is the greater of the two numbers ?

A 63

B 64

C 65

D 66

E None of these

Answer: B

Explanation:

Let the two successive numbers =  $x, (x + 1)$

$$\text{Product} = x \times (x + 1) = 4032$$

$$\Rightarrow x^2 + x - 4032 = 0$$

$$\Rightarrow x^2 + 64x - 63x - 4032 = 0$$

$$\Rightarrow (x - 63)(x + 64) = 0$$

$$\Rightarrow x = 63$$

$$\therefore \text{Larger number} = x + 1 = 63 + 1 = 64$$

## LIC AAO solved previous papers PDF

Question 108

The ages of Sonal and Nitya are in the ratio of 9 : 5 respectively. After 8 years the ratio of their ages will be 13 : 9. What is the difference in years between their ages ?

- A 4 years
- B 12 years
- C 6 years
- D 14 years
- E None of these

**Answer:** E

**Explanation:**

Let Sonal's age =  $9x$  years

=> Nitya's age =  $5x$  years

Acc. to ques,  $\Rightarrow \frac{9x+8}{5x+8} = \frac{13}{9}$

=>  $81x + 72 = 65x + 104$

=>  $16x = 104 - 72 = 32$

=>  $x = \frac{32}{16} = 2$

$\therefore$  Difference in ages =  $9x - 5x = 4x$

=  $4 \times 2 = 8$  years

**Question 109**

30 men can do a piece of work in 16 days. How many men would be required to do the same work in 20 days ?

- A 12
- B 36
- C 48
- D 24
- E None of these

**Answer:** D

**Explanation:**

Using :  $M_1D_1 = M_2D_2$

30 men can do a piece of work in 16 days

=>  $M_1 = 30, D_1 = 16$  and  $D_2 = 20$

Let  $M_2$  men finish the same work in 20 days

=>  $30 \times 16 = M_2 \times 20$

=>  $M_2 = \frac{480}{20} = 24$

**Question 110**

The profit earned after selling an article for Rs. 1,516 is the same as loss incurred after selling the article for Rs. 1,112. What is the cost price of the article ?

- A Rs. 1,314
- B Rs. 1,343

- C Rs. 1,414
- D Rs. 1,434
- E None of these

Answer: A

**Explanation:**

Let C.P. = Rs.  $x$

Case 1 : If S.P. = Rs. 1,516

$$\Rightarrow \text{Profit} = S.P. - C.P. = (1516 - x)$$

Case 2 : If S.P. = Rs. 1,112

$$\Rightarrow \text{Profit} = C.P. - S.P. = (x - 1112)$$

Acc. to ques,  $\Rightarrow 1516 - x = x - 1112$

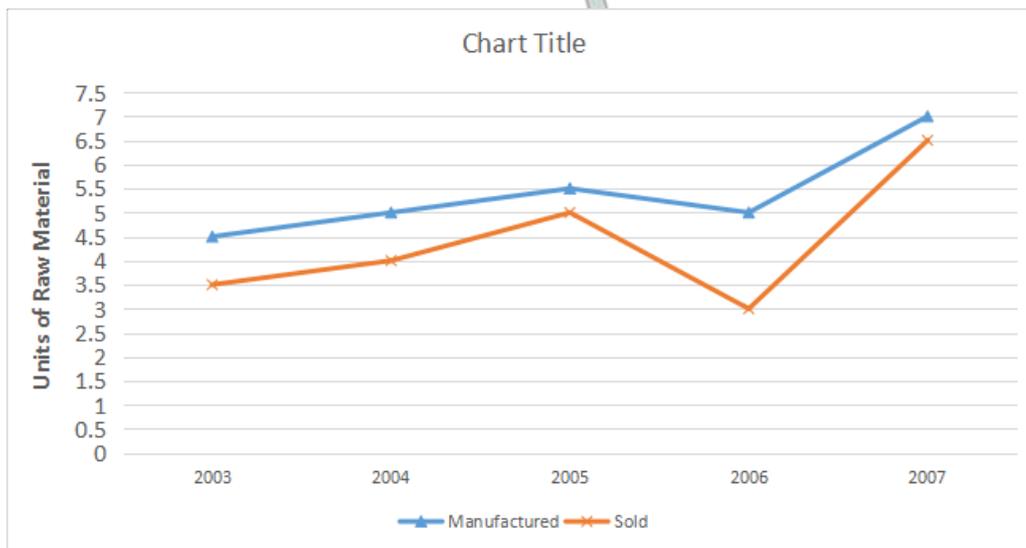

$$\Rightarrow 2x = 1516 + 1112 = 2628$$

$$\Rightarrow x = \frac{2628}{2} = \text{Rs. } 1,314$$

## LIC ADO solved previous papers PDF

**Instructions**

Study the following graph carefully to answer the questions that follow :

**Question 111**

The number of girls from Biology department is approximately what per cent of the total number of girls from all the departments together ?

- A 32
- B 21
- C 37
- D 43
- E 27

Answer: E

**Question 112**

What is the difference between the total number of boys and the total number of girls from all the departments together ?

- A 440
- B 520
- C 580
- D 460
- E None of these

**Answer: D**

**Question 113**

What is the average number of boys from all the departments together ?

- A 122
- B 126
- C 130
- D 134
- E None of these

**Answer: C**

**OICL Solved Previous Papers PDF**

**Question 114**

The number of boys from Anthropology department is approximately what per cent of the total number of boys from all the departments together ?

- A 15
- B 23
- C 31
- D 44
- E 56

**Answer: A**

**Question 115**

What is the respective ratio of number of girls from Philosophy department to the number of girls from Psychology department ?

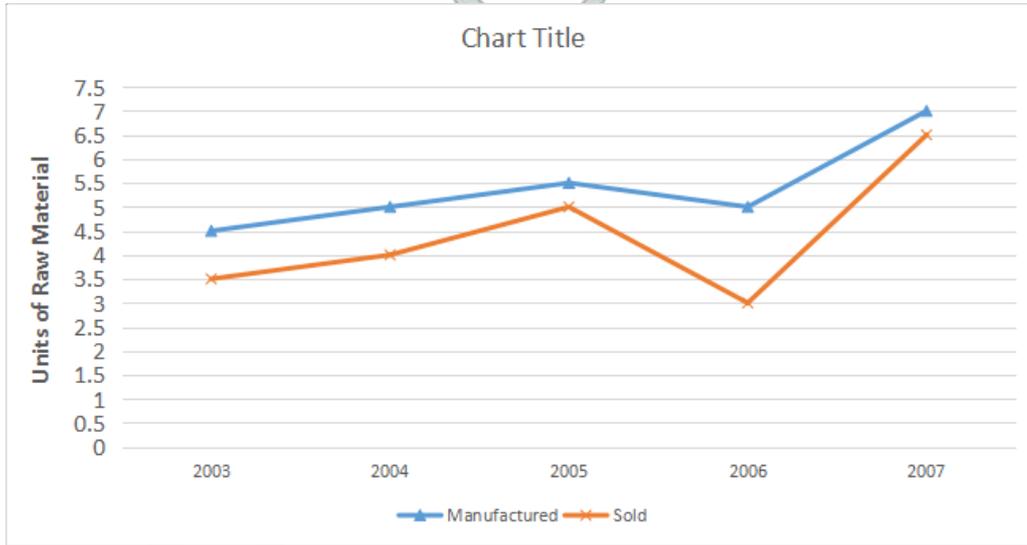

- A 1 : 2
- B 7 : 12
- C 5 : 12
- D 3 : 4

E None of these

Answer: B

**Instructions**

Study the following graph carefully and answer the questions given below : Units of Raw Material Manufactured and Sold by a Company Over the Years (Units in Crores)

**Question 116**

What is the average number of units sold over the years ?

A 44000000

B 440000

C 44000

D 4400000

E None of these

Answer: D

**Explanation:**

Number of units sold over the years

$$= 3.5 + 4 + 5 + 3 + 6.5 = 22 \text{ crores}$$

$$\Rightarrow \text{Required average} = \frac{22}{5} \text{ crores}$$

$$= 4.4 \text{ crores} = 4,40,00,000$$

**United Indian Insurance Previous Papers PDF**

**Question 117**

What is the respective ratio of the difference between the number of units manufactured and sold in the year 2005 to the difference between the number of units manufactured and sold in the year 2006 ?

A 2 : 3

B 1 : 2

C 1 : 4

D 3 : 5

E None of these

**Answer: C**

**Explanation:**

Number of units manufactured in the year 2005 = 5.5

Number of units sold in the year 2005 = 5

=> Difference = 5.5 - 5 = 0.5

Number of units manufactured in the year 2006 = 5

Number of units sold in the year 2006 = 3

=> Difference = 5 - 3 = 2

∴ Required ratio = 0.5 : 2 = 5 : 20

= 1 : 4

**Question 118**

**What is the respective ratio of the number of units manufactured in the year 2003 to the number of units manufactured in the year 2007 ?**

A 7 : 11

B 9 : 14

C 7 : 9

D 9 : 11

E None of these

**Answer: B**

**Explanation:**

Number of units manufactured in the year 2003 = 4.5

Number of units manufactured in the year 2007 = 7

=> Required ratio = 4.5 : 7 = 45 : 70

= 9 : 14

**Question 119**

**What is the approximate per cent increase in the number of units sold in the year 2007 from the previous year ?**

A 190

B 70

C 60

D 95

E 117

**Answer: E**

**Explanation:**

Number of units sold in the year 2007 = 6.5

Number of units sold in the year 2006 = 3

$$\Rightarrow \text{Required \% increase} = \frac{6.5-3}{3} \times 100$$

$$= \frac{3.5}{3} = 117.33\%$$

$$\approx 117\%$$

## Daily Current Affairs for Banking exams PDF

### Question 120

What is the difference between the number of units manufactured and the number of units sold over the years ?

- A 50000000
- B 5000000
- C 500000000
- D 500000
- E None of these

**Answer:** A

#### Explanation:

Number of units manufactured over the years

$$= 4.5 + 5 + 5.5 + 5 + 7 = 27 \text{ crores}$$

Number of units sold over the years

$$= 3.5 + 4 + 5 + 3 + 6.5 = 22 \text{ crores}$$

$$\Rightarrow \text{Required difference} = 27 - 22 = 5 \text{ crores}$$

$$= 5,00,00,000$$

#### Instructions

What should come in place of the question mark (?) in the following number series ?

### Question 121

1548, 516, 129, 43, ?

- A 11
- B 10.75
- C 9.5
- D 12
- E None of these

**Answer:** B

#### Explanation:

The numbers are alternatively divided by 3 and 4

$$1548 \div 3 = 516$$

$$516 \div 4 = 129$$

$$129 \div 3 = 43$$

$$43 \div 4 = 10.75$$

**Question 122**

**949, 189.8, ?, 22.776, 11.388, 6.8328**

- A 48.24
- B 53.86
- C 74.26
- D 56.94
- E None of these

**Answer: D**

**Explanation:**

The pattern followed is :

$$949 \times 0.2 = 189.8$$

$$189.8 \times 0.3 = \mathbf{56.94}$$

$$56.94 \times 0.4 = 22.776$$

$$22.776 \times 0.5 = 11.388$$

$$11.388 \times 0.6 = 6.8328$$

**Daily Free Banking Online Tests**

**Question 123**

**121, 144, 190, 259, ?, 466**

- A 351
- B 349
- C 374
- D 328
- E None of these

**Answer: A**

**Explanation:**

Multiples of 23 are added.

$$121 + 23 \times 1 = 144$$

$$144 + 23 \times 2 = 190$$

$$190 + 23 \times 3 = 259$$

$$259 + 23 \times 4 = \mathbf{351}$$

$$351 + 23 \times 5 = 466$$

**Question 124**

**14, 43.5, 264, ?, 76188**

- A 3168
- B 3176

- C 1587
- D 1590
- E None of these

**Answer: E**

**Explanation:**

The given number series is based on the following pattern :

$$14 \times 3 + 1.5 = 43.5$$

$$43.5 \times 6 + 1.5 \times 2 = 264$$

$$264 \times 12 + 1.5 \times 4 = \mathbf{3174}$$

$$3174 \times 24 + 1.5 \times 8 = 76188$$

**Question 125**

**41, 164, 2624, ?, 6045696**

- A 104244
- B 94644
- C 94464
- D 102444
- E None of these

**Answer: C**

**Explanation:**

Squares of even numbers are multiplied.

$$41 \times 2^2 = 164$$

$$164 \times 4^2 = 2624$$

$$2624 \times 6^2 = \mathbf{94464}$$

$$94464 \times 8^2 = 6045696$$

## Free Banking Study Material (15,000 Solved Questions)

**Instructions**

What should come in place of the question mark (?) in the following questions ?

**Question 126**

$$(47 \times 588) \div (28 \times 120) = ?$$

- A 6.284
- B 7.625
- C 8.225
- D 8.285
- E None of these

**Answer: C**

**Explanation:**

Expression :  $(47 \times 588) \div (28 \times 120) = ?$

$$= \frac{47}{120} \times \frac{588}{28}$$

$$= \frac{47}{120} \times 21$$

$$= \frac{987}{120} = 8.225$$

**Question 127**

45% of 224 × ?% of 120 = 8104.32

- A 67
- B 02
- C 59
- D 71
- E None of these

**Answer: A**

**Explanation:**

Expression : 45% of 224 × ?% of 120 = 8104.32

$$\Rightarrow \left(\frac{45}{100} \times 224\right) \times \left(\frac{x}{100} \times 120\right) = 8104.32$$

$$\Rightarrow 100.8 \times 1.2x = 8104.32$$

$$\Rightarrow x = \frac{8104.32}{120.96} = 67$$

**Question 128**

$7921 \times 51 + 374 = (?)^3$

- A 16
- B 19
- C 15
- D 21
- E None of these

**Answer: E**

**Explanation:**

Expression :  $7921 \times 51 + 374 = (?)^3$

$$\Rightarrow 403971 + 374 = (x)^3$$

$$\Rightarrow x^3 = 404345$$

$$\Rightarrow x = \sqrt[3]{404345} = 73.9 \approx 74$$

## Free Mock Test For Banking Exams

**Question 129**

$6573 \div 21 \times (0.2)^2 = ?$

- A 7825

- B 62.6
- C 1565
- D 12.52
- E None of these

Answer: D

Explanation:

Expression :  $6573 \div 21 \times (0.2)^2 = ?$

$= \frac{6573}{21} \times 0.04$

$= 313 \times 0.04$

$= 12.52$

Question 130

$74156 - ? - 321 - 20 + 520 = 69894$

- A 3451
- B 4441
- C 5401
- D 4531
- E None of these

Answer: B

Explanation:

Expression :  $74156 - ? - 321 - 20 + 520 = 69894$

$\Rightarrow 74676 - x - 341 = 69894$

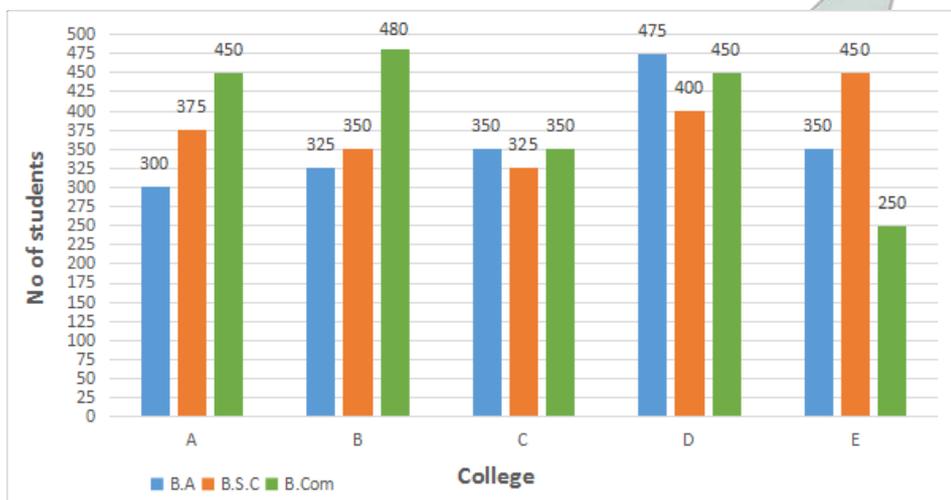

$\Rightarrow x = 74335 - 69894$

$\Rightarrow x = 4441$

Instructions

Study the following graph carefully to answer the questions that follow.

The graph below gives the Number of Students Enrolled in Three Different Disciplines in Five Different Colleges

Question 131

What is the total number of students studying B.Sc in all Colleges together ?

- A 1825
- B 1975
- C 1650
- D 1775
- E None of these

**Answer:** E

**Explanation:**

Total number of students studying B.Sc in all the Colleges together

$$= 375 + 350 + 325 + 400 + 450$$

$$= 1900$$

## 100 Computer Awareness Tests For Banking

**Question 132**

What is the respective ratio of total number of students studying B.Sc. in the colleges C and E together to those studying B.A. in the Colleges A and B together ?

- A 24 : 23
- B 25 : 27
- C 31 : 25
- D 29:27
- E None of these

**Answer:** C

**Explanation:**

Total number of students studying B.Sc. in the colleges C and E together

$$= 325 + 450 = 775$$

Total number of students studying B.A. in the Colleges A and B together

$$= 300 + 325 = 625$$

$$\Rightarrow \text{Required ratio} = 775 : 625 = 31 : 25$$

**Question 133**

What is the respective ratio of total number of students studying B.Sc B.A and B.Com. in all the Colleges together ?

- A 71 : 67 : 75
- B 67 : 71 : 75
- C 71 : 68 : 75
- D 75 : 71 : 68
- E None of these

**Answer:** E

**Explanation:**

Total number of students studying B.Sc in all the Colleges together

$$= 375 + 350 + 325 + 400 + 450 = 1900$$

Total number of students studying B.A in all the Colleges together

$$= 300 + 325 + 350 + 475 + 350 = 1800$$

Total number of students studying B.Com. in all Colleges together

$$= 450 + 480 + 350 + 450 + 250 = 1980$$

$$\Rightarrow \text{Required ratio} = 1900 : 1800 : 1980$$

$$= 95 : 90 : 99$$

#### Question 134

Number of students studying B.Com in College C forms approximately what percent of the total number of students studying B.Com. in all Colleges together ?

A 39

B 21

C 44

D 33

E 17

Answer: E

#### Explanation:

Number of students studying B.Com in College C = 350

Total number of students studying B.Com. in all Colleges together

$$= 450 + 480 + 350 + 450 + 250 = 1980$$

$$\Rightarrow \text{Required \%} = \frac{350}{1980} \times 100$$

$$= 17.67\% \approx 17\%$$

#### Question 135

Number of students studying B.A in College B forms what per cent of total number of students studying all the disciplines together in that College? (rounded off two digits after decimal )

A 26.86

B 27.27

C 29.84

D 32.51

E None of these

Answer: E

#### Explanation:

Number of students studying B.A in College B = 325

Total number of students studying all the disciplines together in College B = 325 + 350 + 480 = 1155

$$\Rightarrow \text{Required \%} = \frac{325}{1155} \times 100 = 28.13\%$$

Instructions

Each question below is followed by two statements A and B. You are to determine whether the data given in the statement is sufficient for answering the question. You should use the data and your knowledge of Mathematics to choose between the possible answers.

Give answer a: if the statement A alone is sufficient to answer the question, but the statement B alone is not sufficient.

Give answer b: if the statement B alone is sufficient to answer the question, but the statement A alone is not sufficient.

Give answer c: if both statements A and B together are needed to answer the question.

Give answer d: if either the statement A alone or statement B alone is sufficient to answer the question.

Give answer e: if you cannot get the answer from the statements A and B together, but need even more data.

#### Question 136

Is A an odd number?

A. A multiplied by an odd number is equal to an odd number.

B. A is not divisible by 2.

A if the statement A alone is sufficient to answer the question, but the statement B alone is not sufficient.

B if the statement B alone is sufficient to answer the question, but the statement A alone is not sufficient.

C if both statements A and B together are needed to answer the question.

D if either the statement A alone or statement B alone is sufficient to answer the question.

E if you cannot get the answer from the statements A and B together, but need even more data.

Answer: D

#### Explanation:

Statement A : A number when multiplied by an odd number results in an odd number, this can only be possible iff the number is an odd number.

Thus, yes, A is an odd number.

Statement A alone is sufficient.

Statement B : Any number which is not divisible by 2 is an odd number.

Thus, A is an odd number.

Statement B alone is also sufficient.

∴ Either statement alone is sufficient.

#### Question 137

The ages of Pradumn and Gunit are in the ratio of 7 : 5 . What is the age of Pradumn.

A. The ages of Pradumn and Nandini are in the ratio of 3 : 1.

B. After 7 years the ratio of Pradumn's and Aviral's ages will be 4: 3.

A if the statement A alone is sufficient to answer the question, but the statement B alone is not sufficient.

B if the statement B alone is sufficient to answer the question, but the statement A alone is not sufficient.

C if both statements A and B together are needed to answer the question.

D if either the statement A alone or statement B alone is sufficient to answer the question.

E if you cannot get the answer from the statements A and B together, but need even more data.

Answer: E

#### Explanation:

Let age of Pradumn =  $21x$

=> Age of Gunit =  $15x$

Statement A : Ratio of Pradumn and Nandini's age = 3 : 1

Since, Pradumn's age =  $21x$

=> Nandini's age =  $7x$

We cannot find Pradumn's exact age. Thus, this statement alone is insufficient.

Similarly, statement B alone is not sufficient.

Even if we combine both statements, the same problem arises.

Thus, both statements even together are not sufficient.

#### Question 138

What is the salary of B, in a group of A, B, C and D whose average salary is Rs. 62,880?

A. Total of the salary of A and C is exact multiple of 8.

B. Average of the salary of A, C and D is Rs. 61,665.

A if the statement A alone is sufficient to answer the question, but the statement B alone is not sufficient.

B if the statement B alone is sufficient to answer the question, but the statement A alone is not sufficient.

C if both statements A and B together are needed to answer the question.

D if either the statement A alone or statement B alone is sufficient to answer the question.

E if you cannot get the answer from the statements A and B together, but need even more data.

**Answer: B**

#### Explanation:

Average salary of the 4 persons = Rs. 62,880

=> Total salary =  $A + B + C + D = 62,880 \times 4 = 2,51,520$  -----(i)

Statement A : There is no information about the salary of D. Thus, we can't find the salary of B

Statement A alone is not sufficient.

Statement B : Average of A, C and D = Rs. 61,665

=>  $A + C + D = 61,665 \times 3 = 1,84,995$  -----(ii)

Subtracting eqn (ii) from (i)

=>  $B = 2,51,520 - 1,84,995 = 66,525$

Thus, statement B alone is sufficient.

#### Question 139

What is the three digit number?

A. The three digit number is divisible by 9.

B. The first and the third digit is 6.

A if the statement A alone is sufficient to answer the question, but the statement B alone is not sufficient.

B if the statement B alone is sufficient to answer the question, but the statement A alone is not sufficient.

C if both statements A and B together are needed to answer the question.

D if either the statement A alone or statement B alone is sufficient to answer the question.

E if you cannot get the answer from the statements A and B together, but need even more data.

**Answer: C**

#### Explanation:

Statement A : The three digit number is divisible by 9. There are many possibilities.

Statement B : First and last digit of the number is 6. There are still many possibilities = 606,616,626,...

Combining both statements, we get that the number is of the form =  $6x6$

For the number to be divisible by 9,  $6 + x + 6 = (12 + x)$  should be divisible by 9.

The only possibility is if  $x = 6$

Three digit number = 666

Thus, both statements are required to answer the question.

#### Question 140

**What is the profit earned by selling a printer for Rs. 3,000?**

**A. The cost price of 6 such printers is equal to selling price of 5 such printers.**

**B. 20% profit is earned by selling each printer.**

**A** if the statement A alone is sufficient to answer the question, but the statement B alone is not sufficient.

**B** if the statement B alone is sufficient to answer the question, but the statement A alone is not sufficient.

**C** if both statements A and B together are needed to answer the question.

**D** if either the statement A alone or statement B alone is sufficient to answer the question.

**E** if you cannot get the answer from the statements A and B together, but need even more data.

**Answer: D**

**Explanation:**

S.P. = Rs.3,000

Statement A : Let C.P. of 1 printer = Rs. $x$

$$\Rightarrow 6x = 5 \times 3000$$

$$\Rightarrow x = 5 \times 500 = \text{Rs.}2,500$$

$$\Rightarrow \text{Profit} = 3,000 - 2,500 = \text{Rs.}500$$

Thus, statement A is sufficient.

Statement B : Profit % = 20 %

Let C.P. of 1 printer = Rs. $x$

$$\Rightarrow x + \frac{20}{100}x = 3000$$

$$\Rightarrow \frac{6x}{5} = 3000$$

$$\Rightarrow x = 5 \times 500 = \text{Rs.}2,500$$

$$\Rightarrow \text{Profit} = 3,000 - 2,500 = \text{Rs.}500$$

Thus, statement B is sufficient.

**\(\therefore\) Either statement alone is sufficient.**

## 200+ Banking Previous Papers (Download PDF)

#### Instructions

Study the following information carefully to answer the questions.

The teachers' colony has 2800 members, out of which 650 members read only English newspaper. 550 members read only Hindi newspaper and 450 members read only Marathi newspaper. The number of members reading all the 3 newspapers is 100. Members reading Hindi as well as English newspaper are 200. 400 members read Hindi as well as Marathi newspaper and 300 members read English as well as Marathi newspaper.

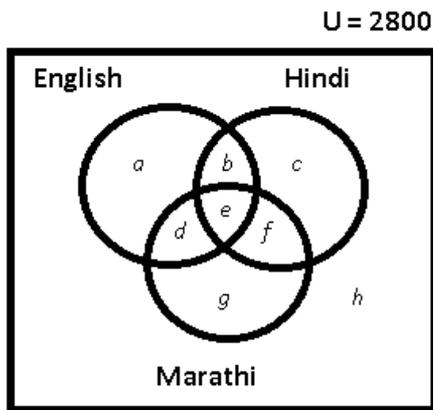

Question 141

Find the difference between number of members reading English as well as Marathi newspaper and the number of members reading English as well as Hindi newspaper.

- A 300
- B 200
- C 100
- D 50
- E None of these

Answer: C

Explanation:

People who read only English =  $a = 650$

Similarly,  $c = 550$

$g = 450$

People who read all three newspapers =  $e = 100$

Also, people who read English and Hindi =  $b + e = 200$

$\Rightarrow b = 200 - 100 = 100$

Similarly,  $d = 200$

$f = 300$

Number of members reading English as well as Marathi newspaper =  $d + e$   
 $= 200 + 100 = 300$

Number of members reading English as well as Hindi newspaper =  $b + e$   
 $= 100 + 100 = 200$

$\Rightarrow$  Required difference =  $300 - 200 = 100$

Question 142

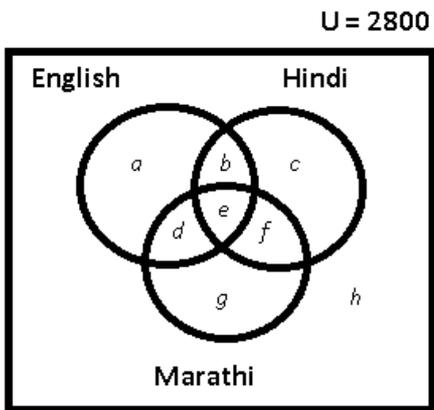

How many members read at least 2 newspapers ?

- A 600
- B 800
- C 500

- D 700
- E None of these

Answer: D

Explanation:

People who read only English =  $a = 650$

Similarly,  $c = 550$

$g = 450$

People who read all three newspapers =  $e = 100$

Also, people who read English and Hindi =  $b + e = 200$

$\Rightarrow b = 200 - 100 = 100$

Similarly,  $d = 200$

$f = 300$

Members who read at least two newspapers =  $b + d + e + f$

$= 100 + 200 + 100 + 300 = 700$

#### Question 143

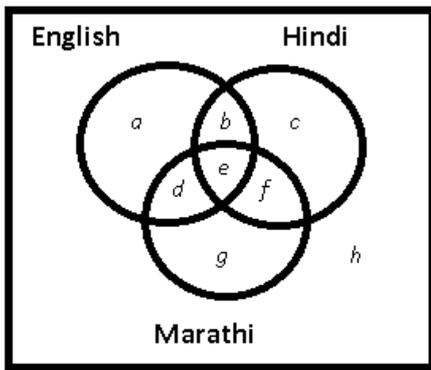

Find the number of members reading Hindi newspaper.

- A 750
- B 980
- C 1050
- D 1020
- E None of these

Answer: C

Explanation:

U = 2800

People who read only English =  $a = 650$

Similarly,  $c = 550$

$g = 450$

People who read all three newspapers =  $e = 100$

Also, people who read English and Hindi =  $b + e = 200$

$\Rightarrow b = 200 - 100 = 100$

Similarly,  $d = 200$

$f = 300$

Members who read Hindi newspaper =  $b + c + e + f$

$= 100 + 550 + 100 + 300 = 1050$

## GK Study Material for Banking Exams (Download PDF)

### Question 144

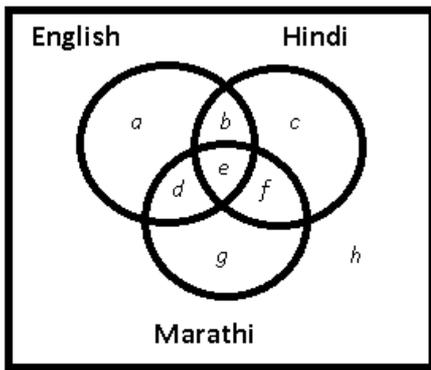

How many members read only one newspaper ?

- A 1560
- B 1650
- C 1640
- D 1540
- E None of these

Answer: B

Explanation:

U = 2800

People who read only English =  $a = 650$

Similarly,  $c = 550$

$g = 450$

People who read all three newspapers =  $e = 100$

Also, people who read English and Hindi =  $b + e = 200$

$\Rightarrow b = 200 - 100 = 100$

Similarly,  $d = 200$

$f = 300$

Members who read only 1 newspaper =  $a + c + g$

$= 650 + 550 + 450 = 1650$

#### Question 145

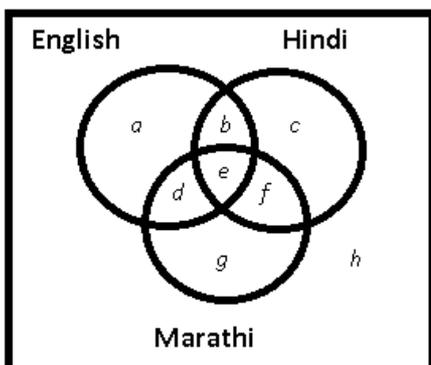

Find the number of members reading no newspaper.

- A 150
- B 460
- C 550
- D 750
- E None of these

Answer: E

Explanation:

U = 2800

People who read only English =  $a = 650$

Similarly,  $c = 550$

$g = 450$

People who read all three newspapers =  $e = 100$

Also, people who read English and Hindi =  $b + e = 200$

$\Rightarrow b = 200 - 100 = 100$

Similarly,  $d = 200$

$f = 300$

Number of people who do not read any newspaper =  $h$

Here,  $a + b + c + d + e + f + g + h = 2800$

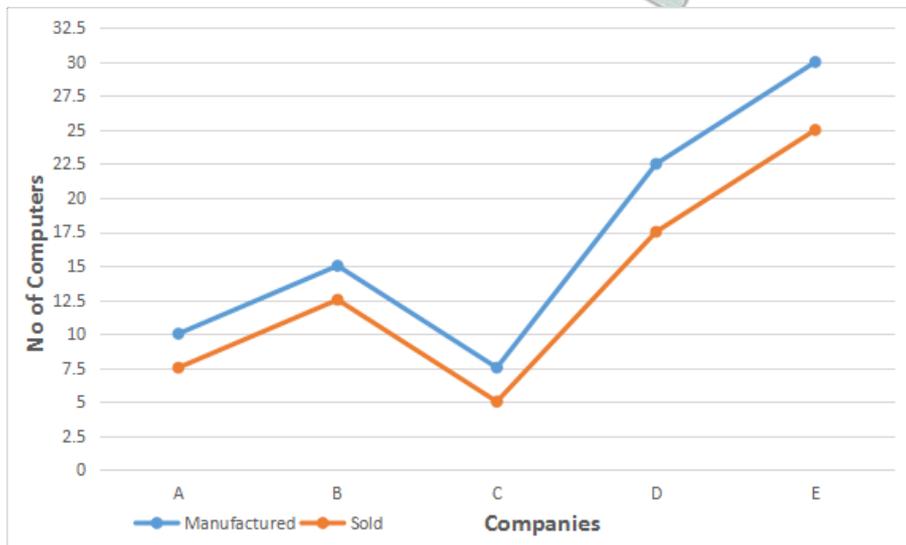

$\Rightarrow 650 + 100 + 550 + 200 + 100 + 300 + 450 + h = 2800$

$\Rightarrow h = 2800 - 2350 = 450$

### Instructions

Study the following graph carefully to answer the questions that follow:

Number of Computers Manufactured and Sold by Various Companies in a Year (Number in Lakhs)

### Question 146

What is the respective ratio of the number of computers manufactured by companies A and C together to the number of computers sold by companies A and C together ?

- A 4 : 5
- B 14 : 11
- C 8 : 9
- D 7 : 5
- E None of these

**Answer:** D

### Explanation:

Number of computers manufactured by companies A and C together =  $10 + 7.5 = 17.5$

Number of computers sold by companies A and C together =  $7.5 + 5 = 12.5$

$\Rightarrow$  Required ratio =  $17.5 : 12.5$

=  $175 : 125 = 7 : 5$

## NICL AO Solved Previous Papers PDF

### Question 147

What is the difference between the average number of computers manufactured by all the companies together and the average number of computers sold by all the companies together ?

- A 3500
- B 35000
- C 350000
- D 3500000
- E None of these

**Answer:** C

#### **Explanation:**

Total number of computers manufactured by all the companies together

$$= 10 + 15 + 7.5 + 22.5 + 30 = 85 \text{ lakhs}$$

Total number of computers sold by all the companies together

$$= 7.5 + 12.5 + 5 + 17.5 + 25 = 67.5 \text{ lakhs}$$

$$\text{Difference} = 85 - 67.5 = 17.5 \text{ lakhs}$$

$$\Rightarrow \text{Required average} = \frac{17,50,000}{5} = 3,50,000$$

### Question 148

The number of computers sold by company B are what per cent of the number of computers manufactured by company B ? (rounded off to two digits after decimal)

- A 83.33
- B 120
- C 78.83
- D 106.54
- E None of these

**Answer:** A

#### **Explanation:**

Number of computers sold by company B = 12.5

Number of computers manufactured by company B = 15

$$\Rightarrow \text{Required \%} = \frac{12.5}{15} \times 100$$

$$= \frac{250}{3} = 83.33\%$$

### Question 149

The number of computers manufactured by company D are what per cent of the number of computers manufactured by company E ?

- A 125
- B 112.5

- C 85
- D 65.25
- E 75

**Answer:** E

**Explanation:**

Number of computers manufactured by company D = 22.5

Number of computers manufactured by company E = 30

$$\Rightarrow \text{Required \%} = \frac{22.5}{30} \times 100$$

$$= 7.5 \times 10 = 75\%$$

## LIC AAO solved previous papers PDF

**Question 150**

The number of computers manufactured by company B are approximately what per cent of the number of computers manufactured by all the companies together ?

- A 22
- B 18
- C 14
- D 26
- E 32

**Answer:** B

**Explanation:**

Number of computers manufactured by company B (in lakhs) = 15

Number of computers manufactured by all the companies together (in lakhs)

$$= 10 + 15 + 7.5 + 22.5 + 30 = 85$$

$$\Rightarrow \text{Required \%} = \frac{15}{85} \times 100$$

$$= 17.64\% \approx 18\%$$

## LIC ADO solved previous papers PDF

### Reasoning

**Instructions**

Study the following information carefully and answer the given questions :

A word and number arrangement machine when given an input line of words and numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement. (All the numbers are two digit numbers).

Input : tent 13 wheat 21 ask 63 steal 49 hand 54 vast 85

Step I : 85 wheat tent 13 21 ask 63 steal 49 hand 54 vast

Step II : 63 vast 85 wheat tent 13 21 ask steal 49 hand 54

Step III : 54 tent 63 vast 85 wheat 13 21 ask steal 49 hand

Step IV : 49 steal 54 tent 63 vast 85 wheat 13 21 ask hand

Step V : 21 hand 49 steal 54 tent 63 vast 85 wheat 13 ask

Step VI : 13 ask 21 hand 49 steal 54 tent 63 vast 85 wheat and Step VI is the last step of the above input, as the desired arrangement is obtained.

As per the rules followed in the above steps, find out in each of the following questions the appropriate step for the given input.

Input : store 95 clean 56 tape 15 break 28 feet 35 wait 69 ice 71

**Question 151**

Which step number is the following output? 35 feet 56 ice 69 store 71 tape 95 wait clean 15 break 28

- A Step V
- B Step III
- C Step VI
- D Step IV
- E There is no such step

**Answer: A**

**OICL Solved Previous Papers PDF**

**Question 152**

Which word /number would be at sixth position from the right in Step IV ?

- A 15
- B wait
- C clean
- D 95
- E 28

**Answer: C**

**Question 153**

How many elements (words/ numbers) are there between 'feet' and '15' as they appear in the second last step of the output ?

- A Six
- B Seven
- C Five
- D Eight
- E Nine

**Answer: D**

**Question 154**

Which of the following represents the position of 'wait' in the third Step ?

- A Ninth from the left
- B Sixth from the left
- C Eighth from the right
- D Seventh from the right

E Tenth from the right

Answer: B

## United Indian Insurance Previous Papers PDF

### Question 155

Which word/number would be at seventh position from the left in the Step VI ?

- A ice
- B store
- C tape
- D 71
- E 69

Answer: E

#### Explanation:

Study the following information carefully and answer the given questions :

In a certain code language 'make your trip interesting' is written as 'de la pa ni;  
'your trip be customised' is written as 'ha ni ta de';  
'customised trip always good' is written as 'ta fa ka ni';  
and 'good make me happy' is written as 'ka ro pa na'.

### Question 156

Which of the following is the code for 'always' ?

- A ka
- B ni
- C fa
- D ta
- E Either fa or ka

Answer: C

### Question 157

Which of the following can be coded as 'pa ni de ha' ?

- A make trip be your
- B make your trip good
- C your trip be good
- D trip always be make
- E trip be customised good

Answer: A

## Daily Current Affairs for Banking exams PDF

Question 158

Which of the following represent 'good trip always interesting' ?

- A de ka ni la
- B fa ni ka ro
- C na fa de ha
- D ni fa la ka
- E ta la fa ni

Answer: D

Question 159

Which of the following is code for 'make' ?

- A la
- B pa
- C ni
- D ro
- E Either na or pa

Answer: B

Question 160

What does 'ta' represent in this code ?

- A trip
- B always
- C good
- D your
- E customised

Answer: E

## Daily Free Banking Online Tests

### Instructions

Each of the questions below consists of a question and two statements numbered I and H given below it. You have to decide whether the data given in the statements are sufficient to answer the questions. Read both the statements and—

Give answer a: if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

Give answer b: if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.

Give answer c: if the data either in statement I alone or statement II alone are sufficient to answer the question.

Give answer d: if the data even in both statements I and II together are not sufficient to answer the questions.  
Give answer e: if the data in both statements I and II together are necessary to answer the question.

**Question 161**

**What is the position of Yogesh from the left in the group of 21 students all of them facing north ?**

- I. Praveen is exactly in the middle of the row. There are five persons between Praveen and Yogesh. Yogesh is fifth from the right end.**  
**II. There are two persons between Seema and Praveen and another two persons between Seema and Yogesh.**

- A** if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- B** if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- C** if the data either in statement I alone or statement II alone are sufficient to answer the question.
- D** if the data even in both statements I and II together are not sufficient to answer the questions.
- E** if the data in both statements I and II together are necessary to answer the question.

**Answer: A**

**Question 162**

**In which year did Ranjana complete her graduation ?**

- I. According to Ranjana's father she graduated after March 1989 but before March 1993.**  
**II. The brother of Ranjana remembers correctly that she did her graduation after March 1991 but before March 1994 and the year of her graduation was an even number.**

- A** if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- B** if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- C** if the data either in statement I alone or statement II alone are sufficient to answer the question.
- D** if the data even in both statements I and II together are not sufficient to answer the questions.
- E** if the data in both statements I and II together are necessary to answer the question.

**Answer: B**

**Question 163**

**Are M, S and N in a straight line ?**

- I. N is 6 metres East of M. O is 4 metres North of N. T is 3 metres West of O and S is 4 metres South of T.**  
**II. P is 6 metres North of M. Q is exactly in the middle of P and M. R is 3 metres East of Q. S is 3 metres South of R. N is 3 metres East of S.**

- A** if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- B** if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- C** if the data either in statement I alone or statement II alone are sufficient to answer the question.
- D** if the data even in both statements I and II together are not sufficient to answer the questions.
- E** if the data in both statements I and II together are necessary to answer the question.

**Answer: C**

## Free Banking Study Material (15,000 Solved Questions)

### Question 164

Whether it was 4 O's clock two hours ago ?

- I. At present, both the hands of the clock face the opposite direction along a straight line.  
II. Two hours ago, both the hands of the clock together formed an angle of 120 degree.

- A if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.  
B if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.  
C if the data either in statement I alone or statement II alone are sufficient to answer the question.  
D if the data even in both statements I and II together are not sufficient to answer the questions.  
E if the data in both statements I and II together are necessary to answer the question.

Answer: E

### Question 165

Among I, A, G, K, J and V who is the tallest ?

- I. V is taller than J and G. K is taller than I and G. K is not the tallest.  
II. V is taller than K and I. J is taller than G. V is not the tallest.

- A if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.  
B if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.  
C if the data either in statement I alone or statement II alone are sufficient to answer the question.  
D if the data even in both statements I and II together are not sufficient to answer the questions.  
E if the data in both statements I and II together are necessary to answer the question.

Answer: E

### Instructions

For the following questions answer them individually

### Question 166

How many meaningful English words can be formed with the letters ENCO, using each letter only once in each word ?

- A None  
B One  
C Two  
D Three  
E More than three

Answer: C

**Question 167**

How many such pairs of letters are there in the word COAST (in both the forward and backward direction), each of which has as many letters between them in the word as they have between them in the English alphabetical series ?

- A None
- B One
- C Two
- D Three
- E More than three

**Answer: C**

**Question 168**

In a certain code language CE stands for BD, NP stands for MO, then what does JL stand for ?

- A KI
- B IK
- C LM
- D ML
- E HJ

**Answer: B**

**Question 169**

In a certain code language FRAME is written as QEBDL and BLOCK is written as KAPJB. How is PRIDE written in that code language ?

- A SQHFE
- B QSHEF
- C OQJCD
- D QOJDC
- E None of these

**Answer: D**

## 100 Computer Awareness Tests For Banking

**Question 170**

What should come next in the following number series ?  
02462302464502466702?

- A 4
- B 2
- C 6

D 8

E 5

Answer: A

### Instructions

In each group of questions below are two/ three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance from commonly known facts and then decide which of the given conclusions logically follows from the two/three statements disregarding commonly known facts.

Give answer a: if only conclusion I follows.

Give answer b: if only conclusion II follows

Give answer c: if either conclusion I or conclusion II follows.

Give answer d: if neither conclusion I nor conclusion II follows.

Give answer e: if both conclusions I and II follow.

### Question 171

#### Statements :

All pens are nibs.

All nibs are inks.

No ink is colour.

#### Conclusions :

I. All inks are nibs.

II. All pens are inks.

A if only conclusion I follows.

B if only conclusion II follows

C if either conclusion I or conclusion II follows.

D if neither conclusion I nor conclusion II follows.

E if both conclusions I and II follow.

Answer: B

### Question 172

#### Statements :

All pens are nibs.

All nibs are inks.

No ink is colour.

#### Conclusions :

I. No colour is nib.

II. No colour is pen.

A if only conclusion I follows.

B if only conclusion II follows

C if either conclusion I or conclusion II follows.

D if neither conclusion I nor conclusion II follows.

E if both conclusions I and II follow.

Answer: A

**Question 173**

**Statements :**

**No dream is project.**

**All ventures are projects.**

**Conclusions :**

**I. No venture is dream.**

**II. All projects are ventures.**

- A if only conclusion I follows.
- B if only conclusion II follows
- C if either conclusion I or conclusion II follows.
- D if neither conclusion I nor conclusion II follows.
- E if both conclusions I and II follow.

**Answer: A**

**Question 174**

**Statements :**

**No road is way.**

**All ways are paths.**

**No path is bridge.**

**Conclusions :**

**I. Some bridges are roads.**

**II. All paths are roads.**

- A if only conclusion I follows.
- B if only conclusion II follows
- C if either conclusion I or conclusion II follows.
- D if neither conclusion I nor conclusion II follows.
- E if both conclusions I and II follow.

**Answer: D**

**Question 175**

**Statements :**

**Some numbers are digits.**

**No digit is alphabet.**

**All alphabets are letters.**

**Conclusions :**

**I. No letter is digit.**

**II. Some letters are digits.**

- A if only conclusion I follows.
- B if only conclusion II follows
- C if either conclusion I or conclusion II follows.
- D if neither conclusion I nor conclusion II follows.
- E if both conclusions I and II follow.

**Answer: C**

**Question 176**

**Statements :**

**Some numbers are digits.**

**No digit is alphabet.**

**All alphabets are letters.**

**Conclusions :**

**I. Some letters are numbers.**

**II. All numbers can never be alphabets.**

- A if only conclusion I follows.
- B if only conclusion II follows
- C if either conclusion I or conclusion II follows.
- D if neither conclusion I nor conclusion II follows.
- E if both conclusions I and II follow.

**Answer: B**

**Instructions**

In these questions, relationship between different elements is shown in the statements. These statements are followed by two conclusions :

Give answer a: if only conclusion I follows.

Give answer b: if only conclusion II follows.

Give answer c: if either conclusion I or II follows.

Give answer d: if Neither conclusion I nor II follows.

Give answer e: if both conclusions I and II follow.

**Question 177**

**Statements :**

**$O > P > Q > R < S < T$**

**Conclusions :**

**I.  $O > S$**

**II.  $T > P$**

- A if only conclusion I follows.
- B if only conclusion II follows.
- C if either conclusion I or II follows.
- D if Neither conclusion I nor II follows.
- E if both conclusions I and II follow.

**Answer: D**

**Question 178**

**Statements :**

**$A < B < C; B = D > E > F; G < A$**

**Conclusions :**

**I.  $D > A$**

**II.  $A < E$**

- A if only conclusion I follows.

- B if only conclusion II follows.
- C if either conclusion I or II follows.
- D if Neither conclusion I nor II follows.
- E if both conclusions I and II follow.

Answer: A

### Question 179

Statements :

$$H \geq I = J \geq K; L \leq K; < M < N$$

Conclusions :

I.  $H > M$

II.  $N > H$

- A if only conclusion I follows.
- B if only conclusion II follows.
- C if either conclusion I or II follows.
- D if Neither conclusion I nor II follows.
- E if both conclusions I and II follow.

Answer: D

### Question 180

Statements :

$$H \geq I = J \geq K; L \leq K; < M < N$$

Conclusions :

I.  $M < I$

II.  $H \geq K$

- A if only conclusion I follows.
- B if only conclusion II follows.
- C if either conclusion I or II follows.
- D if Neither conclusion I nor II follows.
- E if both conclusions I and II follow.

Answer: B

### Instructions

For the following questions answer them individually

### Question 181

Which of the following expressions will not be true if the expression  $U < V < W < X < Y = Z \geq A = B > C$  is definitely true?

- A  $Z > C$
- B  $U < Y$

C  $Y > V$

D  $Z < U$

E  $B < Y$

Answer: D

### Question 182

How many meaningful English words can be formed from the first, the fifth, the eighth and the tenth letters of the word CREATIVITY, using each letter only once in each word ?

A None

B One

C Two

D Three

E More than three

Answer: B

### Instructions

Following questions are based on the information given below :

- a: 'P × Q' means 'P is father of Q'.
- b: 'P - Q' means 'P is sister of Q'.
- c: 'P + Q' means 'P is mother of Q'.
- d: 'P ÷ Q' means 'P is brother of Q'.

### Question 183

In the expression  $B + D \times M \div N$ , how is M related to B ?

A Granddaughter

B Son

C Grandson

D Granddaughter or Grandson

E None of these

Answer: C

### Question 184

Which of the following represents is son of F' ?

A  $J \div R - T \times F$

B  $J + R - T \times F$

C  $J \div M - N \times F$

D Cannot be determined

E None of these

Answer: E

### Question 185

Which of the following represents 'R is niece of M' ?

A  $M \div K \times T - R$

B  $M - J + R - N$

C  $R - M \times T \div W$

D Cannot be determined

E None of these

Answer: B

### Instructions

Study the following information to answer the given questions :

Seven animated movies Up, Finding Nemo, Ice Age, Aladdin, Shark Tale, Beauty and the Beast, The Incredibles, were screened during a children's workshop not necessarily in the same order. The workshop started on Monday and ended on Sunday. Only one movie was screened on each day.

'Beauty and the Beast' was screened on Wednesday. 'The Incredibles' was screened on the fourth day after 'Up' was screened. 'Ice Age' was screened before Thursday but not on Monday. 'Shark Tale' and 'Aladdin' were not screened on Saturday but 'Shark Tale' was screened before Saturday.

### Question 186

Four of the following five are similar on the basis of their position in the above arrangement and hence form a group. Which of the following does not belong to the group ?

A Up – Beauty and the Beast

B The Incredibles – Aladdin

C Shark Tale – Finding Nemo

D Beauty and the Beast – The Incredibles

E Finding Nemo – Aladdin

Answer: E

### Question 187

On which day was 'Ice Age' screened ?

A Friday

B Tuesday

C Thursday

D Sunday

E None of these

Answer: B

## LIC AAO solved previous papers PDF

### Question 188

Which movie was screened on Saturday ?

- A Finding Nemo
- B Up
- C The Incredibles
- D Aladdin
- E None of these

Answer: A

### Question 189

How many movies were screened before 'Shark Tale' ?

- A 6
- B 4
- C 2
- D 3
- E None of these

Answer: D

### Question 190

Which of the following combinations is false with respect to the given information ?

- A 'Up' was not screened on Friday
- B 'Shark Tale' was screened immediately after 'Beauty and the Beast'
- C 'The Incredibles' was screened on Sunday
- D 'Finding Nemo' was not screened on Friday
- E All are false

Answer: C

### Instructions

Study the following information to answer the given questions :

Eight people – L, M, O, P, Q, R and S – are sitting around a circular table facing the centre. Each of them likes different colours, viz., Red, Orange, Blue, Pink, Black, Purple, Brown and Green, but not necessarily in the same order. S is sitting second to the left of N. There are two persons between S and the person who likes Orange colour. M is second to the left of the person who likes Orange colour. L is the immediate neighbour of S. R is the third to the right of P. O likes Purple colour. The person who likes Pink colour is second to the right of P. The person who likes Brown colour is the third to the left of the person who likes Blue colour. Neither S nor P likes Brown colour. N

likes neither Green nor Blue colour. L likes Red colour.

**Question 191**

Who among the following is second to the right of the person who likes Orange colour ?

- A The person who likes Brown colour
- B 9
- C N
- D The person who likes Blue colour
- E Cannot be determined

**Answer: B**

**Question 192**

Who among the following likes Green colour ?

- A M
- B L
- C S
- D N
- E None of these

**Answer: C**

**Question 193**

Who among the following is sitting exactly in the middle of the person who likes Red colour and Q ?

- A R
- B O
- C N
- D S
- E None of these

**Answer: A**

**OICL Solved Previous Papers PDF**

**Question 194**

Who among the following\_ likes Pink colour ?

- A R
- B S
- C N
- D Q

E None of these

**Answer: D**

**Question 195**

Which of the following pairs of persons are immediate neighbours of M ?

A N and S

B L and S

C N and P

D R and S

E None of these

**Answer: A**

**Instructions**

Study the following information and answer the questions given below it.

Seven members H, I, J, K, L, M and N are working in different cities Ahmedabad, Bangalore, Chennai, Hyderabad, Kolkata, Delhi and Mumbai not necessarily in the same order. Each one has a different mother tongue Tamil, Kannada, Telugu, Hindi, Marathi, Punjabi and Bangla not necessarily in the same order. J works in Bangalore and his mother tongue is not Tamil or Marathi. K's mother tongue is Punjabi and he works in Ahmedabad. L and M do not work in Chennai and none of them has Marathi mother tongue. I works in Hyderabad and his mother tongue is Telugu. The one who works in Delhi has Bangla mother tongue. N works in Mumbai and his mother tongue is Hindi. L does not work in Kolkata.

**Question 196**

What is J's mother tongue ?

A Telugu

B Hindi

C Bangla

D Kannada

E None of these

**Answer: D**
