Question 4

Which of the following diseases is caused by the deficiency of Iron in human body ?

- A Anaemia
- B Scurvy
- C Dermatitis
- D Beri-Beri
- E None of these

Answer: A

Question 5

Which element increases the absorption of water and calcium in plants?

- A Manganese
- B Boron
- C Copper
- D Molybdenum

Answer: B

Question 6

In ecology, what name is given to the measure of diversity that is often used to quantify the biodiversity of a habitat by taking into account the number of species present, as well as the abundance of each species?

- A Simpson Index
- B Herfindahl - Hirschman Index
- C Flintstone Index
- D Bio-volatility Index

Answer: A

Explanation:

Simpson's Diversity Index is a measure of **diversity** which takes into account the number of species present, as well as the relative abundance of each species. As species richness and evenness increase, so **diversity** increases. Therefore, option A is the correct answer.
