**Question 95**

(10)

- A coastal
- B ocean
- C marine
- D land

E forest

**Answer: C**

**Instructions**

Rearrange the following six sentences (A), (B), (C), (D), (E) and (F) in the proper sequence to form a meaningful paragraph; then answer the questions given below them.

(A) Development of drought resistance could benefit large numbers of farmers,

(B) Hence the human race has no choice but to adapt to these impacts.

(C) India has to be concerned about climatic changes.

(D) This impact can run into decades and centuries.

(E) Environment day is thus an important occasion to assess the past and our future.

(F) Since there is a possibility of adverse impact on agriculture which could deter growth.

**Question 96**

**Which is the FIFTH sentence of the passage after the rearrangement ?**

A (F)

B (D)

C (E)

D (A)

E (C)

**Answer: D**

## 100 Free Computer Awareness Tests

**Question 97**

**Which is the THIRD sentence of the passage ?**

A (A)

B (D)

C (B)

D (C)

E (E)

**Answer: B**

**Question 98**

**Which is the SECOND sentence of the passage ?**

A (B)

B (D)

C (F)

D (C)

E (E)

Answer: C

**Question 99**

Which is the **LAST (SIXTH)** sentence of the passage ?

- A (C)
- B (B)
- C (F)
- D (D)
- E (E)

Answer: E

## General Science Notes (Download PDF)

**Question 100**

Which is the **FIRST** sentence of the passage ?

- A (A)
- B (D)
- C (C)
- D (B)
- E (E)

Answer: D

**Instructions**

Read the following passage carefully and answer the questions given below it. Certain words/phrases are printed in bold to help you to locate them while answering some of the questions. The outside world has pat answers concerning extremely impoverished countries, especially those in Africa. Everything comes back, again and again, to corruption and misrule. Western officials argue that Africa simply needs to behave itself better, to allow market forces to operate without interference by corrupt rulers. Ye the critics of African governance have it wrong. Politics simply can't explain Africa's **prolonged** economic crisis. The claim that Africa's corruption is the basic source of the problem does not withstand serious scrutiny. During the past decade I witnessed how relatively well-governed countries in Africa, such as Ghana, Malawi, Mali and Senegal, failed to prosper, whereas societies in Asia perceived to have **extensive** corruption, such as Bangladesh, Indonesia and Pakistan, enjoyed rapid economic growth.

What is the explanation? Every situation of extreme poverty around the world contains some of its own unique causes, which need to be diagnosed as a doctor would a patient. For example, Africa is burdened with malaria like no other part of the world, simply because it is unlucky in providing the perfect conditions for that disease; high temperatures, plenty of breeding sites and particular species of malaria-transmitting mosquitoes that prefer to bite humans rather than cattle.

Another myth is that the developed world already gives plenty of aid to the world's poor. Former U.S. Secretary of the Treasury, Paul O'Neil expressed a common frustration when he remarked about aid for Africa : "We've spent trillions of dollars on these problems and we have damn near nothing to show for it". O'Neil was no foe of foreign aid. Indeed, he wanted to fix the system so that more U.S. aid could be justified. But he was wrong to believe that vast flows of aid to Africa had been **squandered**. President Bush said in a press conference in April 2004 that as "the greatest power on the face of the earth, we have an **obligation** to help the spread of freedom. We have an obligation to feed the hungry". Yet how does the U.S. fulfill its obligation? U.S. aid to farmers in poor countries to help them grow more food runs at around \$200 million per year, far less than \$1 per person per year for the hundreds of millions of people living

in subsistence farm households.

From the world as a whole, the amount of aid per African per year is really very small, just \$30 per sub-Saharan African in 2002. Of that **modest** amount, almost \$5 was actually for consultants from the donor countries, more than \$3 was for emergency aid, about \$4 went for servicing Africa's debts and \$5 was for debt-relief operations. The rest, about \$12, went to Africa. Since the "money down the drain" argument is heard most frequently in the U.S., it's worth looking at the same calculations for U.S. aid alone. In 2002, the U.S. gave \$3 per sub-Saharan African. Taking out the parts for U.S. consultants and technical cooperation, food and other emergency aid, administrative costs and debt relief, the aid per African came to grand total of 6 cents.

The U.S. has promised repeatedly over the decades, as a signatory to global agreements like the Monterrey Consensus of 2002, to give a much larger proportion of its annual output, specifically upto 0.7% of GNP, to official development assistance. The U.S. failure to follow through has no political fallout domestically, of course, because not one in a million U.S. citizens even knows of statements like the Monterrey Consensus.

But no one should underestimate the salience that it has around the world. Spin as American might about their nation's generosity, the poor countries are fully aware of what the U.S. is not doing.

**Question 101**

**The passage seems to emphasize that the outside world has**

- A correct understanding about the reasonable aid provided by the USA to the poor countries
- B definite information about what is happening in under developed countries
- C stopped extending any financial aid to underdeveloped countries
- D misconceptions about the aid given to the poor nations by developed countries
- E None of these

**Answer: D**

**Question 102**

**According to the Westerners the solution to eradicate poverty of African nations lies in**

- A corruption
- B improving their own national behaviour
- C misrule
- D prolonged economic crisis
- E None of these

**Answer: B**

**200+ Banking Previous Papers (Download PDF)**

**Question 103**

**The author has given the example of Bangladesh, Indonesia and Pakistan in support of his argument that**

- A corruption is the major culprit in the way of prosperity
- B mis-governance hampers the prosperity of nations
- C despite rampant corruption, nations may prosper
- D developed nations arrogantly neglect underdeveloped countries

**E** None of these

**Answer: C**

**Question 104**

**The author has mentioned Ghana as a country with**

**A** reasonably good-governance

**B** corrupt leadership

**C** plenty of natural resources

**D** rapid economic growth

**E** None of these

**Answer: A**

**Question 105**

**The cases of malaria in Africa are mainly due to**

**(A) high temperature**

**(B) climatic conditions conducive for breeding.**

**(C) malaria carriers' liking for human blood in preference to that of cattle.**

**A** None of these

**B** Only B and C

**C** Only A and C

**D** Only A and B

**E** All the three

**Answer: E**

## **3 Free Mock for RBI Grade-B (With Solutions)**

**Instructions**

Choose the word/group of words which is most nearly the same in meaning to the word/group of words printed in bold as used in the passage.

**Question 106**

**OBLIGATION**

**A** lip sympathy

**B** true empathy

**C** self pity

**D** conditional responsibility

**E** moral binding

**Answer: E**

**Question 107**

**SQUANDER**

- A use economically
- B spend wastefully
- C siphon judiciously
- D donate generously
- E None of these

**Answer:** B

**Question 108**

**MODEST**

- A humble
- B sufficient
- C meagre
- D sober
- E unpretentious

**Answer:** A

**RBI Grade B Previous Papers PDF**

**Instructions**

Choose the word/group of words which is most OPPOSITE in meaning of the word given in bold as used in the passage.

**Question 109**

**MYTH**

- A reality
- B mystery
- C misery
- D misconception
- E exaggeration

**Answer:** A

**Question 110**

**EXTENSIVE**

- A intensive
- B abominable
- C inherent

D rampant

E negligible

**Answer:** E

## RBI Grade-B Study Material (Download PDF)

### Quant

#### Instructions

For the following questions answer them individually

#### Question 111

**Train A crosses a pole and platform in 18 secnds and 39 seconds respectively. The length of platform is 157.5 metre. What will be the length of train B if it is equal to the sum of half of the length of train A and twice the length of the platform?**

A 382.5 metre

B 328.5 metre

C 238.5 metre

D 315 metre

E None of these

**Answer:** A

#### Explanation:

Let length of train A =  $l$  metres

and speed of train A =  $x$  m/s

Using,  $time = \frac{distance}{speed}$

$$\Rightarrow \frac{l}{x} = 18$$

$$\Rightarrow x = \frac{l}{18}$$

Length of platform = 157.5 metres

$$\Rightarrow \frac{157.5+l}{x} = 39$$

Substituting value of  $x$ , we get :

$$\Rightarrow \frac{157.5+l}{39} = \frac{l}{18}$$

$$\Rightarrow 13l = 6l + 945$$

$$\Rightarrow 13l - 6l = 7l = 945$$

$$\Rightarrow l = \frac{945}{7} = 135 \text{ metres}$$

$\therefore$  Length of train B

$$= \left(\frac{135}{2}\right) + (157.5 \times 2)$$

$$= 67.5 + 315 = 382.5 \text{ metres}$$

## RBI Assistant Free Mock Test (With Solutions)

**Question 112**

If 12 boys or 15 girls can do a work in 48 days, in what time will 24 boys and 6 girls do twice the work?

- A 42 days
- B 40 days
- C 45 days
- D 30 days
- E None of these

**Answer:** B

**Explanation:**

12 boys or 15 girls can do a work in 48 days

$$\Rightarrow 12\text{boys} \equiv 15\text{girls}$$

$$\Rightarrow 24\text{boys} \equiv 30\text{girls}$$

We need to find for 24 boys and 6 girls. Substituting value of 24 boys

$$\Rightarrow 24\text{boys} + 6\text{girls} = 36\text{girls}$$

Now, using :  $\frac{M_1 \times D_1}{W_1} = \frac{M_2 \times D_2}{W_2}$

$$\Rightarrow \frac{15 \times 48}{1} = \frac{36 \times D_2}{2}$$

$$\Rightarrow 15 \times 48 = 18 \times D_2$$

$$\Rightarrow D_2 = \frac{15 \times 48}{18}$$

$$\Rightarrow D_2 = 5 \times 8 = 40 \text{ days}$$

**Instructions**

What will come in place of the question mark (?) in the following number series?

**Question 113**

224, 576, 752, 840, 884, ?

- A 960
- B 890
- C 906
- D 908
- E None of these

**Answer:** C

**Explanation:**

Numbers of the form  $(22 \times 2^n)$  are added where n is whole number.

$$224 + (22 \times 2^4) = 576$$

$$576 + (22 \times 2^3) = 752$$

$$752 + (22 \times 2^2) = 840$$

$$840 + (22 \times 2^1) = 884$$

$$884 + (22 \times 2^0) = \mathbf{906}$$

**Question 114**

**55, 66.15, 88.45, 121.9, 166.5, ?**

- A** 212.25
- B** 322.25
- C** 224.25
- D** 222.25
- E** None of these

**Answer:** D

**Explanation:**

Successive multiples of 11.15 are added.

$$55 + (11.15 \times 1) = 66.15$$

$$66.15 + (11.15 \times 2) = 88.45$$

$$88.45 + (11.15 \times 3) = 121.9$$

$$121.9 + (11.15 \times 4) = 166.5$$

$$166.5 + (11.15 \times 5) = \mathbf{222.25}$$

**Free Banking Study Material (15000 Solved Questions)**

**Question 115**

**36, 49, 75, 88, 114, (?)**

- A** 130
- B** 140
- C** 132
- D** 128
- E** 127

**Answer:** E

**Explanation:**

13 and 26 are added alternatively

$$36 + 13 = 49$$

$$49 + 26 = 75$$

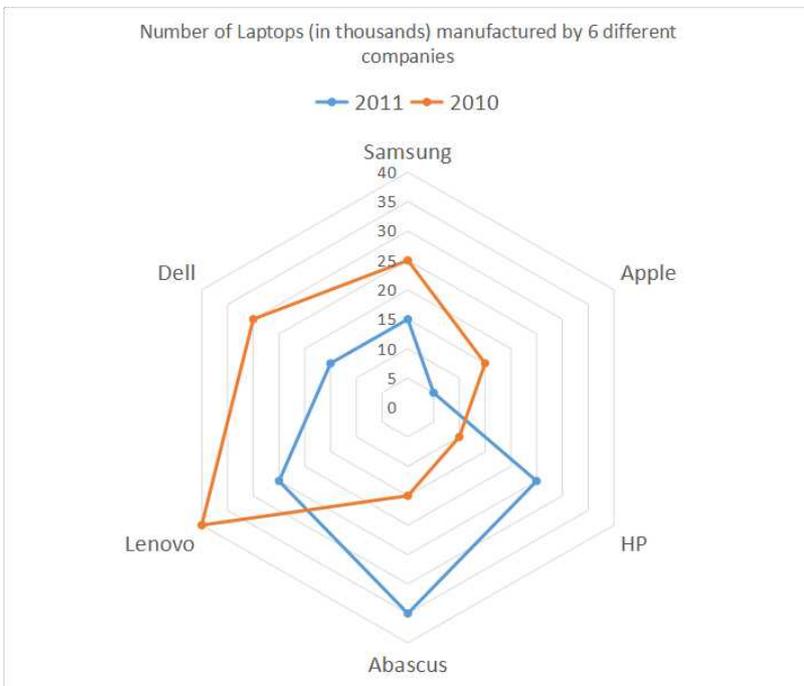

$$75 + 13 = 88$$

$$88 + 26 = 114$$

$$114 + 13 = \mathbf{127}$$

**Instructions**

In the following graph the number of laptops manufactured by six different companies in the years 2010 and 2011 has been given. Read the graph carefully and answer the questions.

**Question 116**

The respective ratio between the number of laptops manufactured by Lenovo in 2010 and that by Abascus in 2011 is

- A 8 : 7
- B 7 : 8
- C 3 : 5
- D 5 : 3
- E None of these

**Answer:** A

**Explanation:**

Number of laptops manufactured by Lenovo in 2010 = 40

Number of laptops manufactured by Abascus in 2011 = 35

=> Required ratio = 40 : 35

= 8 : 7

**Question 117**

What is the average number of laptops (in thousands) manufactured by all companies taken together in 2010?

- A 22
- B 22.5
- C 32.5
- D 23.5
- E 27.5

**Answer:** B

**Explanation:**

Number of laptops (in thousands) manufactured by all companies taken together in 2010

$$= 25 + 15 + 10 + 15 + 40 + 30$$

$$= 135$$

$$\Rightarrow \text{Required average} = \frac{135}{6}$$

$$= \frac{45}{2} = 22.5$$

**Download Highly Rated Banking APP**

**Question 118**

**What is the percentage increase in production of laptops by HP in 2011 in comparison to that in 2010?**

- A 125
- B 100
- C 150
- D 250
- E None of these

**Answer: C**

**Explanation:**

Number of laptops produced by HP in 2010 (in thousands) = 10

Number of laptops produced by HP in 2011 (in thousands) = 25

$$\Rightarrow \text{Required \% increase} = \frac{25-10}{10} \times 100$$

$$= 15 \times 10 = 150\%$$

**Question 119**

**The difference between the number of laptops manufactured by Apple, Lenovo and Samsung in 2010 and that by Dell, HP and Abascus in 2011 is**

- A 5500
- B 4550
- C 3550
- D 4500
- E 5000

**Answer: E**

**Explanation:**

Number of laptops manufactured by Apple, Lenovo and Samsung in 2010

$$= 15,000 + 40,000 + 25,000 = 80,000$$

Number of laptops manufactured by Dell, HP and Abascus in 2011

$$= 15,000 + 25,000 + 35,000 = 75,000$$

$$\Rightarrow \text{Required difference} = 80,000 - 75,000$$

= 5,000

**Question 120**

In 2011, which company manufactured the maximum number of laptops?

- A Abascus
- B Lenovo
- C Dell
- D Samsung
- E HP

**Answer:** A

**Explanation:**

Number of laptops manufactured (in thousands) in 2011 by :

Samsung = 15

Apple = 5

HP = 25

Abascus = 35 **[MAX]**

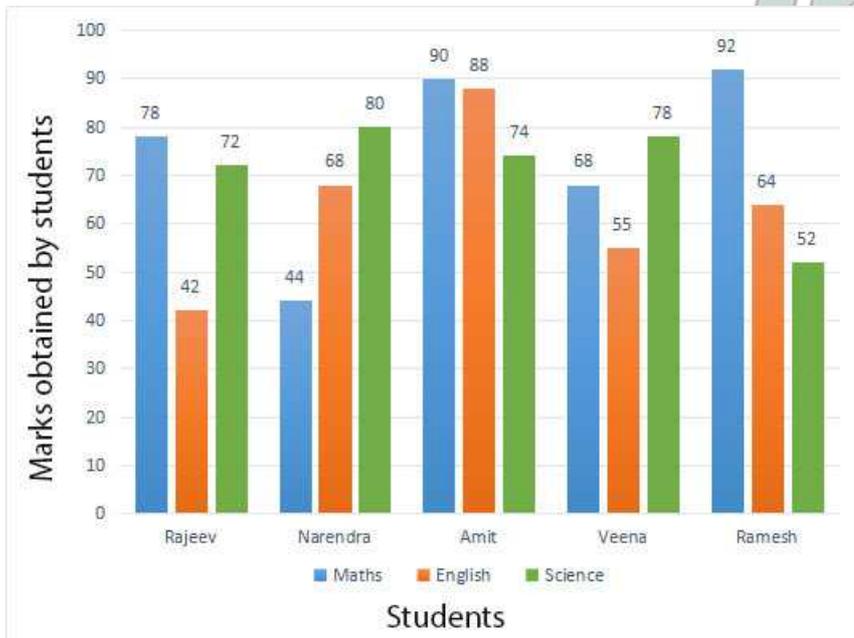

Lenovo = 25

Dell = 15

## Best Youtube Channel for Banking Preparation

**Instructions**

Read the following bar diagram carefully to answer the questions given below.

**Question 121**

Which student scored the maximum marks in all the subjects taken together?

- A Rajeev

- B Narendra
- C Amit
- D Veena
- E Ramesh

**Answer:** C

**Explanation:**

Total marks scored in all the subjects by :

$$\text{Rajeev} = 78 + 42 + 72 = 192$$

$$\text{Narendra} = 44 + 68 + 80 = 192$$

$$\text{Amit} = 90 + 88 + 74 = 252 \text{ [MAX]}$$

$$\text{Veena} = 68 + 55 + 78 = 201$$

$$\text{Ramesh} = 92 + 64 + 52 = 208$$

**Question 122**

The difference between the average marks obtained by Narendra and Veena is

- A 5
- B 3
- C 4
- D 6
- E 7

**Answer:** B

**Explanation:**

Total marks scored by Narendra

$$= 44 + 68 + 80 = 192$$

Total marks scored by Veena

$$= 68 + 55 + 78 = 201$$

$$\Rightarrow \text{Difference in marks} = 201 - 192 = 9$$

$$\therefore \text{Required difference in average marks} = \frac{9}{3} = 3$$

**Question 123**

If the maximum marks of each subject are 100, what is the approximate percentage of marks got by Ramesh?

- A 67
- B 66
- C 64
- D 69
- E 72

**Answer:** D

**Explanation:**

Total marks scored by Ramesh in all the subjects

$$= 92 + 64 + 52 = 208$$

Maximum marks in the three subjects =  $3 \times 100 = 300$

$$\therefore \text{Required \%} = \frac{208}{300} \times 100$$

$$= \frac{208}{3} = 69.33\%$$

$$\approx 69\%$$

## General Knowledge Questions & Answers (Download pdf)

**Question 124**

By what percentage, the marks obtained by Amit in science is less than in Maths?

A 21

B 24

C 22

D 15

E 18

**Answer:** E

**Explanation:**

Marks obtained by Amit in science = 74

Marks obtained by Amit in maths = 90

$$\Rightarrow \text{Required \% decrease} = \frac{90-74}{90} \times 100$$

$$= \frac{16}{9} \times 10 = 17.77\%$$

$$\approx 18\%$$

**Question 125**

The ratio of marks obtained by all students in maths and science is respectively

A 89 : 91

B 23 : 25

C 25 : 23

D 93 : 89

E None of these

**Answer:** D

**Explanation:**

Marks obtained by all students in maths

$$= 78 + 44 + 90 + 68 + 92 = 372$$

Marks obtained by all students in Science

$$= 72 + 80 + 74 + 78 + 52 = 356$$

=> Required ratio = 372 : 356

= 93 : 89

**Instructions**

What value will come in place of the question mark (?) in the following questions.

**Question 126**

$$7072 \div (16\% \text{ of } 884) = 30 \times \frac{1}{2} \text{ of } (? \div 39)$$

A 43

B 62

C 65

D 55

E 67

**Answer: A**

**Explanation:**

$$\text{Expression : } 7072 \div (16\% \text{ of } 884) = 30 \times \frac{1}{2} \text{ of } (? \div 39)$$

$$\Rightarrow 7072 \div \left( \frac{16}{100} \times 884 \right) = 30 \times \frac{3}{2} \times \frac{x}{39}$$

$$\Rightarrow 8 \times \frac{100}{16} = \frac{15x}{13}$$

$$\Rightarrow 50 = \frac{15x}{13}$$

$$\Rightarrow x = \frac{50 \times 13}{15}$$

$$\Rightarrow x = 43.33 \approx 43$$

## Daily Free Banking Online Test

**Question 127**

$$(562.5 \times 6)^6 \div (135 \div 9)^{10} \div (37.5 \times 6)^7 = (3.75 \times 4)^{? - 6}$$

A 0

B 2

C 3

D 4

E 5

**Answer: A**

**Explanation:**

$$\text{Expression : } (562.5 \times 6)^6 \div (135 \div 9)^{10} \div (37.5 \times 6)^7 = (3.75 \times 4)^{? - 6}$$

$$\Rightarrow (3375)^6 \div (15)^{10} \div (225)^7 = (15)^{x-6}$$

$$\Rightarrow ((15)^3)^6 \div (15)^{10} \div ((15)^2)^7 = (15)^{x-6}$$

$$\Rightarrow (15)^{18} \times (15)^{-10} \times (15)^{-14} = (15)^{x-6}$$

$$\Rightarrow (15)^{18-10-14} = (15)^{x-6}$$

$$\Rightarrow (15)^{-6} = (15)^{x-6}$$

Comparing both sides, we get :

$$\Rightarrow x - 6 = -6$$

$$\Rightarrow x = 6 - 6 = 0$$

### Question 128

$$1478.4 \div 56 + 66.8 \times 57 = (? \times 3) + (34 \times 34.5)$$

A 785

B 887

C 889

D 989

E 885

**Answer: B**

### Explanation:

$$\text{Expression : } 1478.4 \div 56 + 66.8 \times 57 = (? \times 3) + (34 \times 34.5)$$

$$\Rightarrow \left( \frac{1478.4}{56} \right) + (66.8 \times 57) = (x \times 3) + (34 \times 34.5)$$

$$\Rightarrow 26.4 + 3807.6 = 3x + 1173$$

$$\Rightarrow 3834 = 3x + 1173$$

$$\Rightarrow 3x = 3834 - 1173 = 2661$$

$$\Rightarrow x = \frac{2661}{3} = 887$$

### Question 129

$$(13 + 2\sqrt{5})^2 = ? \times \sqrt{5} + 189$$

A 26

B 25

C 52

D 130

E None of these

**Answer: C**

### Explanation:

$$\text{Expression : } (13 + 2\sqrt{5})^2 = ? \times \sqrt{5} + 189$$

$$\text{Using : } (a + b)^2 = a^2 + b^2 + 2ab$$

$$\Rightarrow (13)^2 + (2\sqrt{5})^2 + (2 \cdot 13 \cdot 2\sqrt{5}) = (x \times \sqrt{5}) + 189$$

$$\Rightarrow 169 + 20 + 52\sqrt{5} = x\sqrt{5} + 189$$

$$\Rightarrow 189 + 52\sqrt{5} = x\sqrt{5} + 189$$

Comparing both sides, we get :

$$\Rightarrow x = 52$$

## 100 Free Computer Awareness Tests

### Question 130

$$0.2 \times 1.1 + 0.6 \times 0.009 = ? - 313.06$$

- A 353.2184
- B 353.2854
- C 331.54
- D 313.2854
- E 331.2854

**Answer:** D

### Explanation:

Expression :  $0.2 \times 1.1 + 0.6 \times 0.009 = ? - 313.06$

$$\Rightarrow 0.22 + 0.0054 = x - 313.06$$

$$\Rightarrow 0.2254 = x - 313.06$$

$$\Rightarrow x = 0.2254 + 313.06 = 313.2854$$

### Instructions

For the following questions answer them individually

### Question 131

**Sujata scored 2240 marks in an examination that is 128 marks more than the minimum passing percentage of 64%. What is the percentage of marks obtained by Meena if she scores 907 marks less than Sujata?**

- A 35
- B 40
- C 45
- D 36
- E 48

**Answer:** B

### Explanation:

Let maximum marks in the examination =  $100x$

$$\text{Minimum passing marks} = \frac{64}{100} \times 100x = 64x$$

Marks scored by Sujata = 2240

Acc to ques,

$$\Rightarrow 64x + 128 = 2240$$

$$\Rightarrow 64x = 2240 - 128 = 2112$$

$$\Rightarrow x = \frac{2112}{64} = 33$$

$$\Rightarrow \text{Maximum marks} = 100 \times 33 = 3300$$

$$\text{Marks scored by Meena} = 2240 - 907 = 1333$$

$$\therefore \% \text{ marks obtained by Meena} = \frac{1333}{3300} \times 100$$

$$= 40.39\% \approx 40\%$$

### Question 132

There are 8 brown balls, 4 orange balls and 5 black balls in a bag. Five balls are chosen at random. What is the probability of their being 2 brown balls, 1 orange ball and 2 black balls ?

- A  $\frac{191}{1547}$
- B  $\frac{180}{1547}$
- C  $\frac{280}{1547}$
- D  $\frac{189}{1547}$
- E None of these

**Answer:** C

### Explanation:

Total number of balls in the bag =  $8 + 4 + 5 = 17$

$P(S)$  = Total possible outcomes

= Selecting 5 balls at random out of 17

$$\Rightarrow P(S) = C_5^{17} = \frac{17 \times 16 \times 15 \times 14 \times 13}{1 \times 2 \times 3 \times 4 \times 5}$$

$$= 6188$$

$P(E)$  = Favorable outcomes

= Selecting 2 brown, 1 orange and 2 black balls.

$$\Rightarrow P(E) = C_2^8 \times C_1^4 \times C_2^5$$

$$= \frac{8 \times 7}{1 \times 2} \times 4 \times \frac{5 \times 4}{1 \times 2}$$

$$= 28 \times 4 \times 10 = 1120$$

$$\therefore \text{Required probability} = \frac{P(E)}{P(S)}$$

$$= \frac{1120}{6188} = \frac{280}{1547}$$

## General Science Notes (Download PDF)

### Question 133

The ratio of the salaries of A and B is 8 : 9. If A's salary is increased by 50% and B's salary is reduced by 25%, their ratio becomes 16 : 9. What is the salary of A?

- A Rs. 22000
- B Rs. 28500
- C Rs. 37000
- D Cannot be determined
- E None of these

**Answer:** D

**Explanation:**

Let salary of A = Rs.  $8x$

=> Salary of B = Rs.  $9x$

After increasing A's salary by 50 %, A's new salary =  $8x + \frac{50}{100} \times 8x = 12x$

Decreasing B's salary by 25 %, B's new salary =  $9x - \frac{25}{100} \times 9x = \frac{27x}{4}$

Now, ratio of A's and B's salary =  $\frac{12x}{\frac{27x}{4}}$

=  $\frac{16}{9}$ , which is already given.

Thus, we cannot find the salary of A.

Ans - (D)

**Question 134**

If tax on a commodity is reduced by 10%, total revenue remains unchanged. What is the percentage increase in its consumption?

A  $11\frac{1}{9}$

B 20%

C 10%

D  $9\frac{1}{11}$

E None of these

**Answer:** A

**Explanation:**

Revenue = consumption  $\times$  tax amount

Let consumption = 10 and tax = 10

=> Revenue =  $10 \times 10 = 100$

Now, after tax is reduced by 10 %, new tax =  $10 - \frac{10}{100} \times 10$

=  $10 - 1 = 9$

Total revenue remains unchanged

=> New consumption =  $\frac{100}{9}$

$\therefore$  % increase in consumption =  $\frac{\frac{100}{9} - 10}{10} \times 100$

=  $\frac{10}{9} \times 10 = \frac{100}{9}$

=  $11\frac{1}{9}\%$

**Question 135**

The denominators of two fractions are 5 and 7 respectively. The sum of these fractions is  $\frac{41}{35}$ . On interchanging the numerators, their sum becomes  $\frac{43}{35}$ . The fractions are

A  $\frac{1}{9}$  and  $\frac{4}{7}$

B  $\frac{3}{5}$  and  $\frac{4}{7}$

C  $\frac{4}{5}$  and  $\frac{2}{7}$

D  $\frac{3}{5}$  and  $\frac{5}{7}$

E None of these

**Answer:** B

**Explanation:**

Let the two fractions be  $\frac{x}{5}$  and  $\frac{y}{7}$

Acc to ques,

$$\Rightarrow \frac{x}{5} + \frac{y}{7} = \frac{41}{35}$$

$$\Rightarrow \frac{7x+5y}{35} = \frac{41}{35}$$

$$\Rightarrow 7x + 5y = 41$$

After interchanging the numerators

$$\Rightarrow \frac{y}{5} + \frac{x}{7} = \frac{43}{35}$$

$$\Rightarrow \frac{5x+7y}{35} = \frac{43}{35}$$

$$\Rightarrow 5x + 7y = 43$$

Solving above equations, we get :

$$\Rightarrow x = 3, y = 4$$

$$\therefore \text{Original fractions} = \frac{3}{5}, \frac{4}{7}$$

## 200+ Banking Previous Papers (Download PDF)

### Instructions

Read the following table carefully to answer the given questions.

Number of students enrolled in different academic faculties of 4 institutions during 2008 - 2012

College / Year	DAV College			CT College			BKM College			VP College		
	B.Ed	M.Ed	M.Sc	B.Ed	M.Ed	M.Sc	B.Ed	M.Ed	M.Sc	B.Ed	M.Ed	M.Sc
2008												
2009	330	156	675	543	457	884	1090	699	574	657	633	674
2010	534	344	1145	234	554	684	126	243	743	478	744	1185
2011	222	429	454	444	332	393	1133	723	1223	434	835	1349
2012	465	434	810	665	443	790	855	621	2374	1332	964	2234
	250	242	666	877	332	534	334	503	1235	334	1098	1534

### Question 136

What is the average number of enrolled students in B.Ed course during 2009 ?

A 343

B 334

C 336

D 338

E 340

**Answer:** A

**Explanation:**

Number of enrolled students in B.Ed course during 2009

$$= 534 + 234 + 126 + 478$$

$$= 1372$$

$$\Rightarrow \text{Required average} = \frac{1372}{4} = 343$$

**Question 137**

How many students got admission in M.Sc. in DAV college taking all the years together?

- A 3850
- B 3750
- C 3650
- D 3950
- E 4080

**Answer:** B

**Explanation:**

Number of students who got admission in M.Sc. in DAV college taking all the years together  
=  $675 + 1145 + 454 + 810 + 666$   
= 3750

**Question 138**

The difference between the number of students enrolled in CT college in 2010 and that enrolled in DAV college in 2011 is

- A 565
- B 560
- C 540
- D 545
- E 580

**Answer:** C

**Explanation:**

Number of students enrolled in CT college in 2010  
=  $444 + 332 + 393 = 1169$   
Number of students enrolled in DAV college in 2011  
=  $465 + 434 + 810 = 1709$   
=> Required difference =  $1709 - 1169 = 540$

**3 Free Mock for RBI Grade-B (With Solutions)**

**Question 139**

By what per cent the number of students enrolled in M.Ed. in BKM College in 2009 is more that enrolled in B.Ed in the same college in the same year?

- A 87
- B 88
- C 89
- D 93

E None of these

**Answer:** D

**Explanation:**

Number of students enrolled in M.Ed. in BKM College in 2009 = 243

Number of students enrolled in B.Ed. in BKM College in 2009 = 126

$$\Rightarrow \text{Required \%} = \frac{243-126}{126} \times 100$$

$$= \frac{117}{126} \times 100 = \frac{1300}{14}$$

$$= 92.85\% \approx 93\%$$

**Question 140**

**The ratio between the number of students enrolled in B.Ed. and M.Sc. in DAV college in 2011 is**

A 31 : 54

B 54 : 31

C 52 : 27

D 27 : 52

E None of these

**Answer:** A

**Explanation:**

Number of students enrolled in B.Ed. in DAV college in 2011 = 465

Number of students enrolled in M.Sc. in DAV college in 2011 = 810

$$\Rightarrow \text{Required ratio} = 465 : 810$$

$$= 31 : 54$$

## RBI Grade B Previous Papers PDF

### Reasoning

**Instructions**

For the following questions answer them individually

**Question 141**

**Consider the following sentences :**

**"Nowadays the FMCG companies woo their customers or buyers by selling their goods or products in small sachets. This has increased the sale of the product."**

**Which of the following may be the appropriate reason for the given facts?**

A People generally want to buy any products in small quantity

B FMCG companies save cost of packaging and so their profit is maximised

C It is easy to store any product in sachets so buyer prefer them

D It is possible to assess the quality of products without wasting much money when a sachets is bought

E Generally people consume the whole quality of product contained in the sachets at once and so people buy a large number of sachets at one time.

**Answer:** E

## RBI Grade-B Study Material (Download PDF)

### Instructions

Study the following information carefully and answer the given questions : In a certain code language :

"demand and supply market" is written as "pa ni de re"

"market needs more demand" is written as "de ja ni fe"

"supply demand is related" is written as "le de re ab"

"more related to economics" is written as "ka ha ab ja"

### Question 142

What is the code for 'economics'?

- A ab
- B ka
- C ha
- D ja
- E Either 'ka' or 'ha'

**Answer:** E

### Explanation:

The common word in second and third statement is '*demand*' coded as = 'de'

Also, the common word in first two statements (apart from demand) is '*market*' coded as = 'ni'

Similarly, the common word in first and third statements (apart from demand) is '*supply*' coded as = 're'

=> Only word left in first statement is '*and*' coded as = 'pa'

The common word in second and last statement is '*more*' coded as = 'ja'

=> Only word left in second statement is '*needs*' coded as = 'fe'

The common word in last two statements is '*related*' coded as = 'ab'

=> Only word left in third statement is '*is*' coded as = 'le'

Similarly, only words left in last statements are '*to*' and '*economics*' coded as = 'ka' or 'ha'

Thus, the code for 'economics' = **either 'ka' or 'ha'**

=> Ans - (E)

### Question 143

Which of the following represents 'supply related market'?

- A ab ni de
- B ni re ab
- C pa ni re
- D de ab ni
- E None of these

**Answer:** B

### Explanation:

The common word in second and third statement is '*demand*' coded as = 'de'

Also, the common word in first two statements (apart from demand) is 'market' coded as = 'ni'  
Similarly, the common word in first and third statements (apart from demand) is 'supply' coded as = 're'  
=> Only word left in first statement is 'and' coded as = 'pa'  
The common word in second and last statement is 'more' coded as = 'ja'  
=> Only word left in second statement is 'needs' coded as = 'fe'  
The common word in last two statements is 'related' coded as = 'ab'  
=> Only word left in third statement is 'is' coded as = 'le'  
Similarly, only words left in last statements are 'to' and 'economics' coded as = 'ka' or 'ha'  
Thus, 'supply related market' is coded as = **ni re ab**  
=> Ans - (B)

#### Question 144

What is the code for 'more'?

- A fe
- B ni
- C de
- D ja
- E Cannot be determined

Answer: D

#### Explanation:

The common word in second and third statement is 'demand' coded as = 'de'  
Also, the common word in first two statements (apart from demand) is 'market' coded as = 'ni'  
Similarly, the common word in first and third statements (apart from demand) is 'supply' coded as = 're'  
=> Only word left in first statement is 'and' coded as = 'pa'  
The common word in second and last statement is 'more' coded as = 'ja'  
=> Only word left in second statement is 'needs' coded as = 'fe'  
The common word in last two statements is 'related' coded as = 'ab'  
=> Only word left in third statement is 'is' coded as = 'le'  
Similarly, only words left in last statements are 'to' and 'economics' coded as = 'ka' or 'ha'  
Thus, the code for 'more' = **ja**  
=> Ans - (D)

## RBI Assistant Free Mock Test (With Solutions)

#### Question 145

Which of the following may represent "market needs more customers"?

- A fe ja ni sa
- B ja ni de ab
- C ni ja ka pa
- D pa ni fe re

E le re ni ja

**Answer:** A

**Explanation:**

The common word in second and third statement is '*demand*' coded as = 'de'

Also, the common word in first two statements (apart from demand) is '*market*' coded as = 'ni'

Similarly, the common word in first and third statements (apart from demand) is '*supply*' coded as = 're'

=> Only word left in first statement is '*and*' coded as = 'pa'

The common word in second and last statement is '*more*' coded as = 'ja'

=> Only word left in second statement is '*needs*' coded as = 'fe'

The common word in last two statements is '*related*' coded as = 'ab'

=> Only word left in third statement is '*is*' coded as = 'le'

Similarly, only words left in last statements are '*to*' and '*economics*' coded as = 'ka' or 'ha'

Thus, "market needs more customers" is represented by = **fe ja ni sa**

=> Ans - (A)

**Question 146**

**What is the code for 'needs'?**

A ni

B fe

C pa

D le

E None of these

**Answer:** B

**Explanation:**

The common word in second and third statement is '*demand*' coded as = 'de'

Also, the common word in first two statements (apart from demand) is '*market*' coded as = 'ni'

Similarly, the common word in first and third statements (apart from demand) is '*supply*' coded as = 're'

=> Only word left in first statement is '*and*' coded as = 'pa'

The common word in second and last statement is '*more*' coded as = 'ja'

=> Only word left in second statement is '*needs*' coded as = 'fe'

The common word in last two statements is '*related*' coded as = 'ab'

=> Only word left in third statement is '*is*' coded as = 'le'

Similarly, only words left in last statements are '*to*' and '*economics*' coded as = 'ka' or 'ha'

Thus, the code for 'needs' = **fe**

=> Ans - (B)

**Question 147**

**Which of the following may represent "demand needs supply"?**

A re fe de

B fe re ni

- C de fe ja
- D re de le
- E de pa ab

**Answer: A**

**Explanation:**

The common word in second and third statement is '*demand*' coded as = 'de'

Also, the common word in first two statements (apart from demand) is '*market*' coded as = 'ni'

Similarly, the common word in first and third statements (apart from demand) is '*supply*' coded as = 're'

=> Only word left in first statement is '*and*' coded as = 'pa'

The common word in second and last statement is '*more*' coded as = 'ja'

=> Only word left in second statement is '*needs*' coded as = 'fe'

The common word in last two statements is '*related*' coded as = 'ab'

=> Only word left in third statement is '*is*' coded as = 'le'

Similarly, only words left in last statements are '*to*' and '*economics*' coded as = 'ka' or 'ha'

Thus, "demand needs supply" is represented by = **re fe de**

=> Ans - (A)

## Free Banking Study Material (15000 Solved Questions)

**Instructions**

Study the following information carefully and answer the questions given below :

A word and number arrangement machine when given an input line of words and numbers rearranges them following a particular rule in each step. The following is an illustration of input and various steps of rearrangement. (All the numbers are two digit numbers). Input : plan more vacation 35 56 92 nice holiday tours 84 61 12

Step I : 92 plan more vacation 35 56 nice tours 84 61 12 holiday

Step II : 92 84 plan vacation 35 56 nice tours 61 12 more holiday

Step III : 92 84 61 plan vacation 35 56 tours 12 nice more holiday

Step IV : 92 84 61 56 vacation 35 tours 12 plan nice more holiday

Step V : 92 84 61 56 35 vacation 12 tours plan nice more holiday

Step VI : 92 84 61 56 35 12 vacation tours plan nice more holiday

And Step VI is the last step of the rearrangement as the desired arrangement is obtained.

As per rules followed in the above steps, find out in each of the questions the appropriate step for the given input.

Input : hard work pays 96 42 in 79 long run 18 25 57

**Question 148**

**Which step number is the following output?**

**96 79 57 42 work run 18 25 pays long in hard**

- A Step II
- B Step III
- C Step IV
- D Step V
- E There is no such step

**Answer: C**

**Explanation:**

In step I, the word with the smallest first letter alphabetically is placed at last position and the highest number is placed at first position. Then in second step, the word with second smallest first letter is placed at second last position and the second highest number is placed at second position.

Similar pattern is followed in next steps, and finally the numbers are arranged in descending order and the words are also arranged in descending order of their first letters alphabetically.

Input : hard work pays 96 42 in 79 long run 18 25 57

Step I : 96 work pays 42 in 79 long run 18 25 57 hard

Step II : 96 79 work pays 42 long run 18 25 57 in hard

Step III : 96 79 57 work pays 42 run 18 25 long in hard

**Step IV** : 96 79 57 42 work run 18 25 pays long in hard

Step V : 96 79 57 42 25 work 18 run pays long in hard

Step VI : 96 79 57 42 25 18 work run pays long in hard

Step VI is the last step of the rearrangement.

=> Ans - (C)

**Question 149**

**How many elements (words/ numbers) are there between "work" and "in" as they appear in Step III?**

- A Six
- B Five
- C Seven
- D Four
- E Three

**Answer:** A

**Explanation:**

In step I, the word with the smallest first letter alphabetically is placed at last position and the highest number is placed at first position. Then in second step, the word with second smallest first letter is placed at second last position and the second highest number is placed at second position.

Similar pattern is followed in next steps, and finally the numbers are arranged in descending order and the words are also arranged in descending order of their first letters alphabetically.

Input : hard work pays 96 42 in 79 long run 18 25 57

Step I : 96 work pays 42 in 79 long run 18 25 57 hard

Step II : 96 79 work pays 42 long run 18 25 57 in hard

Step III : 96 79 57 work pays 42 run 18 25 long in hard

Step IV : 96 79 57 42 work run 18 25 pays long in hard

Step V : 96 79 57 42 25 work 18 run pays long in hard

Step VI : 96 79 57 42 25 18 work run pays long in hard

Step VI is the last step of the rearrangement.

Number of elements between 'work' and 'in' in step III = 6

=> Ans - (A)

**Question 150**

**Which of the following represents the positions of 'pays' in the Step II?**

- A Seventh from right
- B Sixth from left
- C Eighth from right
- D Fourth from left
- E Fifth from left

**Answer:** D

**Explanation:**

In step I, the word with the smallest first letter alphabetically is placed at last position and the highest number is placed at first position. Then in second step, the word with second smallest first letter is placed at second last position and the second highest number is placed at second position.

Similar pattern is followed in next steps, and finally the numbers are arranged in descending order and the words are also arranged in descending order of their first letters alphabetically.

Input : hard work pays 96 42 in 79 long run 18 25 57

Step I : 96 work pays 42 in 79 long run 18 25 57 hard

Step II : 96 79 work pays 42 long run 18 25 57 in hard

Step III : 96 79 57 work pays 42 run 18 25 long in hard

Step IV : 96 79 57 42 work run 18 25 pays long in hard

Step V : 96 79 57 42 25 work 18 run pays long in hard

Step VI : 96 79 57 42 25 18 work run pays long in hard

Step VI is the last step of the rearrangement.

position of 'pays' in step II = 4th from left end

=> Ans - (D)

**Download Highly Rated Banking APP**

**Question 151**

**Which word/number would be at the seventh position from the right in the Setp IV?**

- A work
- B run
- C long
- D 18
- E 25

**Answer:** B

**Explanation:**

In step I, the word with the smallest first letter alphabetically is placed at last position and the highest number is placed at first position. Then in second step, the word with second smallest first letter is placed at second last position and the second highest number is placed at second position.

Similar pattern is followed in next steps, and finally the numbers are arranged in descending order and the words are also arranged in descending order of their first letters alphabetically.

Input : hard work pays 96 42 in 79 long run 18 25 57

Step I : 96 work pays 42 in 79 long run 18 25 57 hard

Step II : 96 79 work pays 42 long run 18 25 57 in hard  
Step III : 96 79 57 work pays 42 run 18 25 long in hard  
Step IV : 96 79 57 42 work run 18 25 pays long in hard  
Step V : 96 79 57 42 25 work 18 run pays long in hard  
Step VI : 96 79 57 42 25 18 work run pays long in hard  
Step VI is the last step of the rearrangement.

7th position from right in step IV = 'run'

=> Ans - (B)

### Question 152

Which word/number would be at the ninth position from the left in the Step V?

- A long
- B 18
- C pays
- D 25
- E in

Answer: C

### Explanation:

In step I, the word with the smallest first letter alphabetically is placed at last position and the highest number is placed at first position. Then in second step, the word with second smallest first letter is placed at second last position and the second highest number is placed at second position.

Similar pattern is followed in next steps, and finally the numbers are arranged in descending order and the words are also arranged in descending order of their first letters alphabetically.

Input : hard work pays 96 42 in 79 long run 18 25 57

Step I : 96 work pays 42 in 79 long run 18 25 57 hard

Step II : 96 79 work pays 42 long run 18 25 57 in hard

Step III : 96 79 57 work pays 42 run 18 25 long in hard

Step IV : 96 79 57 42 work run 18 25 pays long in hard

Step V : 96 79 57 42 25 work 18 run pays long in hard

Step VI : 96 79 57 42 25 18 work run pays long in hard

Step VI is the last step of the rearrangement.

9th position from left in step V = 'pays'

=> Ans - (C)

### Question 153

Which word/number would be third to the left of the fourth element from the right in the Step III?

- A pays
- B 42
- C run
- D 18

E work

**Answer: B**

**Explanation:**

In step I, the word with the smallest first letter alphabetically is placed at last position and the highest number is placed at first position. Then in second step, the word with second smallest first letter is placed at second last position and the second highest number is placed at second position.

Similar pattern is followed in next steps, and finally the numbers are arranged in descending order and the words are also arranged in descending order of their first letters alphabetically.

Input : hard work pays 96 42 in 79 long run 18 25 57

Step I : 96 work pays 42 in 79 long run 18 25 57 hard

Step II : 96 79 work pays 42 long run 18 25 57 in hard

Step III : 96 79 57 work pays 42 run 18 25 long in hard

Step IV : 96 79 57 42 work run 18 25 pays long in hard

Step V : 96 79 57 42 25 work 18 run pays long in hard

Step VI : 96 79 57 42 25 18 work run pays long in hard

Step VI is the last step of the rearrangement.

4th element from right end in step III = '25'

3rd to the left of 25 in step III = '42'

=> Ans - (B)

## Best Youtube Channel for Banking Preparation

**Instructions**

Study the following information carefully and answer the given questions :

Eight persons J, K, L, M, N, O, P and Q are sitting around a circular table facing the centre, but not necessarily in the same order.

- P is third to the left of M.
- O is second to the left of P.
- Only one person sits between M and L.
- 28 year old is neighbour of both O and P.
- K is third to the left of 28 years old.
- Q is second to the right of J.
- 39 year old is second to the left of N.
- 13 year old is second to the right of K.
- K is elder to N but younger than L. J is not 28 years old.
- M is 16 year old.
- 16 year old and 9 year old are not immediate neighbours.
- Ages are as 9, 13, 16, 18, 21, 28, 33, and 39.

**Question 154**

**Who amongst the following is sitting exactly between M and L?**

- A** Q
- B** Nine-year old
- C** 18-year old
- D** P
- E** 13-year old

**Answer: C**

**Explanation:**

P is third to the left of M and O is second to the left of P. 28 year old is neighbour of both O and P, => 28 year old sit between O and P.

Only one person sits between M and L, => Let he sits second to the left of M.

K is third to the left of 28 years old, => K sits to the immediate right of M.

Q is second to the right of J and J is not 28 years old, => Q is 28 years old and sits between O and P, while J sits between O and K.

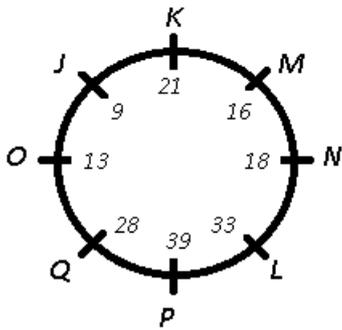

Now, the only vacant spot, i.e. to the immediate left of M is taken by N.

39 year old is second to the left of N, => P is 39 years old.

13 year old is second to the right of K, => O is 13 years old. Also, M is 16 year old.

K is elder to N but younger than L, =>  $L > K > N$

16 year old and 9 year old are not immediate neighbours, => From above statement L can't be 9 years old, hence J is 9 years old.

18-year old N is sitting exactly between M and L.

=> Ans - (C)

**Question 155**

**Which of the following pairs represents the immediate neighbours of 'K' ?**

- A 16-year old and J
- B 9-year old and Q
- C M and 18-year old
- D M and 28-year old
- E L and 9-year old

**Answer: A**

**Explanation:**

P is third to the left of M and O is second to the left of P. 28 year old is neighbour of both O and P, => 28 year old sit between O and P.

Only one person sits between M and L, => Let he sits second to the left of M.

K is third to the left of 28 years old, => K sits to the immediate right of M.

Q is second to the right of J and J is not 28 years old, => Q is 28 years old and sits between O and P, while J sits between O and K.

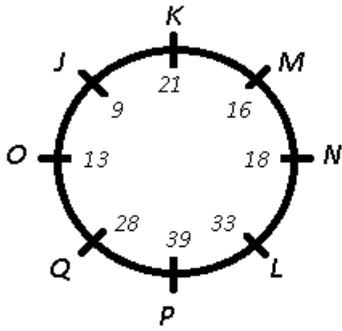

Now, the only vacant spot, i.e. to the immediate left of M is taken by N.

39 year old is second to the left of N, => P is 39 years old.

13 year old is second to the right of K, => O is 13 years old. Also, M is 16 year old.

K is elder to N but younger than L, =>  $L > K > N$

16 year old and 9 year old are not immediate neighbours, => From above statement L can't be 9 years old, hence J is 9 years old.

16-year old (M) and J are the immediate neighbours of 'K'.

=> Ans - (A)

**Question 156**

**What is the position of J with respect to the position of P?**

- A Fourth to the left
- B Fourth to the right
- C Fifth to the left
- D Third to the left
- E Third to the right

**Answer:** D

**Explanation:**

P is third to the left of M and O is second to the left of P. 28 year old is neighbour of both O and P, => 28 year old sit between O and P.

Only one person sits between M and L, => Let he sits second to the left of M.

K is third to the left of 28 years old, => K sits to the immediate right of M.

Q is second to the right of J and J is not 28 years old, => Q is 28 years old and sits between O and P, while J sits between O and K.

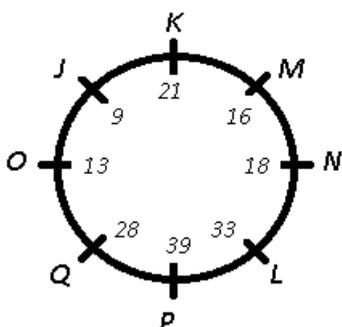

Now, the only vacant spot, i.e. to the immediate left of M is taken by N.

39 year old is second to the left of N, => P is 39 years old.

13 year old is second to the right of K, => O is 13 years old. Also, M is 16 year old.

K is elder to N but younger than L, =>  $L > K > N$

16 year old and 9 year old are not immediate neighbours, => From above statement L can't be 9 years old, hence J is 9 years old.

J is 3rd to the left of P.

=> Ans - (D)

## General Knowledge Questions & Answers (Download pdf)

### Question 157

Starting from J, if all the persons are made to sit in the alphabetical order in clockwise direction, the positions of how many (excluding J) will remain unchanged?

- A None
- B One
- C Two
- D Three
- E More than three

**Answer:** B

#### Explanation:

P is third to the left of M and O is second to the left of P. 28 year old is neighbour of both O and P, => 28 year old sit between O and P.

Only one person sits between M and L, => Let he sits second to the left of M.

K is third to the left of 28 years old, => K sits to the immediate right of M.

Q is second to the right of J and J is not 28 years old, => Q is 28 years old and sits between O and P, while J sits between O and K.

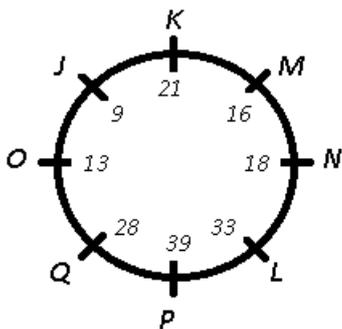

Now, the only vacant spot, i.e. to the immediate left of M is taken by N.

39 year old is second to the left of N, => P is 39 years old.

13 year old is second to the right of K, => O is 13 years old. Also, M is 16 year old.

K is elder to N but younger than L, =>  $L > K > N$

16 year old and 9 year old are not immediate neighbours, => From above statement L can't be 9 years old, hence J is 9 years old.

Starting from J, if all the persons are made to sit in the alphabetical order in clockwise direction, the position of only K will remain unchanged.

=> Ans - (B)

### Question 158

Who among the following is sitting second to the right of 'P'?

- A O
- B 9-year old
- C 33 year old
- D M

E N

**Answer:** E

**Explanation:**

P is third to the left of M and O is second to the left of P. 28 year old is neighbour of both O and P, => 28 year old sit between O and P.

Only one person sits between M and L, => Let he sits second to the left of M.

K is third to the left of 28 years old, => K sits to the immediate right of M.

Q is second to the right of J and J is not 28 years old, => Q is 28 years old and sits between O and P, while J sits between O and K.

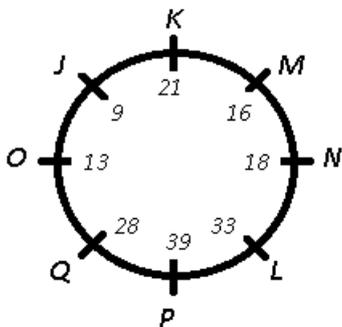

Now, the only vacant spot, i.e. to the immediate left of M is taken by N.

39 year old is second to the left of N, => P is 39 years old.

13 year old is second to the right of K, => O is 13 years old. Also, M is 16 year old.

K is elder to N but younger than L, =>  $L > K > N$

16 year old and 9 year old are not immediate neighbours, => From above statement L can't be 9 years old, hence J is 9 years old.

N is sitting second to the right of 'P'.

=> Ans - (E)

**Question 159**

**Who among the following is sitting just opposite to 'O' ?**

- A L
- B N
- C M
- D J
- E P

**Answer:** B

**Explanation:**

P is third to the left of M and O is second to the left of P. 28 year old is neighbour of both O and P, => 28 year old sit between O and P.

Only one person sits between M and L, => Let he sits second to the left of M.

K is third to the left of 28 years old, => K sits to the immediate right of M.

Q is second to the right of J and J is not 28 years old, => Q is 28 years old and sits between O and P, while J sits between O and K.

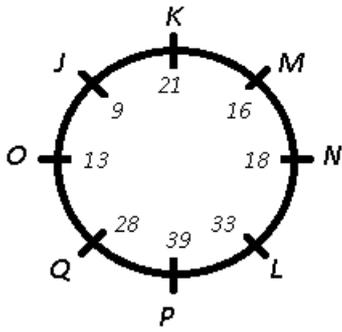

Now, the only vacant spot, i.e. to the immediate left of M is taken by N.

39 year old is second to the left of N, => P is 39 years old.

13 year old is second to the right of K, => O is 13 years old. Also, M is 16 year old.

K is elder to N but younger than L, =>  $L > K > N$

16 year old and 9 year old are not immediate neighbours, => From above statement L can't be 9 years old, hence J is 9 years old.

N is sitting just opposite to 'O'

=> Ans - (B)

## Daily Free Banking Online Test

### Question 160

Who among the following is third to the left of 21-year old?

- A N
- B Q
- C P
- D L
- E M

**Answer:** D

### Explanation:

P is third to the left of M and O is second to the left of P. 28 year old is neighbour of both O and P, => 28 year old sit between O and P.

Only one person sits between M and L, => Let he sits second to the left of M.

K is third to the left of 28 years old, => K sits to the immediate right of M.

Q is second to the right of J and J is not 28 years old, => Q is 28 years old and sits between O and P, while J sits between O and K.

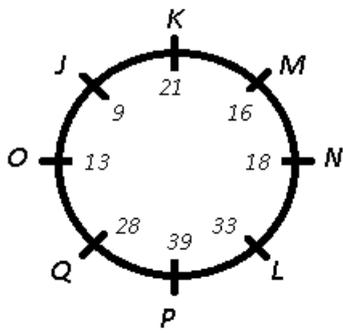

Now, the only vacant spot, i.e. to the immediate left of M is taken by N.

39 year old is second to the left of N, => P is 39 years old.

13 year old is second to the right of K, => O is 13 years old. Also, M is 16 year old.

K is elder to N but younger than L, =>  $L > K > N$

16 year old and 9 year old are not immediate neighbours, => From above statement L can't be 9 years old, hence J is 9 years old.

L is third to the left of 21-year old.

=> Ans - (D)

**Instructions**

Study the following information carefully to answer the given questions

Seven persons— A, B, C, D, K, L and N — are seated in a straight line facing north in ascending order of their salaries. N earns more than L and D. N earns more than A but he does not earn the highest. A earns more than L. The person who earns the second highest receives a salary of Rs. 35,000 while the third lowest earner receives Rs. 23,000. K earns less than L but more than D. C earns Rs. 18,000.

**Question 161**

**Who among the following earn(s) more than Rs. 23,000 but less than Rs. 35,000?**

- A Only A
- B Only L
- C A and L
- D K and L
- E A and N

**Answer: C**

**Explanation:**

N earns more than L and D. N earns more than A, =>  $N > L, D, A$

A earns more than L, =>  $A > L$

K earns less than L but more than D, =>  $L > K > D$

Also, N does not earn the highest and C earns Rs. 18,000, combining above statements, we get :

**$B > N > A > L > K > D, C$**

N earns = Rs. 35,000 and K earns = Rs. 23,000

A and L earn more than Rs. 23,000 but less than Rs. 35,000

=> Ans - (C)

**Question 162**

**Who among the following may earn Rs. 21,000?**

- A K
- B D
- C L
- D C
- E N

**Answer:** B

**Explanation:**

N earns more than L and D. N earns more than A,  $\Rightarrow N > L, D, A$

A earns more than L,  $\Rightarrow A > L$

K earns less than L but more than D,  $\Rightarrow L > K > D$

Also, N does not earn the highest and C earns Rs. 18,000, combining above statements, we get :

**B > N > A > L > K > D, C**

N earns = Rs. 35,000 and K earns = Rs. 23,000

D may earn Rs. 21,000

$\Rightarrow$  Ans - (B)

## 100 Free Computer Awareness Tests

**Question 163**

**Who among the following earns more than K but less than A?**

**A** C

**B** N

**C** D

**D** L

**E** B

**Answer:** D

**Explanation:**

N earns more than L and D. N earns more than A,  $\Rightarrow N > L, D, A$

A earns more than L,  $\Rightarrow A > L$

K earns less than L but more than D,  $\Rightarrow L > K > D$

Also, N does not earn the highest and C earns Rs. 18,000, combining above statements, we get :

**B > N > A > L > K > D, C**

N earns = Rs. 35,000 and K earns = Rs. 23,000

L earns more than K but less than A.

$\Rightarrow$  Ans - (D)

**Question 164**

**Who among the following earns the highest?**

**A** B

**B** N

**C** A

**D** L

**E** K

**Answer:** A

**Explanation:**

N earns more than L and D. N earns more than A,  $\Rightarrow N > L, D, A$

A earns more than L,  $\Rightarrow A > L$

K earns less than L but more than D,  $\Rightarrow L > K > D$

Also, N does not earn the highest and C earns Rs. 18,000, combining above statements, we get :

**$B > N > A > L > K > D, C$**

N earns = Rs. 35,000 and K earns = Rs. 23,000

B earns the highest.

$\Rightarrow$  Ans - (A)

**Question 165**

**Who among the following earns Rs. 35,000?**

**A** A

**B** L

**C** B

**D** K

**E** N

**Answer:** E

**Explanation:**

N earns more than L and D. N earns more than A,  $\Rightarrow N > L, D, A$

A earns more than L,  $\Rightarrow A > L$

K earns less than L but more than D,  $\Rightarrow L > K > D$

Also, N does not earn the highest and C earns Rs. 18,000, combining above statements, we get :

**$B > N > A > L > K > D, C$**

N earns = Rs. 35,000 and K earns = Rs. 23,000

$\Rightarrow$  Ans - (E)

## General Science Notes (Download PDF)

**Instructions**

In each question below are two or three statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance from commonly known facts and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Give answer a: if only conclusion I follows.

Give answer b: if only conclusion II follows.

Give answer c: if either conclusion I or II follows.

Give answer d: if neither conclusion I or II follows.

Give answer e: if both conclusions I and II follow

**Question 166****Statements :**

**Some perfumes are scents.**

**No scent is a bar.**

**No perfume is a can.**

**Conclusions :**

**I. All scents can never be cans.**

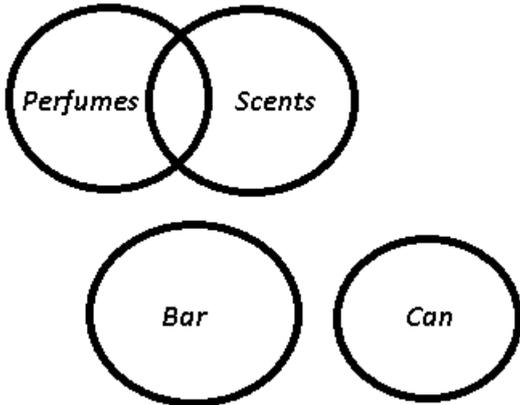

**II. Some bars are cans.**

- A if only conclusion I follows.
- B if only conclusion II follows.
- C if either conclusion I or II follows.
- D if neither conclusion I or II follows.
- E if both conclusions I and II follow

**Answer:** A

**Explanation:**

The venn diagram for above statements is :

Conclusions :

- I. All scents can never be cans = true
- II. Some bars are cans = false

Thus, only conclusion I follows.

=> Ans - (A)

**Question 167**

**Statements :**

**Some perfumes are scents.**

**No scent is a bar.**

**No perfume is a can.**

**Conclusions :**

**I. Some cans are scents.**

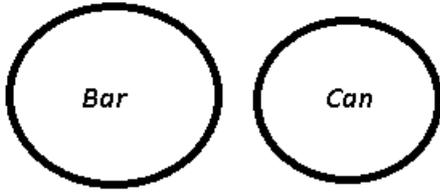

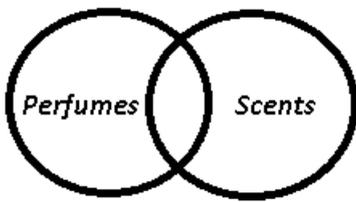

**II. Some bars are perfumes.**

- A if only conclusion I follows.
- B if only conclusion II follows.
- C if either conclusion I or II follows.
- D if neither conclusion I or II follows.
- E if both conclusions I and II follow

**Answer:** D

**Explanation:**

The venn diagram for above statements is :

Conclusions :

- I. Some cans are scents = false
- II. Some bars are perfumes = false

Thus, neither conclusion I or II follows.

=> Ans - (D)

**Question 168**

**Statements :**

**No shop is a factory.**

**Some factories are industries.**

**All industries are machines.**

**Conclusions :**

**I. No industry is a shop.**

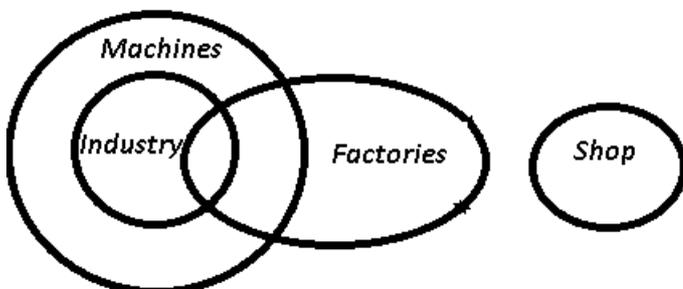

**II. At least some machines are factories**

- A** if only conclusion I follows.
- B** if only conclusion II follows.
- C** if either conclusion I or II follows.
- D** if neither conclusion I or II follows.
- E** if both conclusions I and II follow

**Answer: B**

**Explanation:**

The venn diagram for above statements is :

Conclusions :

- I. No industry is a shop = false
- II. At least some machines are factories = true

Thus, only conclusion II follows.

=> Ans - (B)

**Question 169**

**Statements :**

**All classes are diamonds.**

**No diamond is store.**

**All rooms are classes.**

**Conclusions :**

**I. All rooms are diamonds.**

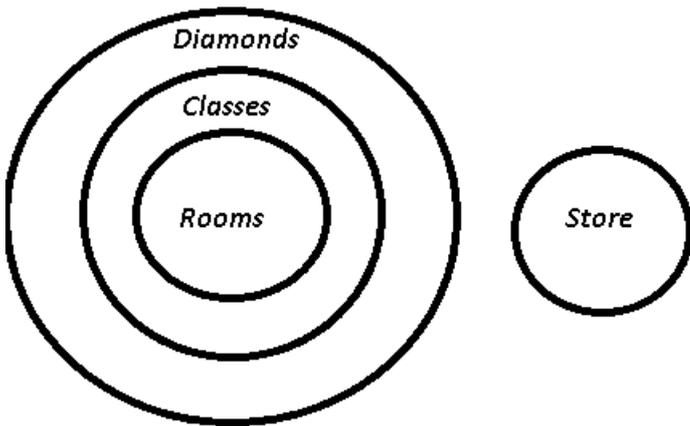

**II. At least some diamonds are classes.**

- A if only conclusion I follows.
- B if only conclusion II follows.
- C if either conclusion I or II follows.
- D if neither conclusion I or II follows.
- E if both conclusions I and II follow

**Answer: E**

**Explanation:**

The venn diagram for above statements is :

Conclusions :

- I. All rooms are diamonds = true
- II. At least some diamonds are classes = true

Thus, both conclusions I and II follow.

=> Ans - (E)

**Question 170**

**Statements :**

**All classes are diamonds.**

**No diamond is store.**

**All rooms are classes.**

**Conclusions :**

**I. Some stores are classes.**

**II. No room is a store.**

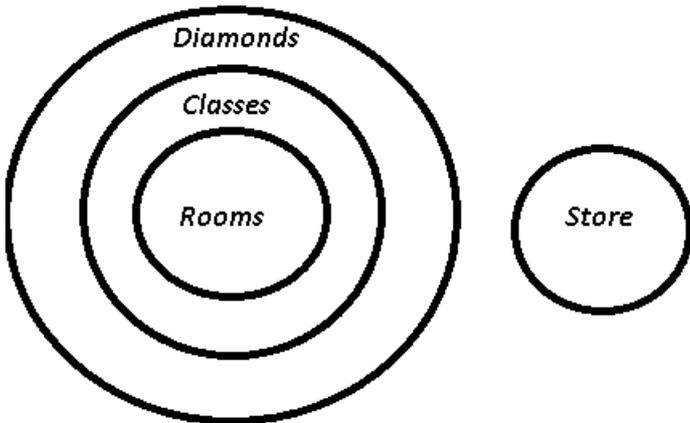

- A if only conclusion I follows.
- B if only conclusion II follows.
- C if either conclusion I or II follows.
- D if neither conclusion I or II follows.

**E** if both conclusions I and II follow

**Answer:** B

**Explanation:**

The venn diagram for above statements is :

Conclusions :

- I. Some stores are classes = false
- II. No room is a store = true

Thus, only conclusion II follows.

=> Ans - (B)

**Question 171**

**Statements :**

**Some prizes are winners.**

**All winners are students.**

**Conclusions :**

**I. At least some winners are prizes.**

**II. At least some students are winners.**

**A** if only conclusion I follows.

**B** if only conclusion II follows.

**C** if either conclusion I or II follows.

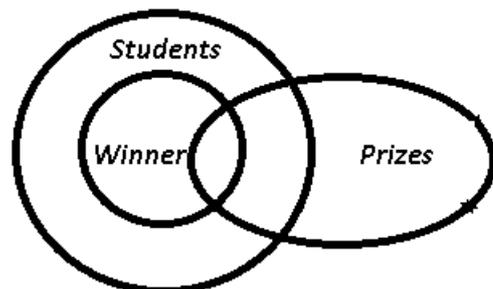

**D** if neither conclusion I or II follows.

**E** if both conclusions I and II follow

**Answer:** E

**Explanation:**

The venn diagram for above statements is :

Conclusions :

- I. At least some winners are prizes = true

II. At least some students are winners = true

Thus, both conclusions I and II follow.

=> Ans - (E)

### 3 Free Mock for RBI Grade-B (With Solutions)

#### Instructions

In these questions relationship between different elements is shown in the statements.

The statements are followed by two conclusions.

Give answer a: if only Conclusion I is true.

Give answer b: if only Conclusion II is true.

Give answer c: if only Conclusion I or II is true.

Give answer d: if neither Conclusion I nor II is true.

Give answer e: if both Conclusions I and II are true.

#### Question 172

##### Statements :

$E \geq F = G; I = T; T \leq G$

##### Conclusions :

I.  $I < E$

II.  $I = E$

- A if only Conclusion I is true.
- B if only Conclusion II is true.
- C if only Conclusion I or II is true.
- D if neither Conclusion I nor II is true.
- E if both Conclusions I and II are true.

**Answer: C**

#### Question 173

##### Statements :

$G > H < T; I > F; H > J$

##### Conclusions :

I.  $J < G$

II.  $F < H$

- A if only Conclusion I is true.
- B if only Conclusion II is true.
- C if only Conclusion I or II is true.
- D if neither Conclusion I nor II is true.
- E if both Conclusions I and II are true.

**Answer: A**

#### Question 174

##### Statements :

$V > W < X; X < Y; Z > X$

##### Conclusions :

I.  $Z > V$

II.  $Y > W$

- A if only Conclusion I is true.
- B if only Conclusion II is true.
- C if only Conclusion I or II is true.
- D if neither Conclusion I nor II is true.
- E if both Conclusions I and II are true.

**Answer:** B

## RBI Grade B Previous Papers PDF

### Question 175

**Statements :**

**$M > N > P; O > P; S < P$**

**Conclusions :**

**I.  $S < M$**

**II.  $O < M$**

- A if only Conclusion I is true.
- B if only Conclusion II is true.
- C if only Conclusion I or II is true.
- D if neither Conclusion I nor II is true.
- E if both Conclusions I and II are true.

**Answer:** A

### Question 176

**Statements :**

**$A > E > F; G > F; M > A$**

**Conclusions :**

**I.  $M > E$**

**II.  $G < A$**

- A if only Conclusion I is true.
- B if only Conclusion II is true.
- C if only Conclusion I or II is true.
- D if neither Conclusion I nor II is true.
- E if both Conclusions I and II are true.

**Answer:** A

### Instructions

In the following questions, the symbols  $\delta$ , #, @ and \* are used with the following meaning as illustrated below :

'P # Q' means 'P is neither greater than nor smaller than Q'.

'P  $\delta$  Q' means 'P is not smaller than Q'.

'P @ Q' means 'P is neither smaller than nor equal to Q'.

'P \* Q' means 'P is not greater than Q'.

$P \% Q'$  means 'P is neither greater than nor equal to Q'.

Now in each of the following questions assuming the given statements to be true, find which of the three conclusions I, II and III given below them is/are definitely true and give your answer accordingly.

**Question 177**

**Statements :**

**D % F, F % H, H \* N**

**Conclusions :**

**I. N @ F**

**II. D % N**

**III. H % D**

- A** None is true
- B** Only I is true
- C** Only II is true
- D** Only III is true
- E** Only I and II are true

**Answer: A**

**Explanation:**

Statements :  $D < F$ ,  $F < H$ ,  $H \leq N$

Conclusions :

I.  $N @ F$  :  $N > F$  : false

II.  $D \% N$  :  $D < N$  : false

III.  $H \% D$  :  $H < D$  : false

Thus, none is true

=> Ans - (A)

## RBI Grade-B Study Material (Download PDF)

**Question 178**

**Statements :**

**B  $\delta$  D, D % T, T \* M**

**Conclusions :**

**I. B @ T**

**II. M @ D**

**III. B @ M**

- A** Only I is true
- B** Only II is true
- C** Only III is true
- D** Only II and III are true
- E** None of these

**Answer: B**

**Explanation:**

Statements :  $B \geq D$ ;  $D < T$ ;  $T \leq M$

Combining above statements, we get :  $M \geq T > D$  and  $B \geq D$

Conclusions :

- I.  $B @ T : B > T$  : false
- II.  $M @ D : M > D$  : true
- III.  $B @ M : B > M$  : false

Thus, only II is true.

=> Ans - (B)

**Question 179**

**Statements :**

**$K \# W, M @ W, R \delta M$**

**Conclusions :**

- I.  $K \% M$
- II.  $W \% R$
- III.  $R @ K$

- A Only I and II are true
- B Only I and III are true
- C Only II and III are true
- D All I, II and III are true
- E None of these

**Answer: D**

**Explanation:**

Statements :  $K = W ; M > W ; R \geq M$

Combining above statements, we get :  $R \geq M > W = K$

Conclusions :

- I.  $K \% M : K < M$  : true
- II.  $W \% R : W < R$  : true
- III.  $R @ K : R > K$  : true

Thus, all I, II and III are true

=> Ans - (D)

**Question 180**

**Statements :**

**$M @ K, K \delta T, T \# J$**

**Conclusions :**

- I.  $J \# K$
- II.  $M @ J$
- III.  $J \% K$

- A Only I is true
- B Only II is true
- C Only III is true
- D Only either I or III is true
- E Only either I or III and II are true

**Answer: E**

**Explanation:**

Statements :  $M > K$  ;  $K \geq T$  ;  $T = J$

Combining above statements, we get :  $M > K \geq T = J$

Conclusions :

I.  $J \neq K$  :  $J = K$  : may or may not be true

II.  $M @ J$  :  $M > J$  : true

III.  $J \% K$  :  $J < K$  : may or may not be true

Thus, only either I or III and II are true.

=> Ans - (E)

## RBI Assistant Free Mock Test (With Solutions)

**Question 181**

**Statements :**

**$R * N$ ,  $N \% B$ ,  $B \# T$**

**Conclusions :**

**I.  $B @ R$**

**II.  $T @ N$**

**III.  $R \% T$**

**A** Only I and II are true

**B** Only I and III are true

**C** Only II and III are true

**D** All I, II and III are true

**E** None of these

**Answer:** D

**Explanation:**

Statements :  $R \leq N$  ;  $N < B$  ;  $B = T$

Combining above statements, we get :  $T = B > N \geq R$

Conclusions :

I.  $B @ R$  :  $B > R$  : true

II.  $T @ N$  :  $T > N$  : true

III.  $R \% T$  :  $R < T$  : true

Thus, all I, II and III are true.

=> Ans - (D)

**Instructions**

In each question below is given a statement followed by two assumptions numbered I and II. An assumption is something supposed or taken for granted. You have to consider the statement and the following assumptions and decide which of the assumptions is implicit in the statement.

Give answer a: if only assumption I is implicit.

Give answer b: if only assumption II is implicit.

Give answer c: if either assumption I or assumption II is implicit.

Give answer d: if neither assumption I nor assumption II is implicit.

Give answer e: if both assumptions I and II are implicit.

**Question 182**

**Statement :** Job rotation helps employees get an overview of the organisation.

**Assumptions :**

- I. Job rotation is the only method to get an overview of the organisation.**
- II. It is required to have an overview of the organisation.**

- A** if only assumption I is implicit.
- B** if only assumption II is implicit.
- C** if either assumption I or assumption II is implicit.
- D** if neither assumption I nor assumption II is implicit.
- E** if both assumptions I and II are implicit.

**Answer:** B

**Question 183**

**Statement :** Let us appoint Ms. X as the CEO of our Company so that the Company's products are also perceived to be genuine.

**Assumptions :**

- I. CEO can change the perception of products.**
- II. Perception is same as the actual reality.**

- A** if only assumption I is implicit.
- B** if only assumption II is implicit.
- C** if either assumption I or assumption II is implicit.
- D** if neither assumption I nor assumption II is implicit.
- E** if both assumptions I and II are implicit.

**Answer:** A

## Free Banking Study Material (15000 Solved Questions)

**Question 184**

**Statement :** An advertisement— The new model has been launched with K-series engine.

**Assumptions :**

- I. People know about K-series engine.**
- II. Engine type/series is important for buyers.**

- A** if only assumption I is implicit.
- B** if only assumption II is implicit.
- C** if either assumption I or assumption II is implicit.
- D** if neither assumption I nor assumption II is implicit.
- E** if both assumptions I and II are implicit.

**Answer:** E

**Question 185**

**Statement :** Mohan tells Nita, "Let us meet over lunch tomorrow".

**Assumptions :**

- I. Lunch timings are known to both.**
- II. Both are aware of the venue for lunch.**

- A** if only assumption I is implicit.
- B** if only assumption II is implicit.
- C** if either assumption I or assumption II is implicit.
- D** if neither assumption I nor assumption II is implicit.
- E** if both assumptions I and II are implicit.

**Answer:** E

**Question 186**

**Statement :** You need to be talented to identify talent.

**Assumptions :**

- I. Talent is acquired and developed.**
- II. Talent is hereditary.**

- A** if only assumption I is implicit.
- B** if only assumption II is implicit.
- C** if either assumption I or assumption II is implicit.
- D** if neither assumption I nor assumption II is implicit.
- E** if both assumptions I and II are implicit.

**Answer:** A

**Download Highly Rated Banking APP**

**Question 187**

**Statement :** The movie is a super-duper hit and has broken all the records.

**Assumptions :**

- I. There is no authentic criterion to judge a hit or a flop.**
- II. The performance of earlier movies is known.**

- A** if only assumption I is implicit.
- B** if only assumption II is implicit.
- C** if either assumption I or assumption II is implicit.
- D** if neither assumption I nor assumption II is implicit.
- E** if both assumptions I and II are implicit.

**Answer:** B

**Instructions**

Below in each question are given two statements (A) and (B). These statements may be either independent causes or may be effects of independent causes or a common cause. One of

these statements may be the effect of the other statement. Read both the statements and decide which of the following answer choice correctly depicts the relationship between these two statements.

Mark answer a: if statement (A) is the cause and statement (B) is its effect.

Mark answer b: if statement (B) is the cause and statement (A) is its effect.

Mark answer c: if both the statements (A) and (B) are independent causes.

Mark answer d: if both the statements (A) and (B) are effects of independent causes.

Mark answer e: if both the statements (A) and (B) are effects of some common cause.

#### Question 188

**a: Government has increased number of buses plying between Mumbai and Surat.**

**b: The government has allowed private bus owners to operate between Mumbai and Surat.**

- A if statement (A) is the cause and statement (B) is its effect.
- B if statement (B) is the cause and statement (A) is its effect.
- C if both the statements (A) and (B) are independent causes.
- D if both the statements (A) and (B) are effects of independent causes.
- E if both the statements (A) and (B) are effects of some common cause.

**Answer: B**

#### Question 189

**a: The association of management colleges conducted a combined admission exam for all the institutes this year.**

**b: As the dates for entrance exam for many management colleges clashed last year, many candidates complained that they could not appear for a number of entrance exams.**

- A if statement (A) is the cause and statement (B) is its effect.
- B if statement (B) is the cause and statement (A) is its effect.
- C if both the statements (A) and (B) are independent causes.
- D if both the statements (A) and (B) are effects of independent causes.
- E if both the statements (A) and (B) are effects of some common cause.

**Answer: B**

## Best Youtube Channel for Banking Preparation

#### Question 190

**a: The department store owner put cameras for surveillance of the store.**

**b: Many products were reported missing by the staff working in the departmental store.**

- A if statement (A) is the cause and statement (B) is its effect.
- B if statement (B) is the cause and statement (A) is its effect.
- C if both the statements (A) and (B) are independent causes.
- D if both the statements (A) and (B) are effects of independent causes.
- E if both the statements (A) and (B) are effects of some common cause.

**Answer: B**

### Instructions

Study the following information to answer the given questions.

V, U and T are seated in a circle facing the centre. A, B and C are also seated in the same circle but two of them are not facing the centre (facing opposite direction of the centre). V is second to the left of C. U is second to the right of A. B is third to the left of T. C is second to the right of T. A is seated next to V.

### Question 191

Which of the following is V's position with respect to C ?

- A Second to the right
- B Third to the left
- C Fourth to the right
- D Fourth to the left
- E Cannot be determined

**Answer:** C

### Explanation:

B is third to the left of T,  $\Rightarrow$  B sits opposite T and T faces the centre.

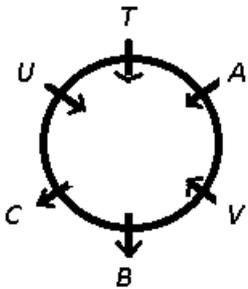

Also, C is second to the right of T.

V is second to the left of C,  $\Rightarrow$  C faces outside and V sits 2nd to its left ( $\because$  if C faces inside, then 2nd to its left is occupied by T).

A is seated next to V,  $\Rightarrow$  A sits to the immediate left of T.

U is second to the right of A,  $\Rightarrow$  A faces inside, and U is to the immediate right of T.

Thus, B faces outside.

V is 4th to the right of C.

$\Rightarrow$  Ans - (C)

### Question 192

Which of the following is true regarding the seating arrangement?

- A A, B and C are seated adjacent
- B V, U and T are seated adjacent
- C There are two persons whose seating arrangement cannot be ascertained
- D Those not facing the centre are seated adjacent
- E There are only two persons seated between V and T

**Answer:** D

### Explanation:

B is third to the left of T,  $\Rightarrow$  B sits opposite T and T faces the centre.

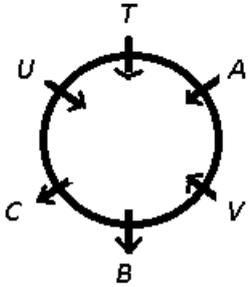

Also, C is second to the right of T.

V is second to the left of C, => C faces outside and V sits 2nd to its left (∵ if C faces inside, then 2nd to its left is occupied by T).

A is seated next to V, => A sits to the immediate left of T.

U is second to the right of A, => A faces inside, and U is to the immediate right of T.

Thus, B faces outside.

The only true statement is that those not facing the centre are seated adjacent.

=> Ans - (D)

## General Knowledge Questions & Answers (Download pdf)

### Question 193

Which of the following is A's position with respect to U ?

- A Second to the left
- B Second to the right
- C Third to the right
- D Cannot be determined
- E None of these

**Answer:** A

#### Explanation:

B is third to the left of T, => B sits opposite T and T faces the centre.

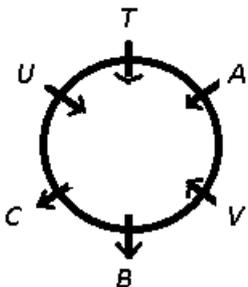

Also, C is second to the right of T.

V is second to the left of C, => C faces outside and V sits 2nd to its left (∵ if C faces inside, then 2nd to its left is occupied by T).

A is seated next to V, => A sits to the immediate left of T.

U is second to the right of A, => A faces inside, and U is to the immediate right of T.

Thus, B faces outside.

A sits 2nd to the left of U.

=> Ans - (A)

### Instructions

In each question below is given a statement followed by two "Expectations" numbered I and II. An Expectation is something which can either be an objective or prospect or desired outcome or hope behind the action /statement. You have to consider the statement and the following Expectations and decide which of the Expectations is implicit in the statement.

Give answer a: if only Expectation I is implicit.

Give answer b: if only Expectation II is implicit.

Give answer c: if either Expectation I or II Expectation II is implicit.

Give answer d: if neither Expectation I nor Expectation II is implicit.

Give answer e: if both Expectations I and II are implicit.

### Question 194

**Statement : A promotional campaign - For healthy children encourage them to play in the playgrounds rather than video games at home.**

**Expectations :**

**I. Health of atleast some children would improve following this campaign.**

**II. Most of the parents would not buy video games for their children after this promotional campaign.**

**A** if only Expectation I is implicit.

**B** if only Expectation II is implicit.

**C** if either Expectation I or II Expectation II is implicit.

**D** if neither Expectation I nor Expectation II is implicit.

**E** if both Expectations I and II are implicit.

**Answer: E**

### Question 195

**Statement : 'We should export the surplus of wheat in order to utilize its over-production this year'.**

**Expectations :**

**I. Knowing that the exported wheat is a part of the surplus of the total production, many countries would not pay the desired amount for it.**

**II. Some countries are willing to import wheat.**

**A** if only Expectation I is implicit.

**B** if only Expectation II is implicit.

**C** if either Expectation I or II Expectation II is implicit.

**D** if neither Expectation I nor Expectation II is implicit.

**E** if both Expectations I and II are implicit.

**Answer: B**

## Daily Free Banking Online Test

### Instructions

Study the following information carefully and answer the questions given below :

Seven representatives of a company — Samir, Nita, Richa, Shweta, Gifty, Paul and Mohit — travelled to three different countries i.e. South Africa, Australia and France. Each of them travelled on different days of the week (no two persons travelled on the same day), starting on Monday and ending on Sunday. Minimum two people travelled to each country and South Africa is the only country to which three people travelled. Samir travelled to South Africa on Monday. Paul

travelled to Australia but neither on Tuesday nor on Saturday. Mohit travelled on Sunday but not to France. The one who travelled to Australia travelled on Tuesday and the one who travelled to France travelled on Saturday. Gifty travelled on Wednesday. Richa travelled to South Africa but not on Thursday. Nita did not travel to France.

**Question 196**

**If everyone's trip is postponed by one day, who will be travelling on Wednesday?**

- A Paul
- B Richa
- C Nita
- D Gifty
- E None of these

**Answer:** C

**Explanation:**

Samir travelled to South Africa on Monday and South Africa is the only country to which three people travelled. The one who travelled to Australia travelled on Tuesday and the one who travelled to France travelled on Saturday. Mohit travelled on Sunday but not to France, => Mohit travelled to South Africa. Gifty travelled on Wednesday. Richa travelled to South Africa but not on Thursday, => Paul travelled to Australia on Thursday and thus, Richa travelled to South Africa on Friday. => Gifty travelled to France on Wednesday. Nita did not travel to France, => Shweta travelled to France on Saturday and Nita travelled to Australia.

Days	Person	Country
Monday	Samir	South Africa
Tuesday	Nita	Australia
Wednesday	Gifty	France
Thursday	Paul	Australia
Friday	Richa	South Africa
Saturday	Shweta	France
Sunday	Mohit	South Africa

If everyone's trip is postponed by one day, then the person who is currently travelling on Tuesday i.e., Nita will travel on Wednesday.

=> Ans - (C)

**Question 197**

**Who amongst the seven representatives travelled on Saturday ?**

- A Shweta
- B Nita
- C Richa
- D Cannot be determined
- E None of these

**Answer:** A

**Explanation:**

Samir travelled to South Africa on Monday and South Africa is the only country to which three people travelled.

The one who travelled to Australia travelled on Tuesday and the one who travelled to France travelled on Saturday.

Mohit travelled on Sunday but not to France, => Mohit travelled to South Africa.

Gifty travelled on Wednesday. Richa travelled to South Africa but not on Thursday, => Paul travelled to Australia on Thursday and thus, Richa travelled to South Africa on Friday.

=> Gifty travelled to France on Wednesday.

Nita did not travel to France, => Shweta travelled to France on Saturday and Nita travelled to Australia.

Days	Person	Country
Monday	Samir	South Africa
Tuesday	Nita	Australia
Wednesday	Gifty	France
Thursday	Paul	Australia
Friday	Richa	South Africa
Saturday	Shweta	France
Sunday	Mohit	South Africa

Shweta travelled on Saturday.

=> Ans - (A)

**Question 198**

Which one of the following combinations is true according to the given information ?

- A Paul - Thursday - South Africa
- B Shweta - Wednesday - France
- C Mohit - Monday - South Africa
- D Richa - Friday - Australia:
- E None is true

**Answer:** E

**Explanation:**

Samir travelled to South Africa on Monday and South Africa is the only country to which three people travelled.

The one who travelled to Australia travelled on Tuesday and the one who travelled to France travelled on Saturday.

Mohit travelled on Sunday but not to France, => Mohit travelled to South Africa.

Gifty travelled on Wednesday. Richa travelled to South Africa but not on Thursday, => Paul travelled to Australia on Thursday and thus, Richa travelled to South Africa on Friday.

=> Gifty travelled to France on Wednesday.

Nita did not travel to France, => Shweta travelled to France on Saturday and Nita travelled to Australia.

Days	Person	Country
Monday	Samir	South Africa
Tuesday	Nita	Australia
Wednesday	Gifty	France
Thursday	Paul	Australia
Friday	Richa	South Africa
Saturday	Shweta	France
Sunday	Mohit	South Africa

Clearly, none of the given options is true.

=> Ans - (E)

## 100 Free Computer Awareness Tests

### Question 199

To which country and on which day did Nita travel ?

- A Wednesday, South Africa
- B Friday, Australia
- C Thursday, Australia
- D Tuesday, Australia
- E None of these

**Answer:** D

#### Explanation:

Samir travelled to South Africa on Monday and South Africa is the only country to which three people travelled.

The one who travelled to Australia travelled on Tuesday and the one who travelled to France travelled on Saturday.

Mohit travelled on Sunday but not to France, => Mohit travelled to South Africa.

Gifty travelled on Wednesday. Richa travelled to South Africa but not on Thursday, => Paul travelled to Australia on Thursday and thus, Richa travelled to South Africa on Friday.

=> Gifty travelled to France on Wednesday.

Nita did not travel to France, => Shweta travelled to France on Saturday and Nita travelled to Australia.

Days	Person	Country
Monday	Samir	South Africa
Tuesday	Nita	Australia
Wednesday	Gifty	France
Thursday	Paul	Australia
Friday	Richa	South Africa
Saturday	Shweta	France
Sunday	Mohit	South Africa

Nita travelled to Australia on Tuesday.

=> Ans - (D)

**Question 200**

**Who was the last one to travel?**

- A** Samir
- B** Richa
- C** Mohit
- D** Shweta
- E** None of these

**Answer:** C

**Explanation:**

Samir travelled to South Africa on Monday and South Africa is the only country to which three people travelled. The one who travelled to Australia travelled on Tuesday and the one who travelled to France travelled on Saturday. Mohit travelled on Sunday but not to France, => Mohit travelled to South Africa. Gifty travelled on Wednesday. Richa travelled to South Africa but not on Thursday, => Paul travelled to Australia on Thursday and thus, Richa travelled to South Africa on Friday. => Gifty travelled to France on Wednesday. Nita did not travel to France, => Shweta travelled to France on Saturday and Nita travelled to Australia.

Days	Person	Country
Monday	Samir	South Africa
Tuesday	Nita	Australia
Wednesday	Gifty	France
Thursday	Paul	Australia
Friday	Richa	South Africa
Saturday	Shweta	France
Sunday	Mohit	South Africa

Mohit was the last one to travel as he travelled on Sunday.

=> Ans - (C)
