Answers & Solutions:

1) Answer (B)

(a) $B \times Q \div L \times R$: B is brother of Q and L is father of Q. Also, L is brother of R.

=> R can be either male or female, thus we cannot say if R is paternal uncle of B or not.

(b) $B \times D \div J \times R \times K$: B is brother of D and J is father of D. Also, J is brother of R, who is brother of K.

=> R is male and paternal uncle of B.

(c) $R \times P \div S \times B$: R is brother of P and S is father of P. Also, S is brother of B.

=> R is nephew of B.

Thus, only from (b), R is paternal uncle of B.

=> Ans - (B)

2) Answer (B)

75 IBPS Clerk Mocks just Rs.199

3) Answer (C)

A and Y are brothers and sons of H, whose gender is unknown.

A is married to M and their child is P.

Since, N is daughter-in-law of H, => N is wife of Y.

Also, S is mother-in-law of H.

Here, P is the child of A and Y is brother of A, => Y is uncle of P.

=> Ans - (C)

4) Answer (N)

A and Y are brothers and sons of H, whose gender is unknown.

A is married to M and their child is P.

Since, N is daughter-in-law of H, => N is wife of Y.

Also, S is mother-in-law of H.

Clearly, N is the wife of Y.

=> Ans - (A)

Daily Free IBPS Clerk Tests

5) Answer (E)

S,K,B and D are siblings where S is female and K is male.

Their father is L who is married to Y and Y has only one daughter,

=> B and D are males and D's wife is T.

Also, J and C are parents of Y(female). Gender of J and C is unknown.

If P is brother of C, and since J is spouse of C, => J is either brother-in-law or sister-in-law of P, based on the gender of J.

=> Ans - (E)

6) Answer (C)

S,K,B and D are siblings where S is female and K is male.

Their father is L who is married to Y and Y has only one daughter,

=> B and D are males and D's wife is T.

Also, J and C are parents of Y(female). Gender of J and C is unknown.

Since, S is sister of D, who is husband of T.

=> T is sister-in-law of S.

=> Ans - (C)

7) Answer (A)

S,K,B and D are siblings where S is female and K is male.

Their father is L who is married to Y and Y has only one daughter,

=> B and D are males and D's wife is T.

Also, J and C are parents of Y(female). Gender of J and C is unknown.

If Z is daughter of T and since, B is brother of T

=> B is uncle of Z.

=> Ans - (A)

Daily Free IBPS Clerk Tests

8) Answer (B)

Expression : $J + H / R \times L$

J is the wife of H, and H is the brother of R.

Also, L is the father of R, => H is the son of L.

Thus, J is the daughter-in-law of L.

=> Ans - (B)
