Instructions
For the following questions answer them individually

Question 1
Four of the following five are similar in some way. Choose the one which is the odd one out.

A Edge
B Amazon
C Firefox
D Chrome
E Safari

Answer: B

Explanation:
Edge, Firefox, Chrome and Safari are browsers while Amazon is a company. Hence, option B is right choice.

Question 2
Four of the following five are similar in some way. Choose the one which is the odd one out.

A Asia
B Antarctica
C Africa
D Australia
E Arctic

Answer: E

Explanation:
The first four are continents while Arctic is an ocean. Hence, option E is the correct answer.

Question 3
Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group?

A 17
B 13
C 63
D 71
E 23

Answer: C

Explanation:
Except 63, all are prime numbers, hence 63 is the odd one.

=> Ans - (C)
Question 4
Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group?

A  Watermelon
B  Papaya
C  Jackfruit
D  Pineapple
E  Sweetlime

Answer: D

Explanation:
Among the given options, only pineapple is grown underground, hence it is the odd one.
=> Ans - (D)

Question 5
Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group?

A  Cuckoo
B  Crow
C  Bat
D  Parrot
E  Sparrow

Answer: C

Explanation:
Except bat, all others are birds. Bat is a mammal, hence the odd one.
=> Ans - (C)

Question 6
Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group?

A  Fruit
B  Flower
C  Leaf
D  Petal
E  Tree

Answer: E

Explanation:
Fruit, flower, leaf and petal are all parts of tree, hence tree is the odd one out.

=> Ans - (E)

### IBPS RRB PO Free Mock Test

**Question 7**

Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to the group?

A. Yellow  
B. Blue  
C. Pink  
D. Green  
E. Red

**Answer:** C

**Explanation:**
Except for pink, remaining colours are rainbow colours, hence pink is the odd one out.

=> Ans - (C)

**Question 8**

Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to the group?

A. 23  
B. 29  
C. 37  
D. 39  
E. 31

**Answer:** D

**Explanation:**
Apart from 39, all are prime numbers. Thus, 39 is the odd one out.

=> Ans - (D)

**Question 9**

Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to the group?

A. PS  
B. FI  
C. AD  
D. KN  
E. GD
Answer: E

Explanation:
(A) : P (+3 letters) = S
(B) : F (+3 letters) = I
(C) : A (+3 letters) = D
(D) : K (+3 letters) = N
(E) : G (-3 letters) = D

=> Ans - (E)

Question 10
Which of these numbers is an odd one out from the rest of the numbers?

A 94
B 66
C 84
D 48

Answer: A

Explanation:
The sum of the digits in all other numbers except a is 12.
For example, 6+6=12
8+4=12
4+8=12
7+5=12

Hence, the odd man out is first option where the sum of digits equals 9+4=13

Question 11
Four of the following five are alike in a certain way based on the English alphabetical series and so form a group. Which is the one that does not belong to that group?

A QLT
B KFP
C QJX
D ODZ

Answer: A

Explanation:
The position of the first letter is the average of the positions of the second letter and third letter.
The positions of K, F and P are 11, 6, and 16 respectively. 11 is the average of 6 and 16.
This rule is not followed by option A because the positions of Q, L, and T are 17, 12 and 20 respectively and 17 is not the average of 12 and 20. Hence, A is the answer.

Question 12
Four of the given numbers are alike in a certain way. Which of these numbers doesn't belong to a group?
Question 13
Find the odd one out

A 132
B 56
C 306
D 180

Answer: D

Explanation:
All of the numbers are even composite numbers. Let’s try to factorize the numbers. 132 = 11*12, 56=7*8, 306=17*18, 420 = 20*21. But 180 cannot be represented as the product of consecutive numbers. Hence, it is the odd one out.

Question 14
Four of the following five are alike in a certain way based on the English alphabetical series and so form a group. Which is the one that does not belong to that group?

A CFUX
B LEVO
C HAZS
D GCXS

Answer: D

Explanation:
The first letter's position from left in the alphabetical order is the same as the last letter's position from right in the alphabetical order.
For example: C is the third alphabet from left and X is the third alphabet from right.
Similarly, F is the sixth alphabet from left and U is the sixth alphabet from right.
This sequence is not followed by GCXS.
G is the 7th letter from left but the 7th letter from last is T and not S.
Hence, the answer is option D.

Question 15
Find the odd one out
Margaret Thatcher: UK
Benjamin Netanyahu: Israel
Indira Gandhi: India
Barack Obama: US

Answer: D

Explanation:
All of the options include pairs of heads of state and the country they represented. However, options A, B, and C were Prime Ministers of their country while option D was the President of his country. Hence, option D is the odd one out.

IBPS RRB Clerk Free Mock Test

Question 16
Pick the odd-one among the given options.

A  India
B  Mexico
C  Europe
D  Chile

Answer: C

Explanation:
Except Europe, every other option is a country. So the correct option to choose is C - Europe.

Question 17
Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group?

A  Bat
B  Spider
C  Mosquito
D  Butterfly
E  Cockroach

Answer: A

Explanation:
Spider, Mosquito, Butterfly and Cockroach are insects while bat is a bird, hence it is the odd one.

=> Ans - (A)

Question 18
Four of the following five are alike in a certain way and so form a group. Which is one that does not belong to that group?

A  Orange

Answer: Orange
B Apple
C Guava
D Papaya
E Mango

Answer: E

Explanation:
Apart from Mango, all have more than one seed, hence Mango is the odd one.
=> Ans - (E)

Question 19
Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group?

A Table
B Desk
C Wardrobe
D Computer
E Chair

Answer: D

Explanation:
Among the given options, only Computer is an electrical appliance, hence it is the odd one.
=> Ans - (D)

Question 20
Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group?

A 21
B 35
C 42
D 56
E 49

Answer: E

Explanation:
Among the given numbers, only 49 is a perfect square, hence it is the odd one.
=> Ans - (E)
