**Instructions**

Read the following passage carefully and answer the questions.

The term "shadow bank" was coined in 2007 to describe risky off-balance-sheet vehicles hatched by banks to sell loans repackaged as bonds. Today, the term is used more loosely to cover all financial intermediaries that perform bank-like activity but are not regulated as one. These include mobile payment systems, pawnshops, peer-topeer lending websites, hedge funds and bond-trading platforms set up by technology firms. Among the biggest are asset management companies. In 2013 investment funds make such loans raised a whooping $97 billion worldwide. The Financial Stability Board, an international watchdog estimates that globally, the informal lending sector serviced assets worth $80 trillion in 2014 up from $26 trillion more than a decade earlier. Shadow banks have flourished in part because the traditional ones, battered by losses incurred during the financial slump, are under pressure. Tighter capital requirements and fear of heavy penalties have kept them grounded. In China, where banks are discouraged from lending to certain industries and are mandated to offer frustratingly low interest rates on deposits, non-banks fill the gap. About two-thirds of all lending in the country by shadow banks are in fact 'bank loans in disguise'. Critics worry that unlike banks, which lend against deposits from customers, non-banks loan money using investor's cash and rotating lines of credit. This is especially risky when skittish investors who bet on short term gains withdraw their money at once. But non-bank financing need not always be a bad thing. It offers an additional source of credit to individuals and businesses in countries where formal banking is either expensive or absent. It also take some burden off banks which have big 'maturity mismatches' (the difference between the amount of time a depositor's money is parked in the bank minus the time that it is loaned out). And belatedly, regulators, too, are waking up to the new financial order of shadow banking.Banks must now declare structured investment vehicles on their balance sheets. Authorities are imposing leverage limits on various forms of shadow banks in America and Europe. It is a small start to rein in an industry that accounts for a quarter of the global financial system.

**Question 86**

**Which of the following can be said about banking regulators ?**

**A**   These have been innovative in helping economies recover from the 2008 crisis.

**B**   Their approach to regulation of shadow banks is unnecessarily stringent.

**C**   These have washed their hands off and warned people against shadow banks.

**D**   These have been slow to respond to the growth of shadow banking.

**E**   None of the given statements can be said about banking regulators

   **Answer:** D

**Question 87**

**Which of the following is the central theme of the passage ?**

**A**   The global economy is headed for a financial collapse given the state of China's economy.

**B**   Shadow banking, an indispensable part of the global financial system, is unnecessarily perceived as risky.

**C**   There is tremendous upheaval in the banking sector with only state-owned banks safe and sound.

**D**   Shadow banks which can be useful are a high risk alternative to traditional banks and need regulation.

**E**   Traditional banks are the safest given the risk the financial system currently faces.

   **Answer:** D

# Best Youtube Channel for Banking Preparation

**Question 88**

**Which of the following has/have impacted the growth of shadow banks ?**
**A. Faulty audits of these institutions by the Financial Stability Board.**
**B. The state of traditional banks post the financial crisis.**
**C. Need for credit which traditional banks are unable to meet.**

**A**   Only A and B

**B**   Only B and C

**C**   Only B

**D**   All A, B and C

**E**   Only A and C

   **Answer:** B

**Explanation:**
3

**Question 89**

**Which of the following can be used to replace the phrase Among the biggest are asset management companies' ?**

**A**   Asset management companies are responsible for over half the credit in America.

**B**   The financial crisis hurt asset management companies in China the most.

**C**   Asset management companies occupy the largest share of shadow banking firms.

**D**   With high rates of interest asset management companies are showing the highest profits.

**E**   None of the given statements.

   **Answer:** C

**Question 90**

**Which of the following aptly describes the tone of the passage ?**

**A**   Obsequious

**B**   Reckless

**C**   Poignant

**D**   Acrimonious

**E**   None of these

   **Answer:** B

## Question 94

**With so lowly call rates, the new/ telecom service company is definitely going/ to give the current market leaders a/ run for their money and market share.**

**A** With so lowly call rates, the new

**B** telecom service company is definitely going

**C** to give the current market leaders a

**D** run for their money and market share

**E** No error

   **Answer:** A

**Question 95**

As retailers may well be on their/ way to experiment with the change in policy/ for the next few months, consumers may also take/ time to get used to late night shopping.

**A** As retailers may well be on their

**B** way to experiment with the change in policy

**C** for the next few months, consumers may also take

**D** time to get used to late night shopping

**E** No error

**Answer:** C

**Instructions**

Read the following passage carefully and answer the questions.
These are difficult times for America's free-traders. There is anger at `globalism'. Even Americans who were in favour of the Trans-Pacific Partnership (TPP)-an ambitious new agreement between 12 Pacific-rim-countries- have turned against it. This may be linked to a globalisation of supply chains. Production of traded goods has become `unbundled'. Firms once tended to design new gadgets and order the supplies needed to build them in a single factory or city. In the past' few decades, more efficient global shipping and improvements in communications allow firms to spread production across far- flung locations to design a phone in America, source parts from several Asian economies, and assemble it in China. The share of parts and components in trade rose from 22% to 28% between 1980 and 2000. In 2005, trade in 'intermediate inputs' accounted for an estimate 56% of trade in goods and 73% in services across rich countries. This contributed to a dramatic acceleration in global trade growth. It also changed the waymany workers view trade. As production has spread around the world, countries have specialised in different segments of the supply-chain. While those, such as China, with lots of low-cost labour, focused on manufacturing and assembly, more advanced economies followed a different path. Cities like New York and San Francisco enjoyed an initial advantage in the most lucrative bits of the Modern supply chain: research and development, engineering and finance. As a result, growth in supply-chain trade has been a boon for the powerful and profitable firms with headquarters in those cities, and for the highly skilled, well compensated workers they employ. America's lot in this new world is, on the whole, a happy one. Many countries envy its fortunate position as a hub for innovative cities. Most studies of the potential effects of TPP conclude that the deal would raise American output by a small but meaningful amount: just under a percentage point of GDP, perhaps over the next 15 years. But the obstacles confronting new trade deals are formidable. More generous redistribution, perhaps through an expanded programme of trade-adjustment assistance, could help neutralise some opposition. But discomfort with TPP is mostly rooted in a mistrust of the elite. Voters who are sceptical of the value of TPP will be unlikely to change their stripes without some demonstration that pacts of its kind benefit the many rather than just the few.

**Question 96**

Which of the following is true in context of the passage ?

**A** Global public opinion is against America's trade policies.

**B** In America, wages of low skilled workers have risen tremendously over the last decade.

**C** America's GDP growth has fallen in the past few years.

**D** American firms are no longer leader in technology.

**E** None of these

**Answer:** A

# 100 Free Computer Awareness Tests

## Question 97

**Which of the following best describes the America's view of TPP ?**

A   Americans are unequivocally in favour of the TPP as it will benefit them the most.

B   The TPP is detrimental as it has fuelled long-term confiicts between rich and developing nations.

C   The TPP has elevated mass unemployment and is resented by all Americans.

D   The TPP has strengthened America's relationship with Asia and Europe.

E   Americans are wary of the TPP as its benefits are indeterminate.

   **Answer:** E

## Question 98

**What do the statistics in the passage convey ?**

A   Developed countries are benefitting most from trade agreements.

B   The TPP has benefitted China and America the most.

C   China's dominance in manufacturing is waning.

D   Global trade has grown explosively.

E   Contrary to political projections, trade in Asian has not risen dramatically.

   **Answer:** A

## Question 99

**Which of the following is the author's view of free trade ?**

A   Uniform laws and regulations across developing countries have vastly benefitted free trade.

B   There have been tremendous shifts in free trade but it's benefits need to be more equitably distributed.

C   Protecting national interest at the cost of free trade is the need of the hour.

D   It is service to reduce the gap between the haves and the have-nots.

E   None of the options illustrate the author's view -of free trade.

   **Answer:** B

## Question 100

**According to the passage, which of the following is/are (an) effects of 'unbundling' ?**
**A. Unfair and exploitative working conditions in developing countries.**
**B. Drop in quality standards of manufactured goods.**
**C. Unemployment for some sections of the workforce in develciped countries.**

A   Only A and B

B   Only B and C

**C** Only C

**D** All A, B and C

**E** Only A and C

   **Answer:** C

## Instructions

In these questions, there are two statements which can be combined into a single statement in a number of different ways without changing their meaning. Below them are given three probable starters (1), (2) and (3) of such a combined sentence. One, two, three or none of them may be correct. Decide upon which is/are correct, if any and mark the option which denotes your answer. If none of the three starters is suitable mark, 'None' as your answer.

### Question 101

**Shanghai is supposed to be the "diamond" on China' Silk Road Economic Belt —a new metropolis carved out of the mountains in the country's and northwest. It is shaping up to be fool's gold, a ghost city in the making.**
**A. Shanghai is supposed to be the**
**B. Instead of being the 'diamond' on China's Silk Road Economic Belt**
**C. Because Shanghai is shaping up to be fool's gold.**

**A** Only A

**B** Both A and B

**C** Only B

**D** Only C

**E** None

   **Answer:** D

### Question 102

**A quieter, cleaner future is not that far away, with more automobile buyers gradually taking to electric vehicles. Even with limited driving range, electric vehicles can successfully replace the bulk of personal cars on roads.**
**A. It's a myth that electric vehicles can successfully**
**B. In addition to limited driving range**
**C. Despite limited driving range, electric vehicles can**

**A** Only B

**B** Both A and B

**C** Only C

**D** Only A

**E** None of these
   **Answer:** E

**Question 103**

A survey revealed that consumers think smartphone makers are releasing too many new models each year. Handset devices are one of the most frequently replaced electronic products.
A. Handset devices are one of the most frequently replaced electronic products and
B. Even though handset devices are replaced every year
C. While consumers think smartphone makers are releasing too many models each year

**A**    Both A and B

**B**    Only B

**C**    Only C

**D**    Only A

**E**    All of these

   **Answer:** A

**Instructions**

In the given passage, there are blanks, each of which has been numbered. Against each, five words are suggested, one of which fits the blank appropriately. We all have a ...(1)... in the infrastructure surrounding us-the roads, buildings, power lines and telephone networks that we ...(2)... on daily. How well they are built and operated is ...(3)... to economic growth and is a key arbiter of an economy's competitiveness- and yet, virtually every economy faces an array of infrastructure challenges. Just a few examples illustrate some of the pressing issues. South Africa's power distribution network has an estimated maintenance backlog of $4 billion- equivalent to half of the country's total investment in electronic power generation and distribution in 2011. The U.S. Department of Transportation estimates that 15% of the country's roads are in an unacceptable condition and Just to keep ...(4)... with anticipated global GDP growth, the world needs to spend $57 trillion, or on average $3.2 trillion a year, on infrastructure over the next 18 years. That is more than the entire worldwide stock of infrastructure on the ground today-and nearly 60% more than the world has invested over the past 18 years. Tackling maintenance backlogs, future-proofing infrastructure to cope with climate change and ..(5)... development goals such as access to clean water and all-weather roads to transport goods to markets would cost a great deal. The bill for all of that looks prohibitive at a time when many governments are highly indebted and capital is tight. A focus on both, the huge need for additional investment and potential difficulties in financing it, ...(6)... the debate Pessimism rules, but it needn't be that way. There are ways of cutting the bill down to size and dealing with the challenge. The answer ...(7)... in improving the way we plan, build and operate infrastructure- in other words, we need to boost its productivity.

**Question 104**

**(1)**

**A**    stake

**B**    interest

**C**    compromise

**D**    decision

**E**    subsidy

   **Answer:** A

**Question 105**

## Quant

**Instructions**

In the following number series only one number is wrong. Find out the wrong number.

**Question 111**

**18.3, 20.6, 16, 22.9, 13.7, 2.2, 11.4**

**A** 2.2

**B** 16

**C** 22.9

**D** 20.6

**E** 13.7

**Answer:** A

**Explanation:**

Multiples of 2.3 are alternatively added and subtracted.

$18.3 + (2.3 \times 1) = 20.6$

$20.6 - (2.3 \times 2) = 16$

$16 + (2.3 \times 3) = 22.9$

$22.9 - (2.3 \times 4) = 13.7$

$13.7 + (2.3 \times 5) = 25.2 \neq 2.2$

$25.2 - (2.3 \times 6) = 11.4$

# RBI Assistant Free Mock Test (With Solutions)

**Question 112**

**2, 4, 11, 37, 151, 771, 4633**

**A**   151

**B**   4

**C**   37

**D**   771

**E**   11

   **Answer:** A

**Explanation:**

The pattern followed is :

$2 \times 1 + 2 = 4$

$4 \times 2 + 3 = 11$

$11 \times 3 + 4 = 37$

$37 \times 4 + 5 = 153 \neq 151$

$153 \times 5 + 6 = 771$

$771 \times 6 + 7 = 4633$

**Question 113**

**188, 154, 140, 132, 128, 126, 125**

**A**   154

**B**   132

**C**   128

**D**   140

**E**   126

   **Answer:** A

**Explanation:**

Successive powers of 2 are subtracted.

$188 - 2^5 = 156 \neq 154$

$156 - 2^4 = 140$

$140 - 2^3 = 132$

$132 - 2^2 = 128$

$128 - 2^1 = 126$

$126 - 2^0 = 125$

**Question 114**

**6, 4, 5, 11, 39, 179, 1127**

**A**  4

**B**  39

**C**  179

**D**  5

**E**  11

   **Answer:** C

**Explanation:**
The pattern followed is :

$6 \times 1 - 2 = 4$

$4 \times 2 - 3 = 5$

$5 \times 3 - 4 = 11$

$11 \times 4 - 5 = 39$

$39 \times 5 - 6 = 189 \neq 179$

$189 \times 6 - 7 = 1127$

## Free Banking Study Material (15000 Solved Questions)

**Question 115**

**9, 5, 6, 10.5, 23, 61, 183**

**A**  61

**B**  23

**C**  10.5

**D**  6

**E**  5

   **Answer:** A

**Explanation:**
The series follows the following pattern:

9 * 0.5 + 0.5 = 5

5*1 + 1 = 6

6 * 1.5 + 1.5 = 10.5

10.5 * 2 + 2 = 23

23 * 2.5 + 2.5 = 60

60 * 3 + 3 = 183

Hence, 61 is the incorrect number.

**Instructions**

For the following questions answer them individually

**Question 116**

**A, B and C started a business with investments of 1,600/-, 2,100/- and 1,500/- respectively. After 8 months from the start of the business, B and C invested additional amounts in the ratio of 3 : 5 respectively. If the respective ratio between total annual profit and C's share in the annual profit was 3 : 1, what was the additional amount invested by B after 8 months ?**

**A**   1,200/-

**B**   600/-

**C**   900/-

**D**   300/-

**E**   700/

  **Answer:** C

**Explanation:**

Let additional amount invested by B = $Rs.3x$

=> Additional amount invested by C = $Rs.5x$

Ratio of profits of A, B and C

$= [1600 \times 12] : [2100 \times 8 + (2100 + 3x) \times 4] : [1500 \times 8 + (1500 + 5x) \times 4]$

$= (4800) : (4200 + 2100 + 3x) : (3000 + 1500 + 5x)$

$= (4800) : (6300 + 3x) : (4500 + 5x)$

=> Total profit $= (4800) + (6300 + 3x) + (4500 + 5x)$

$= 15600 + 8x$

Acc to ques, ratio of total profit to C's share in the profit

=> $\frac{15600 + 8x}{4500 + 5x} = \frac{3}{1}$

=> $15600 + 8x = 13500 + 15x$

=> $15x - 8x = 15600 - 13500$

=> $x = \frac{2100}{7} = 300$

∴ Additional amount invested by B = $3 \times 300$

$= Rs.900$

**Question 117**

**A shopkeeper purchased 15 kg of variety A rice at X per kg and 10 kg of variety B rice at 'X+ 5' per kg. The shopkeeper sold the whole quantity of variety A rice at 10% profit and that of variety B rice at 20% profit. The total selling price of variety A rice was 30/- more than that of variety B rice. Had the two varieties been mixed and sold at an overall profit of 20%, what would have been the selling price of the mixture per kg?**

**A**   Rs. 26.40

**B**   Rs. 23.20

**C**   Rs. 24.20

**D**   Rs. 25.00

**E**   Rs. 28.30

**Answer:** A

**Explanation:**
Total revenue generated by selling variety A rice = 1.1*15x = 16.50x
Total revenue generated by selling variety B rice = 1.2*10(x+5) = 12x + 60

It is given that, 16.5x - 12x - 60 = 30
$\Rightarrow$ x = 20.

When the two varieties been mixed and sold at an overall profit of 20%. Total weight of the entire mixture = 10+15 = 25 kg.
Total cost price of the mixture = 15*20 + 10*25 = 550
Therefore, the cost price pf the mixture per kg = \dfrac{550}{25} = Rs. 22 per kg.
It is known that the mixture was sold at 20%. Therefore, the selling price of the mixture = 1.2*22 = Rs. 26.40.
Hence, option A is the correct answer.

# Download Highly Rated Banking APP

**Instructions**

In the given questions, two quantities are given, one as Quantity I and another as Quantity II. You have to determine relationship between two quantities and choose the appropriate option.

a: If quantity I ≥ quantity II
b: If quantity I > quantity II
c: If quantity I < quantity II
d: If quantity I = quantity II or the relationship cannot be established from the information that is given
e: If quantity quantity II

**Question 118**

**1 >a>0 > b**

**Quantity:**

**1. value of** $$\frac{(a+b)^{2}-a^{2}-b^{2}}{(a+b)^{2}-(a^{2}-b^{2})}=\frac{1}{2(ab^{3}+ab)}$$

**A**   If quantity I ≥ quantity II

**B**   If quantity I > quantity II

**C**   If quantity I < quantity II

**D**   If quantity I = quantity II or the relationship cannot be established from the information that is given

**E**   If quantity quantity II

   **Answer:** D

**Question 119**

**There are three positive numbers- a, b and c. The average of a and b is less than the average of b and c by 1.**
**Quantity :**
**I. Value of c.**
**II. Value of a**

**A**   If quantity I ≥ quantity II

**B**   If quantity I > quantity II

**C**   If quantity I < quantity II

**D**   If quantity I = quantity II or the relationship cannot be established from the information that is given

**Answer:** B

**Explanation:**

Average of a and b is less than the average of b and c by 1

$$=> \frac{b+c}{2} - \frac{a+b}{2} = 1$$
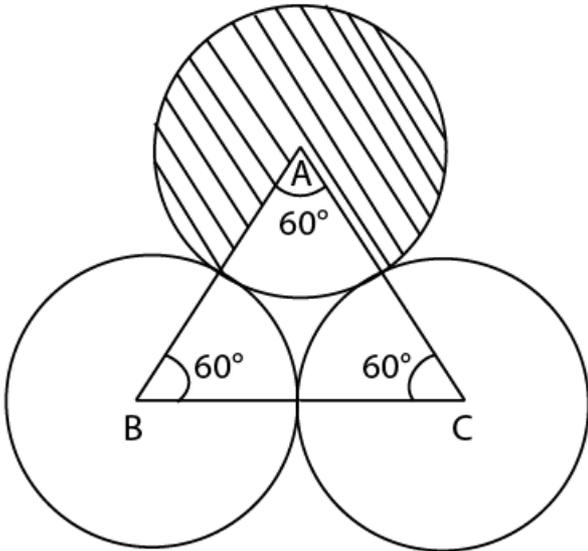

$$=> (b+c) - (a+b) = 2$$

$$=> c - a = 2$$

∵ Difference between c and a is positive.

$$=> c > a$$

∴ Quantity I > Quantity II

**Question 120**

**Three equal circles are drawn on a triangle ABC, with points A, B and C as the centres. Radius of each of the**
**circle is equal to half of the side of the triangle ABC. (Figure not to the scale)**

**Area of shaded region 1** $= 128\frac{1}{3} cm^2$
**Quantity :**
**I. The area of the shaded region 2 ( in cm^{2} )**
**II. 30 cm^{2}**

A    If quantity I ≥ quantity II

B    If quantity I > quantity II

C    If quantity I < quantity II

D    If quantity I = quantity II or the relationship cannot be established from the information that is given

E    If quantity quantity II

**Answer:** A

**Best Youtube Channel for Banking Preparation**

## Question 121

**Ram invested P in scheme A and 2P in scheme B, for two years each. Scheme A offers simple interest p.a. Scheme B offers compound interest (compounded annually) at the rate of 10% p.a. Respective ratio between the interest earned from scheme A and that earned from scheme B was 8 : 21.**
**Quantity :**
**I. Rate of interest offered by scheme A.**
**II. Rate of interest offered by scheme C (simple interest p.a.), when 1,600/- is invested for 3 years earns an interest of 384/-.**

**A**   If quantity I ≥ quantity II

**B**   If quantity I > quantity II

**C**   If quantity I < quantity II

**D**   If quantity I = quantity II or the relationship cannot be established from the information that is given

**E**   If quantity quantity II

**Answer:** D

**Explanation:**

$S.I. = \frac{P \times R \times T}{100}$

$C.I. = P[(1 + \frac{R}{100})^T - 1]$

Rate of interest for scheme B = 10 %

Time period in each scheme = 2 years

Acc to ques,

$=> \frac{\frac{P \times R \times 2}{100}}{2P[(1+\frac{10}{100})^2 - 1]} = \frac{8}{21}$

$=> \frac{\frac{R}{50}}{\frac{21}{50}} = \frac{8}{21}$

$=> \frac{R}{21} = \frac{8}{21}$

$=> R = 8\%$

Quantity I = 8 %

Quantity II : $384 = \frac{1600 \times R \times 3}{100}$

$=> R = \frac{384}{48} = 8\%$

∴ Quantity I = Quantity II

## Question 122

**Rutuja bought two articles-article A at X and article B at X + 50. She sold article A at 20% profit and article B at 10% loss, and earned 35/- as profit on the whole deal.**
**Quantity :**
**I. Profit earned by Rutuja on selling article A (in ).**
**II. Loss incurred (in ) when an article which costs 480/- is sold at 20% loss.**

**A**   If quantity I ≥ quantity II

**B**   If quantity I > quantity II

**C**   If quantity I < quantity II

**D**   If quantity I = quantity II or the relationship cannot be established from the information that is given

**Answer:** C

**Explanation:**

Cost price of article A = $x$ and cost price of article B = $x + 50$

Selling price of article A = $\frac{120}{100} \times x = \frac{6x}{5}$

Selling price of article B = $\frac{90}{100} \times (x + 50)$

Selling price of both articles after Rs. 35 profit = $(x + x + 50 + 35) = 2x + 85$

=> $\left(\frac{6x}{5}\right) + \left(\frac{90}{100} \times (x + 50)\right) = 2x + 85$

=> $\frac{6x}{5} + \frac{9x}{10} + 45 = 2x + 85$

=> $\frac{21x}{10} - 2x = 85 - 45$

=> $\frac{x}{10} = 40$

=> $x = 40 \times 10 = 400$

Quantity I : Profit = $\frac{20}{100} \times 400 = Rs.80$

Quantity II : Loss = $\frac{20}{100} \times 480 = Rs.96$

∴ Quantity I < Quantity II

**Question 123**

**Arun and Bhadra are brothers. In how many years from now will Bhadra's age be 50 years ? •**
**I. The ratio of the current ages of Arun and Bhadra is 5 : 7 respectively.**
**II. Bhadra was born 10 years before Arun.**
**III. 5 years hence, Arun's age would be three-fourth of Bhadra's age at that time.**

**A**  Any two of the three

**B**  Only II and either I or III

**C**  All I, II and III

**D**  Only II and III

**E**  Only I and III

**Answer:** A

**Explanation:**

I & II : Let Arun's age = $x$ years

=> Bhadra's age = $x + 10$ years

∴ $\frac{x}{x+10} = \frac{5}{7}$

=> $7x = 5x + 50$

=> $7x - 5x = 2x = 50$

=> $x = \frac{50}{2} = 25$

=> Bhadra's age = $25 + 10 = 35$ years

Thus, I & II are sufficient.

---

II & III : Let Arun's age = $x$ years

=> Bhadra's age = $x + 10$ years

$$\therefore \frac{x+5}{x+15} = \frac{3}{4}$$

$$=> 4x + 20 = 3x + 45$$

$$=> 4x - 3x = 45 - 20$$

$$=> x = 25$$

=> Bhadra's age $= 25 + 10 = 35$ years

Thus, II & III are sufficient.

---

I & III : Let Arun's age $= 5x$ years

=> Bhadra's age $= 7x$ years

$$\therefore \frac{5x+5}{7x+5} = \frac{3}{4}$$

$$=> 20x + 20 = 21x + 15$$

$$=> 21x - 20x = 20 - 15$$

$$=> x = 5$$

=> Bhadra's age $= 7 \times 5 = 35$ years

Thus, I & III are sufficient.

$\therefore$ **Any two of the three statements are sufficient.**

# General Knowledge Questions & Answers (Download pdf)

**Question 124**

**A right-angled triangle is inscribed in a given circle. What is the area of the given circle (in cm2) ?**
**I. The base and height of the triangle (in cm) are both the roots of the equation $x^2 - 23x + 120 = 0$**
**II. The sum of the base and height of the triangle is 23 cm.**
**III. The height of the right-angled triangle is greater than the base of the same.**

**A**   III and either omly I or only II

**B**   ALL I,II and III

**C**   Only II and III

**D**   Only I

**E**   Either I or II

   **Answer:** D

**Explanation:**

I : $x^2 - 23x + 120 = 0$

$$=> x^2 - 8x - 15x + 120 = 0$$

$$=> x(x - 8) - 15(x - 8) = 0$$

$$=> (x - 8)(x - 15) = 0$$

$$=> x = 8, 15$$

Thus, base = 8 cm and height = 15 cm (or vice versa)

=> Hypotenuse of right angled triangle $= \sqrt{(8)^2 + (15)^2}$

$= \sqrt{64 + 225} = \sqrt{289} = 17 cm$

Since, triangle is inscribed in circle, => Radius of circle = half of hypotenuse

$=> r = \dfrac{17}{2} = 8.5$ cm

$\therefore$ Area of circle $= \pi r^2$

$= \dfrac{22}{7} \times 8.5 \times 8.5 \approx 227 cm^2$

**Thus, I alone is sufficient.**

Clearly, we cannot find base and height from statements II or III. Thus, they are insufficient.

**Question 125**

**What is the ratio between the marled price of two identical items, P and Q, which had been purchased at the same price ?**
**I. Item P was sold at a profit of 20%, while item Q was sold at a loss of 10%.**
**II. Item P was sold at a discount of 4%. The percentage by which Item Q's cost price had been marked up is 2.5 times the profit % earned on selling item P.**
**III. The overall profit earned on selling items P and Q was 5%.**

**A**  Only I and II

**B**  All I, II and III

**C**  Any two of the three

**D**  Only II and III

**E**  Question cannot be answered even with the information in all the three statements

  **Answer:** A

**Question 126**

**Three workers A, B and C complete a given piece of work within different time spans, while working individually. What is the ratio of efficiencies of C and B respectively ?**
**I. A takes 100% more time than C to complete the given piece of work.**
**II. B completes the given piece of work within 8 days.**
**III. B takes 2 days less than A to complete the given piece of work.**

**A**  Question cannot be answered even with the information in all thre statements.

**B**  All of the three

**C**  Only II and III

**D**  II and either only I or only III

**E**  Only I and III

  **Answer:** B

**Explanation:**
Clearly, we require all the statements as only then we can find the relation among A,B and C

From I,II & III : Time taken by B to complete the work = 8 days

=> Time taken by A to complete the work = 8 + 2 = 10 days

Time taken by C = $\dfrac{100}{200} \times 10 = 5$ days

We know that, efficiency $\propto \dfrac{1}{time}$

=> Ratio of efficiencies of C and B respectively = 8 : 5

Thus, all the statements are sufficient.

**Question 127**

**What is the three-digit number having each digit different from the other ?**
**I. Each of the digits of the given number is a multiple of 3.**
**II. The digit in the unit's place is 50% less than that in the hundred's place.**

**A**   All I, II and III

**B**   Question cannot be answered even with the information in all the three statements.

**C**   Only II

**D**   Only I and II

**E**   II and either I or III

   **Answer:** D

**Explanation:**
The three digits of the number are distinct

I : Each digit is multiple of 3

=> Number = $369, 396, 963...$

Thus, I alone is not sufficient.

---

II : Digit in the unit's place is 50% less than that in the hundred's place

=> Number = 201, 211, 221, 402..

Thus, II alone is not sufficient.

---

I & II : Digit at unit's place is half of digit at hundred's place and all digits are multiple of 3

=> The only possibility = 693

**Thus, I & II together are sufficient.**

**Instructions**
For the following questions answer them individually

**Question 128**

**The respective ratio between the time taken by a boat to travel the same distance downstream in stream A and that in stream B is 8 : 7. The speed of the boat is 12 km/h and the speed of stream A is half the speed of stream B. What is the speed of stream B ? (in km/h)**

**A**   5

**B**   2

**C**   3

**D**   4

**E**   6

   **Answer:** D

**Explanation:**
Let speed of stream B = $2x$ km/h

and speed of stream A = $x$ km/h

Speed of stream = 12 km/h

Acc to ques,

$$=> \frac{\frac{1}{12+x}}{\frac{1}{12+2x}} = \frac{8}{7}$$

$$=> \frac{12+2x}{12+x} = \frac{8}{7}$$

$$=> 84 + 14x = 96 + 8x$$

$$=> 14x - 8x = 96 - 84$$

$$=> x = \frac{12}{6} = 2$$

∴ Speed of stream B = $2 \times 2 = 4$ km/h

**Question 129**

**To complete a project, 18 women take 4 more days than the number of days taken by 12 men. If eight men complete the project in 9 days, how much work will be left when 15 women and 12 men together work for 3 days ?**

**A** $\frac{2}{3}$

**B** $\frac{3}{4}$

**C** $\frac{3}{2}$

**D** $\frac{1}{4}$

**E** $\frac{1}{2}$

**Answer: D**

**Explanation:**
Using : $\frac{M_1 \times D_1}{W_1} = \frac{M_2 \times D_2}{W_2}$

Acc to ques,

$$=> \frac{8 \times 9}{1} = \frac{12 \times D_2}{1}$$

$$=> D_2 = \frac{72}{12} = 6$$

=> Time taken by 18 women = $6 + 4 = 10$ days

$$=> (12 \times 6)men \equiv (18 \times 10)women$$

$$= 2men \equiv 5women$$

We need to find for 15 women and 12 men

$$= (6 + 12) = 18men$$

Acc to ques,
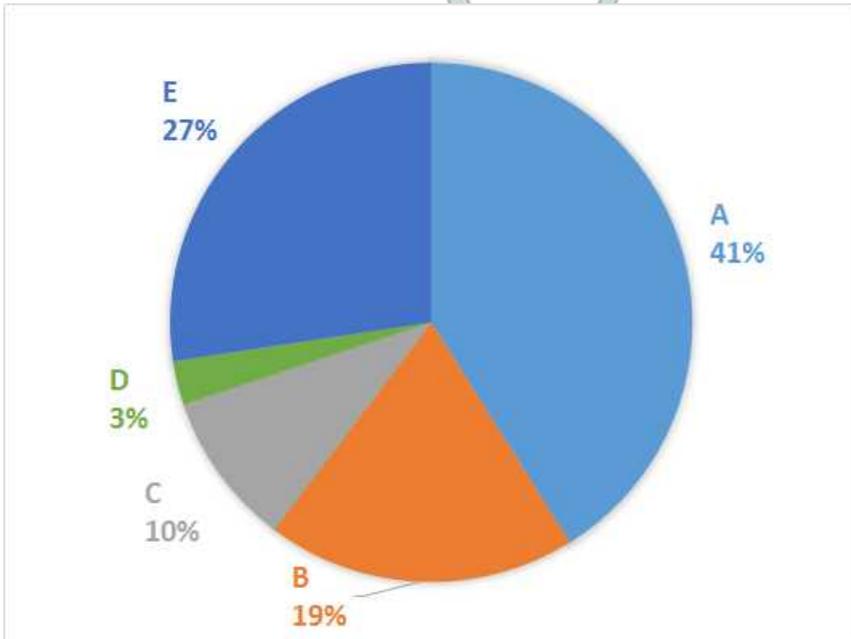

$$=> \frac{12 \times 6}{1} = \frac{18 \times 3}{W_2}$$

$$=> W_2 = \frac{54}{72} = \frac{3}{4}$$
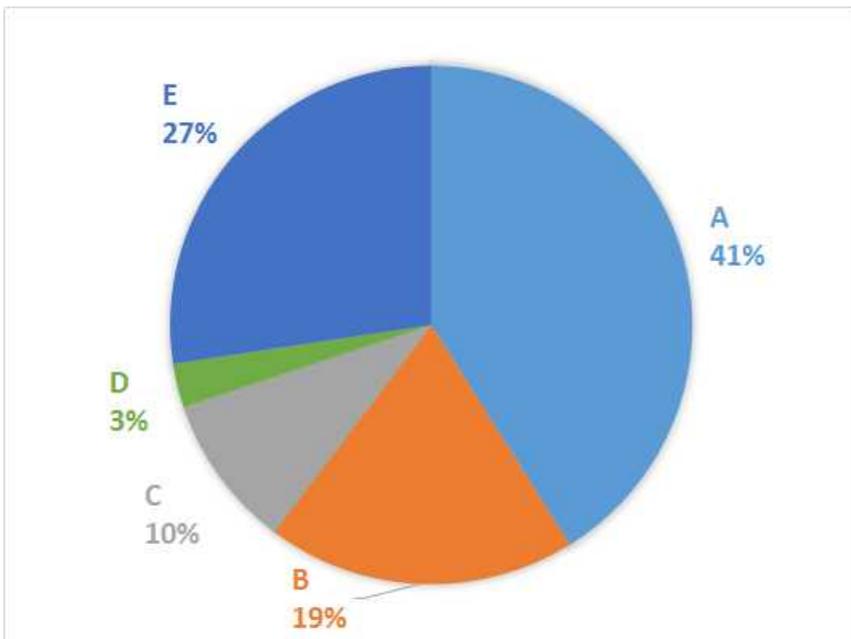

∴ Work left = $1 - \frac{3}{4}$

$$= \frac{1}{4}$$

**Instructions**

Refer to the pie charts and answer the given questions. Data regarding number of foreign students (male + female) from different countries- A, B, C, D and E, studying in higher education level in the country XYZ in the year 2014 Total number of foreign students (male + female) = 9000

**Foreign female students = 3500**

**Question 130**

**What is the respective ratio between the total number of male students from countries B and C together and total number of students (male + female) from the same countries together ?**

**A**   4 : 7

**B**   5 : 14

**C**   4 : 9

**D**   5 : 6

**E**   5 : 9

   **Answer:** E

**Question 131**

What is the average number of male students from countries C, D and E ?

**A** 910

**B** 915

**C** 900

**D** 945

**E** 901

    **Answer:** A

**Question 132**

The total number of female students from countries A and B .together is what percent of male students from country A ?

**A** 60%

**B** 59.5%

**C** 65.25%

**D** 70.5%

**E** 50%

    **Answer:** B

## General Science Notes (Download PDF)

**Question 133**

Female students from country E is what percent more than those from country C ?

**A** 45%

**B** 50%

**C** 40%

**D** 60%

**E** 30%

    **Answer:** D

**Question 134**

Male students from country E in the year 2015 were 20% more than those from the same country in the previous year. If the male students from country E constituted 60% of the total students (male + female), in the year 2015, how many foreign students from country E in the same year were females ?

**A** 1400

**B** 1480

**C** 1280

**D** 1220

**E** 1260

Answer: C

## Instructions

For the following questions answer them individually

## Question 135

**Abhay rolled a pair of die together. What is the probability that one die showed a multiple of 2 and the second die showed neither a multiple of 3 nor 2 ?**

**A** $\frac{1}{3}$

**B** $\frac{1}{9}$

**C** $\frac{1}{12}$

**D** $\frac{2}{3}$

**E** $\frac{1}{6}$

Answer: E

**Explanation:**

Direction (26-30) : study the table and answer the given question

Note : few data are missing (indicated by —) You need to calculate the value based on given data . if required, to answer the given questions

## Instructions

Study the table and answer the given questions

| Village | % of literates in total population (male + female) | % of literates in male population | % of literates in female population |
|---------|---------|---------|---------|
| A | – | 72 | 70 |
| B | 61 | 64 | 56 |
| C | 73.8 | 75 | 72 |
| D | 60 | – | 60 |
| E | 70 | – | 70 |

Note: Some of the data is deliberately missing (indicated by —). You need to calculate the values based on the given data to answer the given questions

## Question 136

**Only 40% and 20% of females were graduates in villages A and C respectively. If female population of villages A and C were equal, what was the respective ratio of number of non-graduate females (including illiterate females) in villages A and C?**

**A** 81 : 107

**B** 90 : 107

**C** 90 : 121

**D** 40 : 49

**E** 45 : 49

Answer: B

**Explanation:**
Let females in village A = $x$

=> Females in village C = $x$

Literate females in village A = $\frac{70}{100} \times x = \frac{7x}{10}$

=> Graduate females in village A = $\frac{40}{100} \times \frac{7x}{10}$

$= \frac{7x}{25}$

Literate females in village C = $\frac{72}{100} \times x = \frac{18x}{25}$

=> Graduate females in village C = $\frac{20}{100} \times \frac{18x}{25}$

$= \frac{18x}{125}$

∴ Required ratio of number of non-graduate females (including illiterate females) in villages A and C

$= \left(x - \frac{7x}{25}\right) : \left(x - \frac{18x}{125}\right)$

$= \left(\frac{18x}{25}\right) : \left(\frac{107x}{125}\right)$

$= 90 : 107$

**Question 137**

**If in village E, 40% of male literates and 40% of female literates were graduates, what percent of total population were graduates ?**

**A** 32%

**B** 28%

**C** 35%

**D** 40%

**E** 30%

Answer: B

**Explanation:**
In village E,

Let number of males = $x$

and Number of females = $y$

=> Total literate population = $\frac{70}{100}(x + y)$

Literate males = $\frac{70}{100} \times x$

Literate females = $\frac{70}{100} \times y$

Literate males who are graduates = $\frac{40}{100} \times \frac{7x}{10} = \frac{7x}{25}$

Literate females who are graduates = $\frac{40}{100} \times \frac{7y}{10} = \frac{7y}{25}$

$\therefore$ Required % = $\dfrac{\left(\frac{18}{25}\right)+\left(\frac{7}{25}\right)}{x+y} \times 100$

= $\dfrac{7}{25} \times 100 = 28\%$

## Question 138

**In village B, the number of females was what percent less than the number of males ?**

**A**  20%

**B**  30%

**C**  32%

**D**  40%

**E**  45%

   **Answer:** D

**Explanation:**
In village B,

Let number of males = $x$

and Number of females = $y$

=> Total literate population = $\dfrac{61}{100}(x+y)$

Literate males = $\dfrac{64}{100} \times x$

Literate females = $\dfrac{56}{100} \times y$

=> $\dfrac{64x}{100} + \dfrac{56y}{100} = \dfrac{61}{100}(x+y)$

=> $64x + 56y = 61x + 61y$

=> $64x - 61x = 61y - 56y$

=> $3x = 5y$

=> $\dfrac{x}{y} = \dfrac{5}{3}$

$\therefore$ Required % = $\dfrac{5-3}{5} \times 100$

= $2 \times 20 = 40\%$

# 3 Free Mock for RBI Grade-B (With Solutions)

## Question 139

**The total number of literates (male and female) in Village D was 4320. If the number of illiterate females was 320 more than the number of illiterate**

**A**  3200

**B**  3000

**C**  2800

**D**  3600

**E**  3500

   **Answer:** A

**Question 140**

In village C, the number of females increased by 20% from 2011 to 2015. If the number of literate females was equal in 2011 and 2015, what percent of female population of village C Was literate ?

**A** 66%

**B** 54%

**C** 60%

**D** 72%

**E** 56%

**Answer:** C

**Explanation:**
REASONING

For the following questions answer them individually

**Question 141**

In the past, consumers would rarely walk into an ice cream store and order low-fat ice cream. But that isn't the case today. An increasing health consciousness combined with a much bigger selection of tasty low-fat foods in all categories has made low-fat ice cream a very profitable item for ice cream store owners. Which of the following best support the statement ?

**A** low-fat ice cream produces more revenue than other low-fat foods.

**B** ice cream store owners would be better off carrying only low-fat ice cream.

**C** ice cream store owners no longer think that low-fat ice cream is an unpopular item.

**D** low-fat ice cream is more popular than other kinds of ice cream.

**E** consumers are fickle and it is impossible to please them.

**Answer:** D

# RBI Grade-B Study Material (Download PDF)

**Question 142**

All the major rivers in the state have been flowing way over the danger level for the past few weeks. Which of the following is/are possible effect(s) of the above cause ?
A. Many villages situated near the river banks are submerged forcing residents to flee.
B. Government has decided to provide alternate shelter to all the affected villagers residing near the river banks.
C. The entire state has been put on high flood alert

**A** Only A

**B** Only A and B

**C**  Only B and C

**D**  All A, B and C

**E**  None of these

   **Answer:** D

## Instructions

In these questions, relationship between different elements is shown in the statements. These statements are followed by two conclusions. Read them carefully and mark the appropriate answer.
Give answer :

a: If either conclusion I or II follows
b: If neither conclusion I nor II follows
c: If only conclusion II follows
d: If both conclusions I and II follow
e: If only conclusion I follows

## Question 143

**Statements:**
**C ≥ V ≤ R = N ≥ T > Q : Y ≥ N < A**
**Conclusions :**
**I. Q > V**
**II. Q < Y**

**A**  If either conclusion I or II follows

**B**  If neither conclusion I nor II follows

**C**  If only conclusion II follows

**D**  If both conclusions I and II follow

**E**  If only conclusion I follows

   **Answer:** C

## Question 144

**Statements:**
**C ≥ V ≤ R = N ≥ T > Q : Y ≥ N < A**
**Conclusions :**
**I. Q ≥ Y**
**II. A > Q**

**A**  If either conclusion I or II follows

**B**  If neither conclusion I nor II follows

**C**  If only conclusion II follows

**D**  If both conclusions I and II follow

**E**  If only conclusion I follows

   **Answer:** C

# RBI Assistant Free Mock Test (With Solutions)

**D**   If both conclusions I and II follow

**E**   If only conclusion I follows

   **Answer:** C

**Question 146**

Statements :
P ≥ R < U ≤ M < V ; T ≤ U ; L < M
Conclusions :
I. V > T
II. T ≤ P

**A**   If either conclusion I or II follows

**B**   If neither conclusion I nor II follows

**C**   If only conclusion II follows

**D**   If both conclusions I and II follow

**E**   If only conclusion I follows

   **Answer:** E

**Instructions**
For the following questions answer them individually

**Question 147**

**Study the given information carefully and answer the given question. Following are the observations of an experiment on 'sleep and memory' conducted on 18 healthy young adults (ages 18 to 25) and 18 healthy older adults (ages 61 to 81).**
**A. The recall after 8 hours of sleep in younger adults was 65% more than that in the older adults.**
**B. Night-sleep had higher negative impact on all of the participants as compared to that of daysleep of equal duration.**
**C. If a given set' of words is memorised immediately before going to sleep, its recall after waking up was found to be better in younger adults than in the older adults.**
**Which of the following can be concluded from the given findings of the research ?**
**I. As per the experiment, there is some correlation between sleep and memory.**
**II. The part of brain involved in memory is more active during the day as compared to that during the night.**
**III. A sleep of more than 8 hours can improve the memory in older adults.**
**IV. Memorising something immediately after waking up from an 8-hour long sleep will yield better results than memorising before sleep.**

**A**   Only IV

**B**  All the given statements can be concluded from the given findings of the research.

**C**  Both I and III

**D**  Both II and IV

**E**  Only II

   **Answer:** E

# Free Banking Study Material (15000 Solved Questions)

**Question 148**

In this question are given two statements I and II. These statements may be either independent causes or may be effects of independent causes or a common cause. One of those statements may be the effect of the other statement. Read both the statements and. decide which of the given answer choice correctly depicts the relationship between these two statements.

Statements :
I. Company ABC, a leading automobile company in country G has decided to merge all its subsidiary companies into the parent company last week.
II. Company XYZ, a subsidiary of automobile company ABC, has opened five new branches in country F in the previous financial year.

**A**  Both the statements I and II are effects of some common cause. -

**B**  Both the statements I and II are independent causes.

**C**  Statement II is the cause, and statement I is its effect.

**D**  Statement I is the cause and Statement II is its effect.

**E**  Both the statements I and II are effects of independent causes.

   **Answer:** E

**Question 149**

If all the letters in the word `REGULATION' are arranged in English alphabetical order from left to right and then all the vowels are changed to the next alphabet in the English alphabetical series and all the consonants are changed to the previous alphabet in English alphabetical series, how will the word be written ?

**A**  BFFJKOQQSV

**B**  ZFFJKONSSV

**C**  ZDHHMONSUT

**D**  BFHUKMPORV

**E**  BFFJKMPQSV

   **Answer:** E

**Explanation:**
Word - `REGULATION'

If all the letters are arranged in English alphabetical order, then = AEGILNORTU

If all the vowels are changed to the next alphabet in the English alphabetical series and all the consonants are changed to the previous alphabet in English alphabetical series, then

**= BFFJKMPQSV**

=> Ans - (E)

**Question 150**

In Country A, it is mandatory for all government organizations to provide transportation facilities (home pick-up and drop) to employees if 75% or more number of total employees working in the organization reside more than 15 km away from office. The same, however, does not apply to XY enterprises as only 1500 of their employees travel more than 15 km to work. Which of the following can be inferred from the given statement ?
A. The total number of employees in XY enterprises is definitely more than 2000.
B. Only 25% employees of XY enterprises travel less than 15km to ofice.
C. If 25 new recruits who travel more than 15 km join XY enterprises, the XY enterprises will definitely have to provide transportation facilities.
D. XY enterprises is definitely not a government enterprise

**A**   Only A

**B**   Only C

**C**   Both B and D

**D**   Only D

**E**   A,B and C

   **Answer:** A

**Instructions**

Study the given information carefully to .answer the given questions.
Seven people — J, K, L, M, N, O and P have an interview on seven different days of the same week, starting from Monday and ending on Sunday, but not necessarily in the same order. Each one of them also likes different subjects namely - Statistics, Zoology, Sociology, English, Mathematics, Psychology and Economics, but not necessarily in the same order. Only four people have their interview between N and the one Who likes Zoology. Neither N nor the one who likes Zoology has an interview on Sunday. P has an interview immediately after the one who likes Zoology. Only two people have their interviews between P and J. The one who likes Psychology has an interview on one of the days before J but not on Wednesday. Neither N nor P likes Psychology. Only two people have their interviews between the one who likes Psychology and the one who likes Statistics. The one who likes Economics has an interview immediately before the one who likes Statistics. The number of people having interview between P and the one who likes Economics is same as that of the number of people between J and the one who likes English. N does not like English. Only one person has an interview between the one who likes English and K. The one who likes Sociology has an interview immediately after O. L has an interview on one of the days after M

.

**Question 151**

Four of the following five are alike in a certain way based on the given arrangement and hence form a group. Which of the following does not belong to the group ?

**A**   K-English

**B**   Wednesday-K

**C**   Mathematics-Wednesday

**D**   Sociology-Statistics

**E**   Friday-L
   **Answer:** E

**Explanation:**

Only four people have their interview between N and the one who likes Zoology. Neither N nor the one who likes Zoology has an interview on Sunday, => Let N has interview on Monday and the one who likes Zoology has interview on Saturday.

P has an interview immediately after the one who likes Zoology, => P has interview on Sunday.

Only two people have their interviews between P and J, => J has interview on Thursday.

The one who likes Psychology has an interview on one of the days before J but not on Wednesday and N does not like Psychology, => The one who likes Psychology has interview on Tuesday.

Only two people have their interviews between the one who likes Psychology and the one who likes Statistics, => The one who likes statistics has interview on Friday.

The one who likes Economics has an interview immediately before the one who likes Statistics, => The one who likes Economics has interview on Thursday.

The number of people having interview between P and the one who likes Economics = 2

Also, N does not like English, => P likes English.

Only one person has an interview between the one who likes English and K, => K has interview on Friday.

The one who likes Sociology has an interview immediately after O, => O has interview on Tuesday and the one who likes Sociology has interview on Wednesday.

| Days | Person | Subject |
|-----------|--------|-------------|
| Monday | N | Mathematics |
| Tuesday | O | Psychology |
| Wednesday | M | Sociology |
| Thursday | J | Economics |
| Friday | K | Statistics |
| Saturday | L | Zoology |
| Sunday | P | English |

Apart from Friday and L, there is a gap of 1 day between the other mentioned pairs.

=> Ans - (E)

**Question 152**

**How many people have their interviews between L and M ?**

**A**   Two

**B**   Three

**C**   None

**D**   One

**E**   More than three

   **Answer:** A

**Explanation:**

Only four people have their interview between N and the one who likes Zoology. Neither N nor the one who likes Zoology has an interview on Sunday, => Let N has interview on Monday and the one who likes Zoology has interview on Saturday.

P has an interview immediately after the one who likes Zoology, => P has interview on Sunday.

Only two people have their interviews between P and J, => J has interview on Thursday.

The one who likes Psychology has an interview on one of the days before J but not on Wednesday and N does not like Psychology, => The one who likes Psychology has interview on Tuesday.

Only two people have their interviews between the one who likes Psychology and the one who likes Statistics, => The one who likes statistics has interview on Friday.

The one who likes Economics has an interview immediately before the one who likes Statistics, => The one who likes Economics has interview on Thursday.

The number of people having interview between P and the one who likes Economics = 2

Also, N does not like English, => P likes English.

Only one person has an interview between the one who likes English and K, => K has interview on Friday.

The one who likes Sociology has an interview immediately after O, => O has interview on Tuesday and the one who likes Sociology has interview on Wednesday.

| Days | Person | Subject |
|------|--------|---------|
| Monday | N | Mathematics |
| Tuesday | O | Psychology |
| Wednesday | M | Sociology |
| Thursday | J | Economics |
| Friday | K | Statistics |
| Saturday | L | Zoology |
| Sunday | P | English |

L has interview on Saturday and M has on Wednesday, thus there are two people between them.

=> Ans - (A)

**Question 153**

**Which of the following statements is TRUE as per the given arrangement ?**

**A**   None of the given statements is true

**B**   Only one person has an interview between K and J.

**C**   O likes Psychology.

**D**   M has an interview on Friday.

**E**   The one who likes Zoology has an interview on one of the day before M.

  **Answer:** C

**Explanation:**
Only four people have their interview between N and the one who likes Zoology. Neither N nor the one who likes Zoology has an interview on Sunday, => Let N has interview on Monday and the one who likes Zoology has interview on Saturday.

P has an interview immediately after the one who likes Zoology, => P has interview on Sunday.

Only two people have their interviews between P and J, => J has interview on Thursday.

The one who likes Psychology has an interview on one of the days before J but not on Wednesday and N does not like Psychology, => The one who likes Psychology has interview on Tuesday.

Only two people have their interviews between the one who likes Psychology and the one who likes Statistics, => The one who likes statistics has interview on Friday.

The one who likes Economics has an interview immediately before the one who likes Statistics, => The one who likes Economics has interview on Thursday.

The number of people having interview between P and the one who likes Economics = 2

Also, N does not like English, => P likes English.

Only one person has an interview between the one who likes English and K, => K has interview on Friday.

The one who likes Sociology has an interview immediately after O, => O has interview on Tuesday and the one who likes Sociology has interview on Wednesday.

| Days | Person | Subject |
|---|---|---|
| Monday | N | Mathematics |
| Tuesday | O | Psychology |
| Wednesday | M | Sociology |
| Thursday | J | Economics |
| Friday | K | Statistics |
| Saturday | L | Zoology |
| Sunday | P | English |

The only true statement is that O likes Psychology.

=> Ans - (C)

# Best Youtube Channel for Banking Preparation

**Question 154**

**Who has an interview immediately after K ?**

**A**  M

**B**  The one who likes Zoology

**C**  The one who likes Statistics

**D**  J

**E**  P

   **Answer:** B

**Explanation:**
Only four people have their interview between N and the one who likes Zoology. Neither N nor the one who likes Zoology has an interview on Sunday, => Let N has interview on Monday and the one who likes Zoology has interview on Saturday.

P has an interview immediately after the one who likes Zoology, => P has interview on Sunday.

Only two people have their interviews between P and J, => J has interview on Thursday.

The one who likes Psychology has an interview on one of the days before J but not on Wednesday and N does not like Psychology, => The one who likes Psychology has interview on Tuesday.

Only two people have their interviews between the one who likes Psychology and the one who likes Statistics, => The one who likes statistics has interview on Friday.

The one who likes Economics has an interview immediately before the one who likes Statistics, => The one who likes Economics has interview on Thursday.

The number of people having interview between P and the one who likes Economics = 2

Also, N does not like English, => P likes English.

Only one person has an interview between the one who likes English and K, => K has interview on Friday.

The one who likes Sociology has an interview immediately after O, => O has interview on Tuesday and the one who likes Sociology has interview on Wednesday.

| Days | Person | Subject |
|------|--------|---------|
| Monday | N | Mathematics |
| Tuesday | O | Psychology |
| Wednesday | M | Sociology |
| Thursday | J | Economics |
| Friday | K | Statistics |
| Saturday | L | Zoology |
| Sunday | P | English |

L, who likes Zoology has interview immediately after K.

=> Ans - (B)

**Question 155**

**How many people have their interview before the one who likes Mathematics ?**

**A**   One

**B**   More than three

**C**   None

**D**   Two

**E**   Three

   **Answer:** C

**Explanation:**
Only four people have their interview between N and the one who likes Zoology. Neither N nor the one who likes Zoology has an interview on Sunday, => Let N has interview on Monday and the one who likes Zoology has interview on Saturday.

P has an interview immediately after the one who likes Zoology, => P has interview on Sunday.

Only two people have their interviews between P and J, => J has interview on Thursday.

The one who likes Psychology has an interview on one of the days before J but not on Wednesday and N does not like Psychology, => The one who likes Psychology has interview on Tuesday.

Only two people have their interviews between the one who likes Psychology and the one who likes Statistics, => The one who likes statistics has interview on Friday.

The one who likes Economics has an interview immediately before the one who likes Statistics, => The one who likes Economics has interview on Thursday.

The number of people having interview between P and the one who likes Economics = 2

Also, N does not like English, => P likes English.

Only one person has an interview between the one who likes English and K, => K has interview on Friday.

The one who likes Sociology has an interview immediately after O, => O has interview on Tuesday and the one who likes Sociology has interview on Wednesday.

| Days | Person | Subject |
|------|--------|---------|
| Monday | N | Mathematics |
| Tuesday | O | Psychology |
| Wednesday | M | Sociology |
| Thursday | J | Economics |
| Friday | K | Statistics |
| Saturday | L | Zoology |
| Sunday | P | English |

Since, N who likes mathematics has interview on the first day i.e., Monday thus none of the person has interview before it.

=> Ans - (C)

**Instructions**

Study the following information and answer the given questions.
Seven people, namely, J, K, L, M, N, O and P like seven different movies namely, Twilight, Gladiator, Wanted, Dread, Hero, Jumanji and Signs but not necessarily in the same order. Each person also works in the same office but in a different department (on the basis of experience) namely Administration, Production, Marketing, HR, Finance, R&D; and Client relations (CR), not necessarily in the same order. (Please Note: Each person has been allocated to a department as per increasing order of experience with the one in Administration being the least experienced whilst the one in Client Relations (CR) being the most experienced). Only two persons have less experience than K. P works in R&D.; The one who likes Wanted has more experience than K but less than one who likes Jumanji. P neither likes Wanted nor Jumanji. The one who likes Wanted does not work in Finance. J, who is more experienced than K, likes twilight. The person who works in Production is less experienced than the person who likes Hero. K does not like Hero. The person who works in HR is more experienced than both L and N. N is not the least experienced person. The one who likes Signs has more experience than N. M is more experienced than J. L does not like Dread.

**Question 156**

**Four of the following five are alike in a certain way based on the given arrangement and so form a group. which is the one that does not belong to that group ?**

**A** MO

**B** NK

**C** PK

**D** NJ

**E** LO

**Answer:** B

**Explanation:**
Only two persons have less experience than K, => K works in Marketing.

The one who likes Wanted has more experience than K but less than one who likes Jumanji and the one who likes Wanted does not work in Finance,

=> The one who likes Wanted works in either R&D; or HR and the one who likes Jumanji works in either CR or Finance.

P works in R&D;, => the one who likes Wanted work in HR and the one who likes Jumanji works in CR.

J, who is more experienced than K, likes twilight, => J works in Finance and likes Twilight.

The person who works in Production is less experienced than the person who likes Hero and K does not like Hero, => P likes Hero.

The person who works in HR is more experienced than both L and N and N is not the least experienced person, => N works in Production and L works in Administration.

The one who likes Signs has more experience than N, => K likes signs.

M is more experienced than J, => M works in CR and thus likes Jumanji and O works in HR and thus likes Wanted.

L does not like Dread, => N likes Dread.

| Person | Movie | Department |
|--------|-------|------------|
| J | Twilight | Finance |
| K | Signs | Marketing |
| L | Gladiator | Administration |
| M | Jumanji | Client Relations |
| N | Dread | Production |
| O | Wanted | HR |
| P | Hero | R&D |

Apart form N and K, there is a gap of two experience between the other mentioned pairs.

=> Ans - (B)

# General Knowledge Questions & Answers (Download pdf)

**Question 157**

**Which combination represents the department in which 0 works and the movie he likes ?**

**A** CR-Signs

**B** CR-Gladiator

**C** HR-Gladiator

**D** Marketing-Wanted

**E** HR-Wanted

**Answer:** E

**Explanation:**
Only two persons have less experience than K, => K works in Marketing.

The one who likes Wanted has more experience than K but less than one who likes Jumanji and the one who likes Wanted does not work in Finance,

=> The one who likes Wanted works in either R&D; or HR and the one who likes Jumanji works in either CR or Finance.

P works in R&D;, => the one who likes Wanted work in HR and the one who likes Jumanji works in CR.

J, who is more experienced than K, likes twilight, => J works in Finance and likes Twilight.

The person who works in Production is less experienced than the person who likes Hero and K does not like Hero, => P likes Hero.

The person who works in HR is more experienced than both L and N and N is not the least experienced person, => N works in Production and L works in Administration.

The one who likes Signs has more experience than N, => K likes signs.

M is more experienced than J, => M works in CR and thus likes Jumanji and O works in HR and thus likes Wanted.

L does not like Dread, => N likes Dread.

| Person | Movie | Department |
|--------|-------|------------|
| J | Twilight | Finance |
| K | Signs | Marketing |
| L | Gladiator | Administration |
| M | Jumanji | Client Relations |
| N | Dread | Production |
| O | Wanted | HR |
| P | Hero | R&D |

O likes Wanted and works in HR department.

=> Ans - (E)

**Question 158**

**Which of the following movies does M like ?**

**A** Jumanji

**B** Hero

**C** Gladiator

**D** Signs

**E** Dread

**Answer:** A

**Explanation:**

Only two persons have less experience than K, => K works in Marketing.

The one who likes Wanted has more experience than K but less than one who likes Jumanji and the one who likes Wanted does not work in Finance,

=> The one who likes Wanted works in either R&D; or HR and the one who likes Jumanji works in either CR or Finance.

P works in R&D;, => the one who likes Wanted work in HR and the one who likes Jumanji works in CR.

J, who is more experienced than K, likes twilight, => J works in Finance and likes Twilight.

The person who works in Production is less experienced than the person who likes Hero and K does not like Hero, => P likes Hero.

The person who works in HR is more experienced than both L and N and N is not the least experienced person, => N works in Production and L works in Administration.

The one who likes Signs has more experience than N, => K likes signs.

M is more experienced than J, => M works in CR and thus likes Jumanji and O works in HR and thus likes Wanted.

L does not like Dread, => N likes Dread.

| Person | Movie | Department |
|--------|-----------|------------------|
| J | Twilight | Finance |
| K | Signs | Marketing |
| L | Gladiator | Administration |
| M | Jumanji | Client Relations |
| N | Dread | Production |
| O | Wanted | HR |
| P | Hero | R&D |

Clearly, M likes Jumanji.

=> Ans - (A)

**Question 159**

As per the given arrangement, HR is related to Signs and CR is related to Hero in a certain way. To which of the following is Production related to in the same way ?

**A**   Dread

**B**   Jumanji

**C**   Wanted

**D**   Gladiator

**E**   Twilight

  **Answer:** D

**Explanation:**

Only two persons have less experience than K, => K works in Marketing.

The one who likes Wanted has more experience than K but less than one who likes Jumanji and the one who likes Wanted does not work in Finance,

=> The one who likes Wanted works in either R&D; or HR and the one who likes Jumanji works in either CR or Finance.

P works in R&D;, => the one who likes Wanted work in HR and the one who likes Jumanji works in CR.

J, who is more experienced than K, likes twilight, => J works in Finance and likes Twilight.

The person who works in Production is less experienced than the person who likes Hero and K does not like Hero, => P likes Hero.

The person who works in HR is more experienced than both L and N and N is not the least experienced person, => N works in Production and L works in Administration.

The one who likes Signs has more experience than N, => K likes signs.

M is more experienced than J, => M works in CR and thus likes Jumanji and O works in HR and thus likes Wanted.

L does not like Dread, => N likes Dread.

| Person | Movie | Department |
|--------|-------|------------|
| J | Twilight | Finance |
| K | Signs | Marketing |
| L | Gladiator | Administration |
| M | Jumanji | Client Relations |
| N | Dread | Production |
| O | Wanted | HR |
| P | Hero | R&D |

HR is related to signs, => K, who likes signs works in Marketing which is 1 less than HR.

CR is related to Hero, => P, who likes Hero works in R&D; which is 1 less than CR.

Similarly, 1 less than production is Administration in which L works and likes Gladiator, => Production is related to Gladiator.

=> Ans - (D)

# Daily Free Banking Online Test

**Question 160**

**Which of the following pairs represent the respective people who have more experience than J and less experience than K ?**

**A**   M, N

**B**   P, O

**C**   O, J

**D**   L, N

**E**   P, M

   **Answer:** A

**Explanation:**
Only two persons have less experience than K, => K works in Marketing.

The one who likes Wanted has more experience than K but less than one who likes Jumanji and the one who likes Wanted does not work in Finance,

=> The one who likes Wanted works in either R&D; or HR and the one who likes Jumanji works in either CR or Finance.

P works in R&D;, => the one who likes Wanted work in HR and the one who likes Jumanji works in CR.

J, who is more experienced than K, likes twilight, => J works in Finance and likes Twilight.

The person who works in Production is less experienced than the person who likes Hero and K does not like Hero, => P likes Hero.

The person who works in HR is more experienced than both L and N and N is not the least experienced person, => N works in Production and L works in Administration.

The one who likes Signs has more experience than N, => K likes signs.

M is more experienced than J, => M works in CR and thus likes Jumanji and O works in HR and thus likes Wanted.

L does not like Dread, => N likes Dread.

| Person | Movie | Department |
|--------|-------|------------|
| J | Twilight | Finance |
| K | Signs | Marketing |
| L | Gladiator | Administration |
| M | Jumanji | Client Relations |
| N | Dread | Production |
| O | Wanted | HR |
| P | Hero | R&D |

People who have more experience than J = M and P

People who have less experience than K = N and L

Thus, from the options, the respective pair is M and N.

=> Ans - (A)

**Instructions**
For the following questions answer them individually

**Question 161**

**Read the given information and answer the question. `Despite spending huge amount of money, we have not yet been able to find life on other planets. I am personally of the opinion that such research should stop with immediate effect as it is a waste of time and money as no good will ever come out of it Instead it would be better to use this money to research other elements in space' Statement by a Scientist from Space Institute of Country X. Which of the following does not weaken the statement of the scientist of space institute of country X?**

**A**  Although life on other planets has not been discovered yet, such research has widened our knowledge and understanding about other plariets and has led to growth and development in science.

**B**  According to space scientists, if such efforts are continued, the probability of finding life in at least one other planet is much higher as compared to not finding life at all.

**C**  Various other research projects taken up by the said institute in the past have also failed despite spending huge amount of time as well as money on them.

**D**  With the amount of time and money that has already been invested in this research, shutting it now would lead to a greater loss than continuing the search.

**E**  None of the above

   **Answer:** C

**Question 162**

**This question consists of information and two statements numbered I and II given below it. You have to decide which of the given statements weaken(s) or strengthen(s) the information and decide the appropriate answer. In order to discourage crowd built-up at railway station X, the platform ticket (charged to all such priced at Rs. 10 should be increased to Rs. 20.**
**I. The price of ticket from X to nearest railway station is Rs. 12.**
**II. On an average, every railway station generates Rs. 24 lacs revenue by charging Rs. 10 for platform ticket while X generates Rs.28 lacs.**

**A**  Both statement I and statement II weaken the information.

**B**  Statement I weakens the information while Statement II is a neutral statement.

**C**  Statement I strengthens the information while statement II weakens the information.

**D**  Statement I weakens the information while Statement II strengthens the information.

**E**  Both statements I and II strengthen the information

   **Answer:** C

# 100 Free Computer Awareness Tests

**Question 163**

**Which of the following expressions will be definitely false if the given expression 'G > H = I ≥ V ≤ Y ≤ Z ≤ T is definitely true ?**

**A**  I < G

**B**  T ≥ V

**C**  T ≤ Y

**D**  Z ≥ V

**E**  None of these

   **Answer:** C

**Explanation:**
Expression : G > H = I ≥ V ≤ Y ≤ Z ≤ T

=> G > H = I ≥ V  -----------Eqn (i)

T ≥ Z ≥ Y ≥ V ---------------Eqn (ii)

(A) : I < G : from the first equation, I is less than G, thus its true.

(B) : T ≥ V : From the second equation, T is clearly greater than and equal to V, thus its true.

(C) : T ≤ Y : From the second equation, T is clearly greater than and equal to Y, thus it is  **false**.

(D) : Z ≥ V : From the second equation, Z is clearly greater than and equal to V, thus its true.

=> Ans - (C)

**Instructions**

A word and number arrangement machine when given an input line of words and numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement. (All the numbers are two-digit numbers.)
Input : 42 prey burn 78 21 melt gulp 96 83 head
Step I : ban 23 42 prey 78 melt gulp 96 83 head
Step II : gap 44 ban 23 prey 78 melt 96 83 head
Step III : had 80 gap 44 ban 23 prey melt 96 83
Step IV : mat 85 had 80 gap 44 ban 23 prey 96
Step V : pay 98 mat 85 had 80 gap 44 ban 23
Step V is the last step of the above arrangement as the intended output of arrangement is obtained.
As per the rules followed in the given steps, find the appropriate steps for the given input.
Input : 61 rust 33 colt 86 four torn 28 49 leap

**Question 164**

**Which of the following is the fourth to the left of the eighth element from the left end of step II ?**

**A**  cat

**B**  far

**C**  35

**D**  rust

**E**  30

   **Answer:** E

**Explanation:**
In step I, the word with the smallest first letter alphabetically is placed at first position and the all the middle letters are replaced by 'a'. The smallest number is placed at second position and it is increased by 2.

Similar pattern is followed in remaining steps and finally the words and numbers are arranged in descending order alternatively.

Input : 61 rust 33 colt 86 four torn 28 49 leap

Step I : cat 30 61 rust 33 86 four torn 49 leap

Step II : far 35 cat 30 61 rust 86 torn 49 leap

Step III : lap 51 far 35 cat 30 61 rust 86 torn

Step IV : rat 63 lap 51 far 35 cat 30 86 torn

Step V : tan 88 rat 63 lap 51 far 35 cat 30

Step V is the last step of the arrangement.

8th element from left end in step II = 'torn'

4th to the left of 'torn' = '30'

=> Ans - (E)

**Question 165**

**Which of the following represents the element that is fifth to the right of 'cat' in step III ?**

**A**  torn

**B**  63

**C**  lap

**D**  far

**E**  86

   **Answer:** A

**Explanation:**
In step I, the word with the smallest first letter alphabetically is placed at first position and the all the middle letters are replaced by 'a'. The smallest number is placed at second position and it is increased by 2.

Similar pattern is followed in remaining steps and finally the words and numbers are arranged in descending order alternatively.

Input : 61 rust 33 colt 86 four torn 28 49 leap

Step I : cat 30 61 rust 33 86 four torn 49 leap

Step II : far 35 cat 30 61 rust 86 torn 49 leap

Step III : lap 51 far 35 cat 30 61 rust 86 torn

Step IV : rat 63 lap 51 far 35 cat 30 86 torn

Step V : tan 88 rat 63 lap 51 far 35 cat 30

Step V is the last step of the arrangement.

Element that is 5th to the right of 'cat' in step III = 'torn'

=> Ans - (A)

# General Science Notes (Download PDF)

**Question 166**

**In step III, how many elements are there between '86' and the third element from the left end ?**

**A**  More than three

**B**  One

**C**  Three

**D**  None

**E**  Two

   **Answer:** A

**Explanation:**

In step I, the word with the smallest first letter alphabetically is placed at first position and the all the middle letters are replaced by 'a'. The smallest number is placed at second position and it is increased by 2.

Similar pattern is followed in remaining steps and finally the words and numbers are arranged in descending order alternatively.

Input : 61 rust 33 colt 86 four torn 28 49 leap

Step I : cat 30 61 rust 33 86 four torn 49 leap

Step II : far 35 cat 30 61 rust 86 torn 49 leap

Step III : lap 51 far 35 cat 30 61 rust 86 torn

Step IV : rat 63 lap 51 far 35 cat 30 86 torn

Step V : tan 88 rat 63 lap 51 far 35 cat 30

Step V is the last step of the arrangement.

3rd element from left end in step III = 'far'

No. of elements between 'far' and '86' in step III = 5

=> Ans - (A)

**Question 167**

**What is the difference between the third element from the right end in step V and the fifth element from the left end in step II ?**

**A**  31

**B**  55

**C**  26

**D**  5

**E**  16

   **Answer:** C

**Explanation:**

In step I, the word with the smallest first letter alphabetically is placed at first position and the all the middle letters are replaced by 'a'. The smallest number is placed at second position and it is increased by 2.

Similar pattern is followed in remaining steps and finally the words and numbers are arranged in descending order

alternatively.

Input : 61 rust 33 colt 86 four torn 28 49 leap

Step I : cat 30 61 rust 33 86 four torn 49 leap

Step II : far 35 cat 30 61 rust 86 torn 49 leap

Step III : lap 51 far 35 cat 30 61 rust 86 torn

Step IV : rat 63 lap 51 far 35 cat 30 86 torn

Step V : tan 88 rat 63 lap 51 far 35 cat 30

Step V is the last step of the arrangement.

3rd element from right end in step V = 35

5th element from left end in step II = 61

=> Difference = 61 - 35 = 26

=> Ans - (C)

**Question 168**

**'torn' is related to 'rust' in step I in the same way as `lap' is related to 'tan' in step V. Following the same pattern to which element is '86' related to in step IV ?**

**A**  cat

**B**  51

**C**  35

**D**  far

**E**  30

  **Answer:** D

**Explanation:**
In step I, the word with the smallest first letter alphabetically is placed at first position and the all the middle letters are replaced by 'a'. The smallest number is placed at second position and it is increased by 2.

Similar pattern is followed in remaining steps and finally the words and numbers are arranged in descending order alternatively.

Input : 61 rust 33 colt 86 four torn 28 49 leap

Step I : cat 30 61 rust 33 86 four torn 49 leap

Step II : far 35 cat 30 61 rust 86 torn 49 leap

Step III : lap 51 far 35 cat 30 61 rust 86 torn

Step IV : rat 63 lap 51 far 35 cat 30 86 torn

Step V : tan 88 rat 63 lap 51 far 35 cat 30

Step V is the last step of the arrangement.

'torn' is related to 'rust' in step I, => rust is 4th to the left of torn

`lap' is related to 'tan' in step V, => tan is 4th to the left of lap

Similarly, in step IV, 'far' is 4th to the left of '86', => 'far' is related to '86'

=> Ans - (D)

# 200+ Banking Previous Papers (Download PDF)

**Instructions**
For the following questions answer them individually

**Question 169**

This question consists of a statement followed by two courses of action numbered I and II given below it. A course of action is an administrative decision to be Everything in the statement to be true and then decide which of the suggested courses of action logically follow(s) from the given statement.

Most of the people looking for buying/renting properties these days complain of being taken to the same property by more than 6-7 brokers. So even after contracting multiple agents, they end up having usually the same options.

Courses of action :

I. All the owners should strictly give the responsibility of their properties to only one.

II. The brokers should be instructed to mandatorily disclose the list of all the properties they will be showing the customers on a particular day before taking them to the actual site.

**A** Both I and II follow

**B** Only II follows

**C** Only I follows

**D** Neither I nor II follows

**E** Either I or II follows

**Answer:** A

**Instructions**

Study the following information to answer the given questions. In a certain code language, `economy and work related' is written as `oj my bx st' `work and employment today' is written as `pk bx oj dy' `employment for growth only' is written as 'el pk fd zn' `growth is related today' is written as 'el dy gm my' (All codes are two letter codes only)

**Question 170**

If the code for 'related people only' is 'xd my fd' then what may be the code for 'people for decision' in the given code language ?

**A** to xd my

**B** zn xd fd

**C** zn xd dy

**D** zn kz xd

**E** kz fd xd

**Answer:** D

**Explanation:**

The common words in first two statements are 'work' and 'and' coded as = 'oj' or 'bx'

The common word in first and last statements is 'related' coded as = 'my'

=> Only word left in first statement is 'economy' coded as = 'st'

The common word in second and third statements is 'employment' coded as = 'pk'

=> Only word left in second statement is 'today' coded as = 'dy'

The common common word in last two statements is 'growth' coded as = 'el'

=> Only words left in third statement are 'for' and 'only' coded as = 'fd' or 'zn'

=> Only word left in last statement is 'is' coded as = 'gm'

If the code for 'related people only' is 'xd my fd', => code for 'people' = 'xd'

Thus, code for 'people for decision' = **zn kz xd**

=> Ans - (D)

**Question 171**

**What does the code `pk' stand for in the given code language ?**

**A** growth

**B** employment

**C** only

**D** economy

**E** today

**Answer:** B

**Explanation:**
The common words in first two statements are 'work' and 'and' coded as = 'oj' or 'bx'

The common word in first and last statements is 'related' coded as = 'my'

=> Only word left in first statement is 'economy' coded as = 'st'

The common word in second and third statements is 'employment' coded as = 'pk'

=> Only word left in second statement is 'today' coded as = 'dy'

The common common word in last two statements is 'growth' coded as = 'el'

=> Only words left in third statement are 'for' and 'only' coded as = 'fd' or 'zn'

=> Only word left in last statement is 'is' coded as = 'gm'

Thus, the code `pk' stands for = **employment**

=> Ans - (B)

# 3 Free Mock for RBI Grade-B (With Solutions)

**Question 172**

**What may be the code for `economy is boosting' in the given code language ?**

**A** gm rc st

**B** zn gm st

**C** ye st el

**D** cp st rc

**E** st bx gm

**Answer:** A

**Explanation:**
The common words in first two statements are 'work' and 'and' coded as = 'oj' or 'bx'

The common word in first and last statements is 'related' coded as = 'my'

=> Only word left in first statement is 'economy' coded as = 'st'

The common word in second and third statements is 'employment' coded as = 'pk'

=> Only word left in second statement is 'today' coded as = 'dy'

The common common word in last two statements is 'growth' coded as = 'el'

=> Only words left in third statement are 'for' and 'only' coded as = 'fd' or 'zn'

=> Only word left in last statement is 'is' coded as = 'gm'

Thus, the code for `economy is boosting' may be = **gm rc st**

=> Ans - (A)

**Question 173**

**Which of the following additional statements is required to definitely find the code of `and' in the given code language ?**

**A**  'work and prosper now' is written as `bx yp jn oj'

**B**  'work today also important' is written as 'lv en oj dy'

**C**  No additional statement is required to find the code

**D**  `and more work today' is written as `z1 oj dy bx'

**E**  'related only for employment' is written as 'my zn fd pk'

   **Answer:** B

**Explanation:**
The common words in first two statements are 'work' and 'and' coded as = 'oj' or 'bx'

The common word in first and last statements is 'related' coded as = 'my'

=> Only word left in first statement is 'economy' coded as = 'st'

The common word in second and third statements is 'employment' coded as = 'pk'

=> Only word left in second statement is 'today' coded as = 'dy'

The common common word in last two statements is 'growth' coded as = 'el'

=> Only words left in third statement are 'for' and 'only' coded as = 'fd' or 'zn'

=> Only word left in last statement is 'is' coded as = 'gm'

Thus, to definitely find the code of 'and', we need a statement that contains only one of 'work' or 'and'

=> Ans - (B)

**Question 174**

**What is the code for 'growth today' in the given code language ?**

**A**  fd el

**B**  dy fd

**C**  pk dy

**D**  dy el

**E**  an fd

   **Answer:** D

**Explanation:**
The common words in first two statements are 'work' and 'and' coded as = 'oj' or 'bx'

The common word in first and last statements is 'related' coded as = 'my'

=> Only word left in first statement is 'economy' coded as = 'st'

The common word in second and third statements is 'employment' coded as = 'pk'

=> Only word left in second statement is 'today' coded as = 'dy'

The common common word in last two statements is 'growth' coded as = 'el'

=> Only words left in third statement are 'for' and 'only' coded as = 'fd' or 'zn'

=> Only word left in last statement is 'is' coded as = 'gm'

Thus, the code for 'growth today' = **dy el**

=> Ans - (D)

# RBI Grade B Previous Papers PDF

**Instructions**

Study the following information carefully to answer the given question
Ten persons from different companies viz Samsung, Bata, Microsoft, Google, Apple, HCL, ITC, Reliance, Airtel and Vodafone are sitting in two parallel rows containing five people each, in such a way that there is an equal distance between adjacent persons. In row 1- B, C, D, E and F are seated and all of them are facing south. In row-2 R, S, T, U and V are seated and all of them are facing north. Therefore, in the given seating arrangement, each member seated in a row faces another member of the other row. (All the information given above does not the order of seating as in give thefinal arrangement.)
• There people sit between R and the person from Apple. The person from Reliance is an
immediate neighbour of the one who faces the person from Apple. V sits to the immediate left of the one who faces the person from Reliance.
• Only one person sits between V and T. The person from Bata sits second to the right of the one who faces T. F sits second to the left of the person from Google. The person from Google does not sit at an extreme end of the line.
• Only two people sit between F and D. The person from Samsung faces an immediate neighbour of D. U is an immediate neighbour of the person from Microsoft. V is not from Microsoft. B sits second to the left of C.
• The person from ITC is an immediate neighbour of the person from Vodafone. Neither V nor F is from ITC. The person from ITC faces the person from HCL.

**Question 175**

**F is related to ITC in the same way as T is related to HCL, based on the given arrangement. To who amongst the following is D related to following the same pattern ?**

**A**  Microsoft

**B**  Samsung

**C**  Apple

**D**  Bata

**E**  Reliance

   **Answer:** D

**Explanation:**
Three people sit between R and the person from Apple, => R sits at right end in row 2 and the person from apple sits at left end in row 2.

The person from Reliance is an immediate neighbour of the one who faces the person from Apple, => The person from reliance sits second from right end in row 1.

V sits to the immediate left of the one who faces the person from Reliance, => V is from apple.

Only one person sits between V and T, => T sits at the middle in row 2.

The person from Bata sits second to the right of the one who faces T, => The person from Bata sits at extreme right in row 1.

F sits second to the left of the person from Google and the person from Google does not sit at an extreme end of the line, => F sits at extreme left end in row 1 and the person from google sits at middle in the same row.
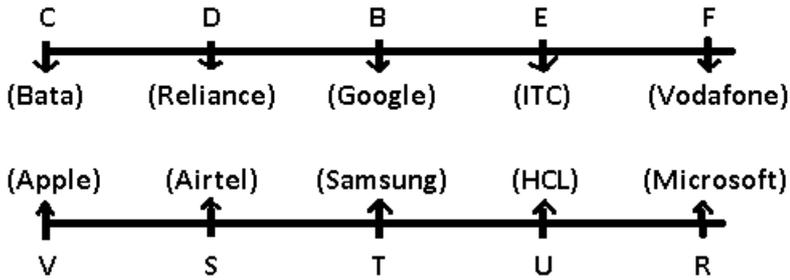

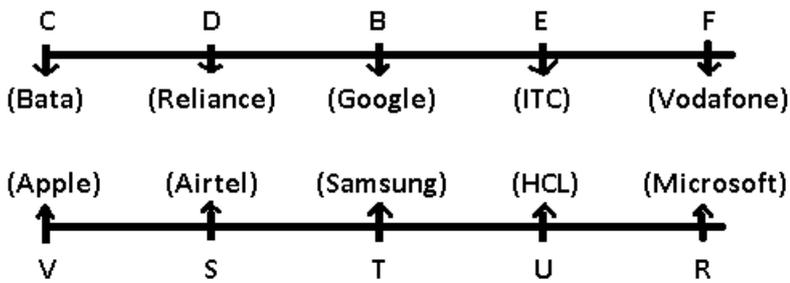

Only two people sit between F and D, => D sits between the person from Bata and the person from Google.

The person from Samsung faces an immediate neighbour of D, => T is from Samsung.

U is an immediate neighbour of the person from Microsoft, => U sits to the immediatel left of R, who is from Microsoft.

B sits second to the left of C, => C sits at extreme right end in row 1 and B sits at the middle in the same row.

The person from ITC is an immediate neighbour of the person from Vodafone and the person from ITC faces the person from HCL, => E is from ITC and F is from Vodafone and U is from HCL.

| C | D | B | E | F |
|---|---|---|---|---|
| (Bata) | (Reliance) | (Google) | (ITC) | (Vodafone) |

| (Apple) | (Airtel) | (Samsung) | (HCL) | (Microsoft) |
|---|---|---|---|---|
| V | S | T | U | R |

F is related to ITC, => The person from ITC is sitting to the immediate right of F.

T is related to HCL, => The person from HCL is sitting to the immediate right of T.

Similarly, The person from Bata is sitting to the immediate right of D, => D is related to Bata.

=> Ans - (D)

**Question 176**

**Which of the following is true regarding E ?**

**A**   E is from ITC.

**B**   E is an immediate neighbour of the person from Samsung.

**C**   E sits at an extreme end of the line.

**D**   The person from Airtel faces E.

**E**   None of the given options is true

   **Answer:** A

**Explanation:**
Three people sit between R and the person from Apple, => R sits at right end in row 2 and the person from apple sits at left end in row 2.

The person from Reliance is an immediate neighbour of the one who faces the person from Apple, => The person from reliance sits second from right end in row 1.

V sits to the immediate left of the one who faces the person from Reliance, => V is from apple.

Only one person sits between V and T, => T sits at the middle in row 2.

The person from Bata sits second to the right of the one who faces T, => The person from Bata sits at extreme right in row 1.

F sits second to the left of the person from Google and the person from Google does not sit at an extreme end of the line, => F sits at extreme left end in row 1 and the person from google sits at middle in the same row.

Only two people sit between F and D, => D sits between the person from Bata and the person from Google.

The person from Samsung faces an immediate neighbour of D, => T is from Samsung.

U is an immediate neighbour of the person from Microsoft, => U sits to the immediatel left of R, who is from Microsoft.

B sits second to the left of C, => C sits at extreme right end in row 1 and B sits at the middle in the same row.

The person from ITC is an immediate neighbour of the person from Vodafone and the person from ITC faces the person from HCL, => E is from ITC and F is from Vodafone and U is from HCL.

Row 1: C (Bata), D (Reliance), B (Google), E (ITC), F (Vodafone)

Row 2: V (Apple), S (Airtel), T (Samsung), U (HCL), R (Microsoft)

The only option that is true is that E is from ITC.

=> Ans - (A)

**Question 177**

**Who amongst the following sit at extreme end of the rows ?**

**A**  The person from Apple and F.

**B**  V, E

**C**  The person from Samsung and C.

**D**  The person from HCL and Bata

**E**  R and the person from Reliance.

   **Answer:** A

**Explanation:**
Three people sit between R and the person from Apple, => R sits at right end in row 2 and the person from apple sits at left end in row 2.

The person from Reliance is an immediate neighbour of the one who faces the person from Apple, => The person from reliance sits second from right end in row 1.

V sits to the immediate left of the one who faces the person from Reliance, => V is from apple.

Only one person sits between V and T, => T sits at the middle in row 2.

The person from Bata sits second to the right of the one who faces T, => The person from Bata sits at extreme right in row 1.

F sits second to the left of the person from Google and the person from Google does not sit at an extreme end of the line, => F sits at extreme left end in row 1 and the person from google sits at middle in the same row.
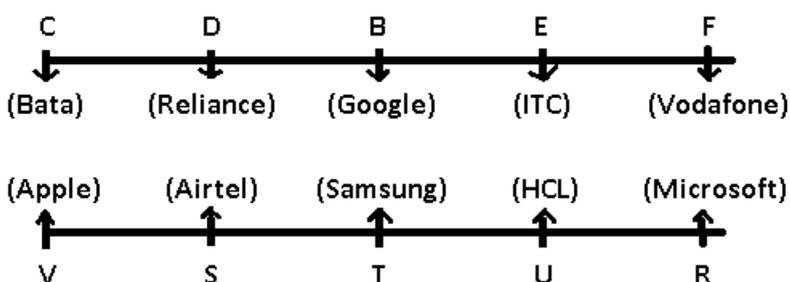

Only two people sit between F and D, => D sits between the person from Bata and the person from Google.

The person from Samsung faces an immediate neighbour of D, => T is from Samsung.

U is an immediate neighbour of the person from Microsoft, => U sits to the immediatel left of R, who is from Microsoft.

B sits second to the left of C, => C sits at extreme right end in row 1 and B sits at the middle in the same row.

The person from ITC is an immediate neighbour of the person from Vodafone and the person from ITC faces the person from HCL, => E is from ITC and F is from Vodafone and U is from HCL.

Row 1: C (Bata), D (Reliance), B (Google), E (ITC), F (Vodafone)

Row 2: V (Apple), S (Airtel), T (Samsung), U (HCL), R (Microsoft)

C (Bata) , F (Vodafone) , A (Apple) and R (Microsoft) are sitting at extreme ends.

=> Ans - (A)

**Question 178**

**Four of the following five are alike in a certain way based on the given arrangement and so form a group. Which is the one that does not belong to that group**

**A**   R

**B**   V

**C**   C

**D**   F

**E**   B

   **Answer:** E

**Explanation:**
Three people sit between R and the person from Apple, => R sits at right end in row 2 and the person from apple sits at left end in row 2.

The person from Reliance is an immediate neighbour of the one who faces the person from Apple, => The person from reliance sits second from right end in row 1.

V sits to the immediate left of the one who faces the person from Reliance, => V is from apple.

Only one person sits between V and T, => T sits at the middle in row 2.

The person from Bata sits second to the right of the one who faces T, => The person from Bata sits at extreme right in row 1.

F sits second to the left of the person from Google and the person from Google does not sit at an extreme end of the line, => F sits at extreme left end in row 1 and the person from google sits at middle in the same row.
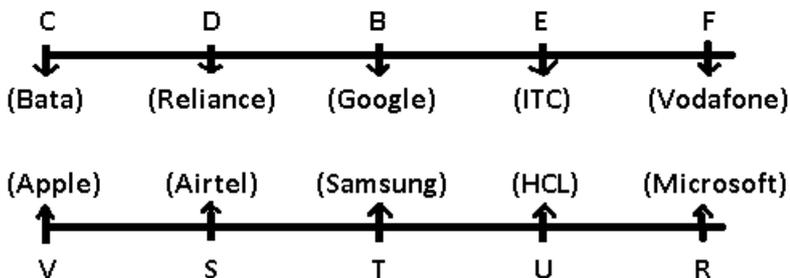

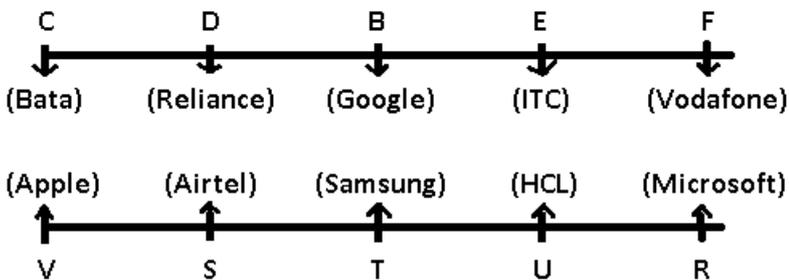

Only two people sit between F and D, => D sits between the person from Bata and the person from Google.

The person from Samsung faces an immediate neighbour of D, => T is from Samsung.

U is an immediate neighbour of the person from Microsoft, => U sits to the immediatel left of R, who is from Microsoft.

B sits second to the left of C, => C sits at extreme right end in row 1 and B sits at the middle in the same row.

The person from ITC is an immediate neighbour of the person from Vodafone and the person from ITC faces the person from HCL, => E is from ITC and F is from Vodafone and U is from HCL.

| C | D | B | E | F |
|---|---|---|---|---|
| ↓ | ↓ | ↓ | ↓ | ↓ |
| (Bata) | (Reliance) | (Google) | (ITC) | (Vodafone) |

| (Apple) | (Airtel) | (Samsung) | (HCL) | (Microsoft) |
|---|---|---|---|---|
| ↑ | ↑ | ↑ | ↑ | ↑ |
| V | S | T | U | R |

Apart from B, all the persons mentioned are sitting at the extreme ends of both rows.

=> Ans - (E)

**Question 179**

**Who amongst the following faces the person from Airtel ?**

**A**   The person from Google

**B**   B

**C** The person from reliance

**D** E

**E** The person from Bata

  **Answer:** C

**Explanation:**
Three people sit between R and the person from Apple, => R sits at right end in row 2 and the person from apple sits at left end in row 2.

The person from Reliance is an immediate neighbour of the one who faces the person from Apple, => The person from reliance sits second from right end in row 1.

V sits to the immediate left of the one who faces the person from Reliance, => V is from apple.

Only one person sits between V and T, => T sits at the middle in row 2.

The person from Bata sits second to the right of the one who faces T, => The person from Bata sits at extreme right in row 1.

F sits second to the left of the person from Google and the person from Google does not sit at an extreme end of the line, => F sits at extreme left end in row 1 and the person from google sits at middle in the same row.

Only two people sit between F and D, => D sits between the person from Bata and the person from Google.

The person from Samsung faces an immediate neighbour of D, => T is from Samsung.

U is an immediate neighbour of the person from Microsoft, => U sits to the immediatel left of R, who is from Microsoft.

B sits second to the left of C, => C sits at extreme right end in row 1 and B sits at the middle in the same row.

The person from ITC is an immediate neighbour of the person from Vodafone and the person from ITC faces the person from HCL, => E is from ITC and F is from Vodafone and U is from HCL.

```
    C          D          B          E          F
    ↓          ↓          ↓          ↓          ↓
 (Bata)   (Reliance)  (Google)    (ITC)   (Vodafone)

 (Apple)   (Airtel)  (Samsung)   (HCL)   (Microsoft)
    ↑          ↑          ↑          ↑          ↑
    V          S          T          U          R
```

D, who is from Reliance faces the person from Airtel (S).

=> Ans - (C)

**Instructions**
For the following questions answer them individually

**Question 180**

**Which of the following symbols should replace the question mark(?) in the given expression in order to make the expressions `H < R' as well as 'D ≥ M' definitely true ?**
**D ≥ I ≥ H = S ? M < P ≤ R**

**A**   ≥

**B**   ≤

**C**   <

**D**   >

**E**   =

  **Answer:** E

**Explanation:**

Expression : D ≥ I ≥ H = S ? M < P ≤ R

(i) : H < R : the question mark(?) is changed to any one of {< , =}

(ii) : D ≥ M : the question mark(?) is changed to any one of {> , =}

The intersection in both sets is {=}

∴ D ≥ I ≥ H = S **=** M < P ≤ R

=> Ans - (E)

# RBI Assistant Free Mock Test (With Solutions)

**Question 181**

**T is the father of M and P. P is the only daughter of V. M is married to N. A and B are children of M. How is V related to B ?**

**A**   Grandmother

**B**   Uncle

**C**   Aunt

**D**   Sister

**E**   Grandfather

   **Answer:** A

**Explanation:**

T is the father of M and P. P is the only daughter of V.

=> T is the husband of V and P is the sister of M.

M is married to N. A and B are children of M.

Thus, V is grandmother of B.

=> Ans - (A)

**Question 182**

**A severe cyclonic storm hit the Eastern coastlii;te last month resulting in huge loss of life and property on the entire east coast and the Government had to disburse a considerable amount for relief activities through the district administration machineries. Which of the following may possibly be a follow up measure to be taken by the Government?**

**A**   The Government may set up a task force to review the, post relief scenario in all districts and also to confirm proper end user receipt of the relief supplies.

**B**   The Government may set up a committee for proper disbursement' of relief supplies in future.

**C**   The Government may empower the District magistrates to make all future disbursements of relief.

**D**   The Government may send relief supplies to the affected, people in future only after proper assessment of the damage caused by such calamities.

**E**   The government may need not to activate any follow up measure.

   **Answer:** A

**Explanation:**

Statement II is too far-fetched. Statement III is practically difficult to follow. IV and V are also not possible.

Thus, only I follow.

=> Ans - (A)

## Instructions

These questions consist of a question and two statements numbered I and H given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and mark the appropriate answer.
Give answer :
Topic:banking-reasoning-data-sufficiency
a: The data even in both statements I and II together are not sufficient to answer the question.
b: The data in statement I alone are sufficient to answer the question while the data in statement II alone are not sufficient to answer the question.
c: The data either in statement I alone or in statement II alone are sufficient to answer the question.
d: The data in both statements I and II together are necessary to answer the question.
e: The data in statement II alone are sufficient to answer the question while the data in statement I are not sufficient to answer the question.

## Question 183

In a building, the ground floor is numbered one, first floor is numbered two and so on till the topmost floor is numbered five. Amongst five people- M, N, O, P and Q, each living on a different floor, but not necessarily in the same order, on which floor does Q live ?
I. O lives on an odd numbered floor. M lives immediately below O. Only two people live between M and P. N lives neither immediately below M nor immediately below P.
II. N lives on an even numbered floor. Only two people live between N and O. Only one person lives between O and Q.

A   The data even in both statements I and II together are not sufficient to answer the question.

B   The data in statement I alone are sufficient to answer the question while the data in statement II alone are not sufficient to answer the question.

C   The data either in statement I alone or in statement II alone are sufficient to answer the question.

D   The data in both statements I and II together are necessary to answer the question.

E   The data in statement II alone are sufficient to answer the question while the data in statement I are not sufficient to answer the question.

**Answer:** C

**Explanation:**

I : O lives on an odd numbered floor. M lives immediately below O. Only two people live between M and P. N lives neither immediately below M nor immediately below P.

The proper arrangement is :

| Floor | Person |
|-------|--------|
| 5 | O |
| 4 | M |
| 3 | Q |
| 2 | N |
| 1 | P |

Thus Q lives on 3rd floor, hence I alone is sufficient.

---

II : N lives on an even numbered floor. Only two people live between N and O. Only one person lives between O and Q.

The proper arrangement is :

| Floor | Person |
|-------|--------|
| 5 | O |
| 4 | M/P |
| 3 | Q |
| 2 | N |
| 1 | P/M |

Thus Q lives on 3rd floor, hence II alone is sufficient.

∴ **Either statement alone is sufficient.**

=> Ans - (C)

# Free Banking Study Material (15000 Solved Questions)

**Question 184**

**Among people A, B, C, D, E and F, each having a different height, who is the second shortest ?**
**I. Only two people are taller than A. E is taller than both B and C. F is shorter than E. F is taller than C.**
**II. Only two people are shorter than D. A is taller than D but shorter than E. F is neither the tallest nor the shortest. B is taller than C.**

**A**   The data even in both statements I and II together are not sufficient to answer the question.

**B**   The data in statement I alone are sufficient to answer the question while the data in statement II alone are not sufficient to answer the question.

**C**   The data either in statement I alone or in statement II alone are sufficient to answer the question.

**D**   The data in both statements I and II together are necessary to answer the question.

**E**   The data in statement II alone are sufficient to answer the question while the data in statement I are not sufficient to answer the question.

  **Answer:** A

**Explanation:**

Clearly, each statement alone is insufficient as there is not enough data, thus by combining both statements, we get :

Only two people are taller than A, => A is the third tallest.

Only two people are shorter than D, => D is the 4th tallest.

E is taller than both B and C. F is shorter than E, => E is the tallest.

F is taller than C and B is taller than C, => C is the shortest.

∴ Arrangement : E > B/F > A > D > F/B > C

Thus, we cannot find the second shortest person.

∴ **Both statements even together are insufficient.**

=> Ans - (A)

**Question 185**

**How many people are standing between A and D (Note: All are standing in a straight line facing north) ?**
**I. K stands second from the left end of the line. Only four people stand between K and T. Y is an immediate neighbour of T. A stands second to the right of Y. As many people stand between K and D as between A and D.**
**II. A stands second from the right end of the line. Z stands third from the left end of the line. D stands exactly in the centre of the line. As many people stand between A and T as between D and Z.**

**A**   The data even in both statements I and II together are not sufficient to answer the question.

**B** The data in statement I alone are sufficient to answer the question while the data in statement II alone are not sufficient to answer the question.

**C** The data either in statement I alone or in statement II alone are sufficient to answer the question.

**D** The data in both statements I and II together are necessary to answer the question.

**E** The data in statement II alone are sufficient to answer the question while the data in statement I are not sufficient to answer the question.

  **Answer:** E

## Question 186

**How far and in which direction is Point M from Point S ?**
**I. Point E is 2m to the east of Point S. Point B is 4m to the south of Point E. Point L is 10m to the east of Point B. Point L forms a midpoint of the vertical straight line of 8m formed by joining points Q and D. Point M is 5m to the west of Point Q.**
**II. Point M is 8m to the north of Point A. Point M forms the midpoint of the horizontal straight line formed by joining points O and F. Point F is 8m to the west of Point O. Point S is 4m to the west of Point F.**

**A** The data even in both statements I and II together are not sufficient to answer the question.

**B** The data in statement I alone are sufficient to answer the question while the data in statement II alone are not sufficient to answer the question.

**C** The data either in statement I alone or in statement II alone are sufficient to answer the question.

**D** The data in both statements I and II together are necessary to answer the question.

**E** The data in statement II alone are sufficient to answer the question while the data in statement I are not sufficient to answer the question.
  **Answer:** E

**Explanation:**

I : Point L forms a midpoint of the vertical straight line of 8m formed by joining points Q and D.

We don't know in which direction Q and D are from L, hence we cannot find the direction of point M from point S.

Thus, I alone is insufficient.

---

ii : Point M is 8m to the north of Point A. Point M forms the midpoint of the horizontal straight line formed by joining points O and F. Point F is 8m to the west of Point O. Point S is 4m to the west of Point F.

Thus, point M is 8 m to the east of point S.

∴ **II alone is sufficient.**

=> Ans - (E)

**Question 187**

Amongst six people-P, Q R, S, T and U standing around a circle, some facing the centre while some facing outside (i.e. oppositeto the centre) but not necessarily in the same order, what is the position of T with respect to U ?

I. P stands second to the right of R. R faces the centre. Q stands second to the left of P. Q is an immediate neighbour of both U and T. U and P face opposite directions (i.e. if U faces the centre then P faces outside and vice-versa.) Only two people stand between P and T.

II. Only two people stand between R and U. P stands to the immediate left of U. P faces outside. R is an immediate neighbour of T.

**A**   The data even in both statements I and II together are not sufficient to answer the question.

**B**   The data in statement I alone are sufficient to answer the question while the data in statement II alone are not sufficient to answer the question.

**C**   The data either in statement I alone or in statement II alone are sufficient to answer the question.

**D**   The data in both statements I and II together are necessary to answer the question.

**E**   The data in statement II alone are sufficient to answer the question while the data in statement I are not sufficient to answer the question.
   **Answer:** B

**Explanation:**

I : P stands second to the right of R. R faces the centre. Q stands second to the left of P.

=> P faces outside and Q sits second to the left of R.

Q is an immediate neighbour of both U and T, => S sits between R and P.

U and P face opposite directions, => U faces the centre.

Only two people stand between P and T, => T sits opposite P.

Thus, T sits second to the right of U.

Clearly, there is no enough data in the second statement to find the position of T with respect to U.

∴ **I alone is sufficient.**

=> Ans - (B)

**Instructions**

In these questions, two/three statements followed by two conclusions numbered I and II are given. You have to take the given statements to be true even if they seem to be at variance from commonly known facts and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts. Give answer :
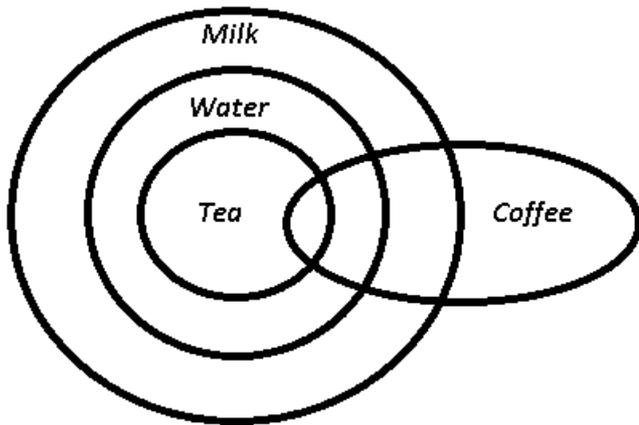

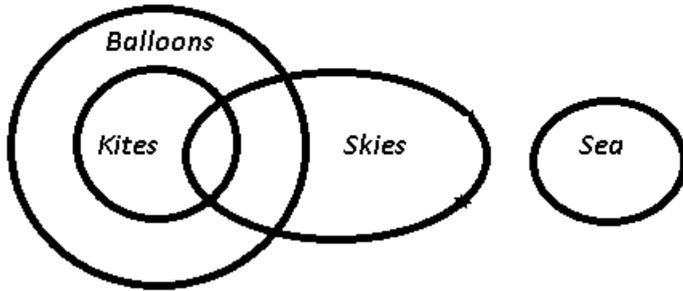

a: If either conclusion I or II follows
b: If neither conclusion I nor II follows
c: If only conclusion II follows
d: If both conclusions I and II follow
e: If only conclusion I follows

**Question 188**

**Statements :**
**Some coffee is tea.**
**All tea is water.**
**All water is milk.**
**Conclusions :**
**I. All coffee being water is a possibility.**
**II. All milk is tea.**

**A**   If either conclusion I or II follows

**B**   If neither conclusion I nor II follows

**C**   If only conclusion II follows

**D**   If both conclusions I and II follow

**E**   If only conclusion I follows

   **Answer:** E

**Explanation:**
The venn diagram for above statements is :

Conclusions :

I. All coffee being water is a possibility = true
II. All milk is tea = false

Thus, only conclusion I follows.

=> Ans - (E)

**Question 189**

**Statements :**
**No sea is a sky.**
**Some skies are kites.**
**All kites are balloons.**
**Conclusions :**
**I. Some balloons are seas.**
**II. All balloons being skies is a possibility.**

**A**   If either conclusion I or II follows

**B**   If neither conclusion I nor II follows

**C**   If only conclusion II follows

**D**   If both conclusions I and II follow

**E**   If only conclusion I follows

**Answer:** C

**Explanation:**
The venn diagram for above statements is :

Conclusions :

I. Some balloons are seas = false
II. All balloons being skies is a possibility = true

Thus, only conclusion II follows.

=> Ans - (C)

**Best Youtube Channel for Banking Preparation**

**Question 190**

**Statements :**
**Some stars are planets.**
**Some planets are galaxies.**
**Some galaxies are suns.**
**Conclusions :**
**I. All suns being galaxies is a possibility.**
**II. Some galaxies are stars.**

**A**   If either conclusion I or II follows

**B**   If neither conclusion I nor II follows

**C**   If only conclusion II follows

**D**   If both conclusions I and II follow

**E**   If only conclusion I follows

**Answer:** E

**Explanation:**
The venn diagram for above statements is :

Conclusions :

I. All suns being galaxies is a possibility = true
II. Some galaxies are stars = false

Thus, only conclusion I follows.

=> Ans - (E)

**Question 191**

**Statements :**
**All registers are pens.**
**All pens are pencils.**
**No pencil is rubber.**
**Conclusions :**
**I. No register is rubber.**
**II. All pencils are pens.**

**A**  If either conclusion I or II follows

**B**  If neither conclusion I nor II follows

**C**  If only conclusion II follows

**D**  If both conclusions I and II follow

**E**  If only conclusion I follows

   **Answer:** E

**Explanation:**
The venn diagram for above statements is :

Conclusions :

I. No register is rubber = true
II. All pencils are pens = false

Thus, only conclusion I follows.

=> Ans - (E)

**Question 192**

**Statements :**
**Some radios are televisions.**
**Some televisions are phones.**
**All phones are computers.**
**Conclusions :**
**I. All computers being televisions is a possibility.**
**II. Some radios being phones is a possibility.**

**A**  If either conclusion I or II follows

**B**  If neither conclusion I nor II follows

**C**  If only conclusion II follows

**D** If both conclusions I and II follow

**E** If only conclusion I follows

   **Answer:** D

**Explanation:**
The venn diagram for above statements is :

Conclusions :

I. All computers being televisions is a possibility = true
II. Some radios being phones is a possibility = true

Thus, both conclusions I and II follow.

=> Ans - (D)

# General Knowledge Questions & Answers (Download pdf)

**Question 193**

**Statements :**
**All cats are dogs.**
**All wolves are dogs.**
**All dogs are jackals.**
**Conclusions :**
**I. All wolves are jackals.**
**II. Atleast some jackals are cats.**

**A** If either conclusion I or II follows

**B** If neither conclusion I nor II follows
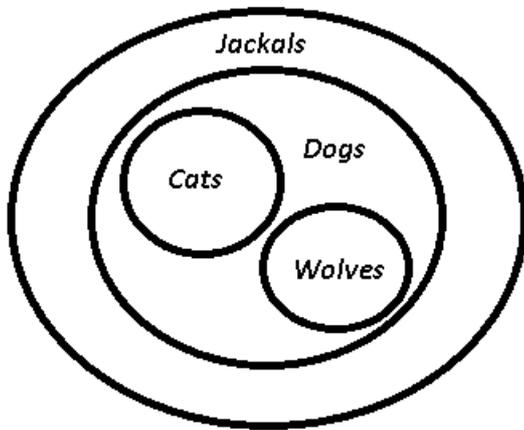

**C** If only conclusion II follows

**D** If both conclusions I and II follow

**E** If only conclusion I follows

   **Answer:** D

**Explanation:**
The venn diagram for above statements is :

Conclusions :

I. All wolves are jackals = true
II. Atleast some jackals are cats = true

Thus, both conclusions I and II follow.

=> Ans - (D)

**Instructions**

Study the given information carefully to answer the given questions:

Seven boxes- A, B, C, D, E, F and G are kept one above the other, but not necessarily in the same order. Each box has a different number viz. 2, 4, 5, 7, 8, 9 and 12, but not necessarily in the same order. Only three boxes are kept between G and box number 9. Only two boxes are kept between G and B. B is kept at one of the positions below box number 9. Only one box is kept between B and box number 4. E is kept immediately below box number 12. E is kept at one of the places above box number 9. There is only one box between E and the box having number less than E. E's box number is neither 7 nor 8. Only two boxes are kept between box number 5 and F. The difference between F and the box immediately below it is less than four. C is not the topmost box. C's box number is not 4. Only two boxes are kept between C and A.

**Question 194**

**What is the number of box C ?**

**A**  5

**B**  9

**C**  12

**D**  8

**E**  2

   **Answer:** B

**Explanation:**
Only three boxes are kept between G and box number 9. Only two boxes are kept between G and B. B is kept at one of the positions below box number 9, => Box B is kept immediately below box number 9 and box G is placed 3 places below box B.

E is kept immediately below box number 12. E is kept at one of the places above box number 9, => Box number 12 is kept at top and E is placed immediately below it.

Box number 9 is placed immediately below E and box G is placed at last position.

Only one box is kept between B and box number 4, => Box number 4 is kept immediately above box G.

C's box number is not 4 and only two boxes are kept between C and A, => A's box number is 4 and C is kept immediately above B.

There is only one box between E and the box having number less than E. E's box number is neither 7 nor 8, => E's box number is 5 and B's box number is 2.

The difference between F and the box immediately below it is less than four, => F's box number is 7 and G's is 8.

| S.No. | Box No. | Box Name |
|-------|---------|----------|
| 1 | 12 | D |
| 2 | 5 | E |
| 3 | 9 | C |
| 4 | 2 | B |
| 5 | 7 | F |
| 6 | 4 | A |
| 7 | 8 | G |

Number of box C is 9

=> Ans - (B)

**Question 195**

**How many boxes are kept between E and box number 4 ?**

**A**  Three

**B**  One

**C**  Two

**D**  None

**E**  More than three

**Answer:** A

**Explanation:**
Only three boxes are kept between G and box number 9. Only two boxes are kept between G and B. B is kept at one of the positions below box number 9, => Box B is kept immediately below box number 9 and box G is placed 3 places below box B.

E is kept immediately below box number 12. E is kept at one of the places above box number 9, => Box number 12 is kept at top and E is placed immediately below it.

Box number 9 is placed immediately below E and box G is placed at last position.

Only one box is kept between B and box number 4, => Box number 4 is kept immediately above box G.

C's box number is not 4 and only two boxes are kept between C and A, => A's box number is 4 and C is kept immediately above B.

There is only one box between E and the box having number less than E. E's box number is neither 7 nor 8, => E's box number is 5 and B's box number is 2.

The difference between F and the box immediately below it is less than four, => F's box number is 7 and G's is 8.

| S.No. | Box No. | Box Name |
|-------|---------|----------|
| 1 | 12 | D |
| 2 | 5 | E |
| 3 | 9 | C |
| 4 | 2 | B |
| 5 | 7 | F |
| 6 | 4 | A |
| 7 | 8 | G |

Number of boxes between E and box numbered 4 (i.e, box A) = 3

=> Ans - (A)

# Daily Free Banking Online Test

**Question 196**

**What is the position of D in the given stack of boxes ?**

**A** Fourth from the top

**B** Fifth from the bottom

**C** First from the top

**D** Second from the bottom

**E** Third from the bottom

**Answer:** C

**Explanation:**
Only three boxes are kept between G and box number 9. Only two boxes are kept between G and B. B is kept at one of the positions below box number 9, => Box B is kept immediately below box number 9 and box G is placed 3 places below box B.

E is kept immediately below box number 12. E is kept at one of the places above box number 9, => Box number 12 is kept at top and E is placed immediately below it.

Box number 9 is placed immediately below E and box G is placed at last position.

Only one box is kept between B and box number 4, => Box number 4 is kept immediately above box G.

C's box number is not 4 and only two boxes are kept between C and A, => A's box number is 4 and C is kept immediately above B.

There is only one box between E and the box having number less than E. E's box number is neither 7 nor 8, => E's box number is 5 and B's box number is 2.

The difference between F and the box immediately below it is less than four, => F's box number is 7 and G's is 8.

| S.No. | Box No. | Box Name |
|-------|---------|----------|
| 1 | 12 | D |
| 2 | 5 | E |
| 3 | 9 | C |
| 4 | 2 | B |
| 5 | 7 | F |
| 6 | 4 | A |
| 7 | 8 | G |

D is at top in the given stack of boxes.

=> Ans - (C)

**Question 197**

**Which of the following boxes is kept immediately above A ?**

**A**   B

**B**   Box number 5

**C**   Box number 7

**D**   G

**E**   Box number 4

   **Answer:** C

**Explanation:**
Only three boxes are kept between G and box number 9. Only two boxes are kept between G and B. B is kept at one of the positions below box number 9, => Box B is kept immediately below box number 9 and box G is placed 3 places below box B.

E is kept immediately below box number 12. E is kept at one of the places above box number 9, => Box number 12 is kept at top and E is placed immediately below it.

Box number 9 is placed immediately below E and box G is placed at last position.

Only one box is kept between B and box number 4, => Box number 4 is kept immediately above box G.

C's box number is not 4 and only two boxes are kept between C and A, => A's box number is 4 and C is kept immediately above B.

There is only one box between E and the box having number less than E. E's box number is neither 7 nor 8, => E's box number is 5 and B's box number is 2.

The difference between F and the box immediately below it is less than four, => F's box number is 7 and G's is 8.

| S.No. | Box No. | Box Name |
|-------|---------|----------|
| 1 | 12 | D |
| 2 | 5 | E |
| 3 | 9 | C |
| 4 | 2 | B |
| 5 | 7 | F |
| 6 | 4 | A |
| 7 | 8 | G |

Box F numbered 7 is kept immediately above A.

=> Ans - (C)

**Question 198**

**Four of the following five are alike in a certain way and hence form a group. Which of the following does not belong to the group ?**

**A**   B-4

**B**   C-7

**C**   E-2

**D**   D-9

**E**   A-8

   **Answer:** E

**Explanation:**
Only three boxes are kept between G and box number 9. Only two boxes are kept between G and B. B is kept at one of the positions below box number 9, => Box B is kept immediately below box number 9 and box G is placed 3 places below box B.

E is kept immediately below box number 12. E is kept at one of the places above box number 9, => Box number 12 is kept at top and E is placed immediately below it.

Box number 9 is placed immediately below E and box G is placed at last position.

Only one box is kept between B and box number 4, => Box number 4 is kept immediately above box G.

C's box number is not 4 and only two boxes are kept between C and A, => A's box number is 4 and C is kept immediately above B.

There is only one box between E and the box having number less than E. E's box number is neither 7 nor 8, => E's box number is 5 and B's box number is 2.

The difference between F and the box immediately below it is less than four, => F's box number is 7 and G's is 8.

| S.No. | Box No. | Box Name |
|-------|---------|----------|
| 1 | 12 | D |
| 2 | 5 | E |
| 3 | 9 | C |
| 4 | 2 | B |
| 5 | 7 | F |
| 6 | 4 | A |
| 7 | 8 | G |

Apart from A-8, there is a gap of one box between the boxes mentioned in the options.

=> Ans - (E)

# 100 Free Computer Awareness Tests

**Question 199**

**Which of the following boxes is numbered 8 ?**

**A**   A

**B**   F

**C**   B

**D**   G

**E**   D

**Answer:** D

**Explanation:**
Only three boxes are kept between G and box number 9. Only two boxes are kept between G and B. B is kept at one of the positions below box number 9, => Box B is kept immediately below box number 9 and box G is placed 3 places below box B.

E is kept immediately below box number 12. E is kept at one of the places above box number 9, => Box number 12 is kept at top and E is placed immediately below it.

Box number 9 is placed immediately below E and box G is placed at last position.

Only one box is kept between B and box number 4, => Box number 4 is kept immediately above box G.

C's box number is not 4 and only two boxes are kept between C and A, => A's box number is 4 and C is kept immediately above B.

There is only one box between E and the box having number less than E. E's box number is neither 7 nor 8, => E's box number is 5 and B's box number is 2.

The difference between F and the box immediately below it is less than four, => F's box number is 7 and G's is 8.

| S.No. | Box No. | Box Name |
|-------|---------|----------|
| 1 | 12 | D |
| 2 | 5 | E |
| 3 | 9 | C |
| 4 | 2 | B |
| 5 | 7 | F |
| 6 | 4 | A |
| 7 | 8 | G |

Box G is numbered 8.

=> Ans - (D)

**Instructions**

For the following questions answer them individually

**Question 200**

A major portion of cash frow that country M yields is through agricultural activities. However, in past half a decade the revenue earned from agriculture has noticeably reduced." — A report. Which of the given statements may be a reason for the given situation ?
A. Country M is employing new techniques to yield good crop and boom the productivity.
B. Country M has faced two major droughts in the last five years.
C. The revenue from other industries has increased in the past five years.

**A**    Only B

**B**    Both A and B

**C**    Only A

**D**    Only C

**E**    All A, B and C

   **Answer:** A
